SELLING RESTRICTIONS

The distribution of the Base Prospectus / Prospectus and the offering or sale of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession the Prospectus comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restriction.

The Notes have not been and will not be registered under the United States Securities Act of 1933 (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States. The Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")).

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. tax regulations.

The Base Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering contemplated in the Prospectus as completed by Final Terms in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the Prospectus Directive, **provided that** any such prospectus has subsequently been completed by Final Terms which specifies that offers may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State, such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of such offer. Except to the extent sub-paragraph (ii) above may apply, neither the Issuer nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

For a description of certain restrictions on offers and sales of the Notes and on the distribution of the Prospectus, see "*Subscription and Sale*" and for any consent to use the Prospectus given by the Issuer, see "*Consent to Use the Prospectus*".

IMPORTANT – EEA RETAIL INVESTORS

Unless the Final Terms in respect of any Notes specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC ("**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET

The Final Terms in respect of any Notes may include a legend entitled "MiFID II Product Governance" which may outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue of Notes about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

STABILISATION

In connection with the issue of any tranche of Notes under the Programme, the Dealer or Dealers (if any) named as stabilizing manager(s) in the applicable Final Terms (or persons acting on behalf of a stabilizing manager) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilization may not necessarily occur. Any stabilization action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the Issue Date and 60 days after the date of the allotment of the relevant tranche of Notes.

FORWARD-LOOKING STATEMENTS

The Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or projections of future results and appraisals, of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "anticipate", "believe", "could", "estimate", "expect", "intend", "may", "plan", "predict", "project", "will" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in the Prospectus containing information on future earning capacity, plans and expectations regarding the Issuer's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it. Forward-looking statements in the Prospectus are based on current appraisals and assumptions that the Issuer makes to the best of its present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including the Issuer's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. The Issuer's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, appraisal or prediction in the Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the sections of the Prospectus: *Summary*, *Risk Factors* and *Description of Raiffeisen Bank International AG*. These sections include more detailed descriptions of factors than the ones contained in this section that might have an impact on the Issuer's business and the markets in which it operates.

In light of these risks, uncertainties and assumptions, future events described in the Prospectus may occur. In addition, neither the Issuer nor the Dealers assume any obligation, except as required by law, to update any forward-looking statement or to conform these forward-looking statements to actual events or developments.

Section B – Raiffeisen Bank International AG as Issuer

Element		
B.1	Legal and commercial name of the issuer	The Issuer's legal name is Raiffeisen Bank International AG (" RBI " or the " Issuer ") and its commercial name is Raiffeisen Bank International or RBI.
B.2	Domicile and legal form of the issuer, legislation under which the issuer operates and its country of incorporation	RBI is a stock corporation (Aktiengesellschaft) incorporated and operating under the laws of the Republic of Austria and domiciled in Vienna.
B.4b	Any known trends affecting the issuer and its industries in which it operates	<p>The Issuer together with its fully consolidated subsidiaries ("RBI Group") has identified the following trends, uncertainties, demands, commitments or events that are reasonably likely to have a material adverse effect on its prospects for at least the current financial year:</p> <ul style="list-style-type: none"> • Continuing increase in governmental and regulatory requirements. Under the EU's Single Supervisory Mechanism ("SSM"), the European Central Bank ("ECB") is given specific tasks related to financial stability and banking supervision, among others empowering the ECB to directly supervise significant banks including RBI. The ECB is inter alia empowered to require significant credit institutions to comply with additional individual own funds and liquidity adequacy requirements in particular as part of the Supervisory Review and Evaluation Process ("SREP") (which may exceed regular regulatory requirements) or take early correction measures to address potential problems. The new supervisory regime and the SSM's supervisory new procedures and practices are not yet fully established and/or disclosed and it is expected that these will be subject to constant scrutiny, change and development. A further pillar of the EU Banking Union is the Single Resolution Mechanism ("SRM") which is meant to establish a uniform procedure for the resolution of credit institutions that are subject to the EU banking supervisory mechanism SSM. As a result of a resolution measure under the SRM, a creditor of RBI may already be exposed to the risk of losing part or all of the invested capital prior to the occurrence of insolvency or a liquidation of RBI. These developments may result in negative consequences and charges for RBI Group and could have a material adverse effect on RBI Group's prospects. Furthermore, full implementation of the capital and liquidity requirements introduced by Basel III, as well as any stress tests that the ECB may conduct in its capacity as the European banking supervisor, could lead to even more stringent requirements being imposed on RBI and the RBI Group with regard to capital adequacy and liquidity planning and this in turn may restrict RBI's margin and potential for growth. The implementation of multifaceted regulatory requirements will also put pressure on RBI in the years to come. • General trends regarding the financial industry. The trends and uncertainties affecting the financial sector in general and consequently also RBI Group continue to include the macroeconomic environment. The financial sector as a whole, but in particular also RBI Group, is affected by the related instability of and increased volatility on the financial markets. RBI Group will not be able to escape the effects of corporate insolvencies, deteriorations in the creditworthiness of

		<p>borrowers and valuation uncertainties due to the volatile securities market. Likewise, the extraordinarily low interest rate level could affect the behaviour of investors and clients alike, which may lead to weaker provisioning and/or pressure on the interest rate spread. In 2017 and 2018, RBI Group therefore faces a difficult economic environment once again.</p> <p>Please see also Element B.12 below.</p>																																							
B.5	Description of the group and the issuer's position within the group	<p>RBI is the ultimate parent company of RBI Group and pursuant to § 30 Austrian Banking Act (<i>Bankwesengesetz – "BWG"</i>) also the superordinated credit institution (<i>übergeordnetes Kreditinstitut</i>) of the RBI credit institution group (<i>Kreditinstitutgruppe</i>), which comprises all credit institutions, financial institutions, securities companies and enterprises offering banking related support services in which RBI holds an indirect or direct majority interest or exerts a controlling influence. The BWG requires RBI in its function as superordinated credit institution for the RBI credit institution group to control among other things risk management, accounting and control processes as well as the risk strategy for the entire RBI Group.</p> <p>Due to the merger with its former parent company Raiffeisen Zentralbank Österreich Aktiengesellschaft ("RZB") in March 2017 (the "Merger 2017"), RBI became the central institution (Zentralinstitut) of the Raiffeisen Regional Banks and therefore holder of the liquidity reserve (according to BWG, in particular § 27a BWG) and acts as central liquidity clearing unit of the Raiffeisen banking group Austria. The Raiffeisen Regional Banks, which jointly own the majority of RBI's shares and, operate mainly at a regional level, render central services for the Raiffeisen banks within their region and also operate as universal credit institutions. The Raiffeisen Regional Banks are not part of RBI Group.</p>																																							
B.9	Profit forecasts or estimates	Not applicable; no profit forecast or profit estimate is made.																																							
B.10	Qualifications in the audit report on the historical financial information	<p>Not applicable.</p> <p>KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft ("KPMG") has audited RBI's German language consolidated financial statements as of 31 December 2017 and 31 December 2016 and has issued unqualified auditor's reports (<i>Bestätigungsvermerk</i>) for these consolidated financial statements. KPMG has also reviewed RBI's German language interim consolidated financial statements for the first half year 2018 ending 30 June 2018. There was no qualification in KPMG's report on the review.</p>

With the adoption of such standards, it was also necessary to adjust the comparable period and comparable reporting date.

Section D – Risks

Element		
D.2	Key risks that are specific to the issuer	<p><u>A. Risks relating to the Issuer</u></p> <ol style="list-style-type: none"> 1. RBI as member of RBI Group is subject to concentration risk with respect to geographic regions and client sectors. 2. RBI Group has been and may continue to be adversely affected by the global financial and economic crisis including the Eurozone (sovereign) debt crisis, the risk of one or more countries leaving the European Union or the Eurozone and the difficult macroeconomic and market environment and may further be required to make impairments on its exposures. 3. RBI Group operates in several markets which are partially characterised by an increased risk of unpredictable political, economic, legal and social changes and related risks, such as exchange rate volatility, exchange controls/restrictions, regulatory changes, inflation, economic recession, local market disruptions, labour market tensions, ethnic conflicts and economic disparity. 4. Any appreciation of the value of any currency in which foreign-currency loans are denominated against CEE currencies or even a continuing high value of such a currency may – <u>also retroactively</u> - deteriorate the quality of foreign currency loans which RBI Group has granted to customers in CEE and also raises the risk of new forced legislation actions as well as regulatory and/or tax measures <u>and/or challenges in litigation proceedings</u> detrimental to RBI Group. 5. Developing legal and taxation systems in some of the countries in which RBI Group operates may have a material adverse effect on the Issuer. 6. In certain of its markets, RBI Group is exposed to a heightened risk of government intervention. 7. RBI Group's liquidity and profitability would be significantly adversely affected should RBI Group be unable to access the capital markets, to raise deposits, to sell assets on favourable terms, or if there is a strong increase in its funding costs (liquidity risk). 8. Any deterioration, suspension or withdrawal of one or more of the credit ratings of RBI or of a member of the RBI Group could result in increased funding costs, may damage customer perception and may have other material adverse effects on RBI Group. 9. RBI Group's business, capital position, and results of operations have been, and may continue to be, significantly adversely affected by market risks. 10. Hedging measures might prove to be ineffective. When entering into unhedged positions, RBI Group is directly exposed to the risk of changes in interest rates, foreign exchange rates or prices of financial instruments. 11. Decreasing interest rate margins may have a material adverse effect on RBI Group. 12. RBI Group has suffered and could continue to suffer losses as a result of the actions of or deterioration in the commercial soundness of its borrowers, counterparties and other financial services institutions (credit risk / counterparty risk).

		<p>13. Adverse movements and volatility in foreign exchange rates had and could continue to have an adverse effect on the valuation of RBI Group's assets and on RBI Group's financial condition, results of operations, cash flows and capital adequacy.</p> <p>14. Risk of disadvantages for RBI due to its membership in Raiffeisen Customer Guarantee Scheme Austria.</p> <p>15. The Issuer is obliged to contribute amounts to the Single Resolution Fund and to ex ante financed funds of the deposit guarantee schemes. Changes of the contributions can lead to additional financial burdens for the Issuer and thus, adversely affects the financial position of the Issuer and the results of its business, financial condition and results of operations.</p> <p>16. RBI is exposed to risks due to its interconnectedness concerning the Institutional Protection Scheme.</p> <p>17. RBI Group may be required to participate in or finance governmental support programmes for credit institutions or finance governmental budget consolidation programmes, including through the introduction of banking taxes and other levies.</p> <p>18. New governmental or regulatory requirements and changes in perceived levels of adequate capitalisation and leverage could lead to increased capital requirements and reduced profitability for RBI (Regulatory) Group.</p> <p>19. The Issuer may not be able to meet the minimum requirements for own funds and eligible liabilities.</p> <p>20. Adjustments to the business profile of RBI or RBI Group may lead to changes in its profitability.</p> <p>21. Compliance with applicable rules and regulations, in particular on anti-money laundering and anti-terrorism financing, anti-corruption and fraud prevention, sanctions, tax as well as capital markets (securities and stock exchange related), involve significant costs and efforts and non-compliance may have severe legal and reputational consequences for RBI.</p> <p>22. RBI's ability to fulfil its obligations under the Notes depends in particular on its financial strength which in turn is influenced by its profitability. The following describes factors which may adversely affect RBI's profitability: Consumer Protection, Project Risk, RBI's Capital Market Dependence; RBI Group's Customer Deposits Dependence, Collateral Eligibility Criteria, Deteriorating Asset Valuations and Impairments of Collateral, Competition, Operational Risk, M&A Risks, Litigation, Risk Management, IT-Systems, Conflicts of Interest, Participation Risk, Capital Risk, Owned Property risk, Settlement risk.</p>

investment.

Legality of Purchase

Neither the Issuer, the Dealers nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser of the Notes.

Issuer risk

Holders of the Notes are exposed to the risk of the Issuer becoming either temporarily or permanently insolvent / unable to pay its debt when it falls due.

The Holders of the Notes are exposed to the risk that RBI faces no limitation on issuing further debt instruments or incurring further liabilities.

The Notes may be subject to write-down or conversion powers exercised by a resolution authority resulting in (i) the amount outstanding to be reduced, including to zero, (ii) a conversion into ordinary shares or other instruments of ownership or (iii) the terms of the Notes being varied (statutory loss absorption).

The Notes may be subject to other resolution powers which may result in the non-payment of interest and/or non-repayment.

The Holders of the Notes are exposed to the risk that in an insolvency of the Issuer deposits have a higher ranking than their claims under the Notes.

Ratings of the Notes, if any, may not reflect all risks - ratings of the Notes may be subject to change at all times.

Liquidity risk

No assurance can be given that any liquid secondary market for the Notes will develop or, if it does develop, that it will continue. In an illiquid market, an investor might not be able to sell its Notes at any given time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Market price risk

The Holder of Notes is exposed to the risk of an unfavourable development of market prices of its Notes which materialises if the Holder sells the Notes prior to the final maturity of such Notes. In such event, the Holder may only be able to reinvest on less favourable conditions as compared to the original investment.

Hedging Transactions

Hedging transactions in connection with the Notes may have an adverse impact on the determination of the purchase and the sales price of the Notes.

Risk of early redemption

If the Issuer has the right to redeem the Notes prior to maturity or if the Notes are redeemed prior to maturity due to the occurrence of an event set out in the conditions of the Notes, a Holder of such Notes is exposed to the risk that due to early redemption its investment will have a lower than expected yield. Also, the Holder may only be able to reinvest on less favourable conditions as compared to the original investment.

Reinvestment Risk

A Holder of Notes may be exposed to risks connected to the reinvestment of cash resources freed from any Note.

Conflicts of interest – Calculation Agent

Potential conflicts of interest may exist between the Calculation Agent and Holders, in particular with respect to certain determinations and judgements that such Calculation Agent may make pursuant to the Terms and Conditions that may influence amounts receivable by the Holders during the term of the Notes and upon their redemption.

[In the case of Senior Notes with an auto-redemption feature insert:

Risk of automatic early redemption

The applicable Final Terms will indicate whether an automatic early redemption is applicable. If the Senior Notes are automatically early redeemed, a Noteholder of such Senior Note is exposed to the risk that due to early redemption his investment may have a lower yield than expected and the Noteholder may not be able to re-invest in a similar quality as the redeemed Notes have been.]

Currency risk

Holders of Notes denominated in a foreign currency are exposed to the risk of changes in currency exchange rates and the introduction of exchange controls.

Because the Global Notes in most cases are held by or on behalf of a Clearing System, investors will have to rely on their procedures for transfer, payment and communication with the Issuer

[In the case of Fixed Rate Notes insert:

Fixed Rate Notes

A Holder of Fixed Rate Notes is exposed to the risk that the price of such Notes falls as a result of changes in the Market Interest Rate.]

[In the case of Floating Rate Notes insert:

Floating Rate Notes

A Holder of Floating Rate Notes is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance. Floating Rate Notes may include caps or floors.]

[Risk of financial benchmark and reference rate continuity

On 30 June 2016, the EU regulation ((EU) 2016/1011) on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**") entered into force (such indices, the "**Benchmarks**"). The Benchmark Regulation could have a material impact on Notes linked to a Benchmark rate or index. The disappearance of a Benchmark or changes in the manner of administration of a Benchmark could result in adjustment to the Terms and Conditions, early redemption, discretionary valuation by the Calculation Agent, delisting or other consequence in relation to Notes linked to such Benchmark. Any such consequence could have a material adverse effect on the value of and return on any such Notes.]

[Uncertainty relating to the LIBOR calculation process and potential phasing out of LIBOR after 2021 may adversely affect the value of the Notes

Actions by the British Bankers' Association, regulators or law enforcement agencies may result in changes to the manner in which LIBOR is determined or the establishment of alternative reference rates. For example, on 27 July 2017, the U.K. Financial Conduct Authority announced that it intends to stop persuading or compelling banks to submit LIBOR rates after 2021.]

Risks of CMS Spread Securities

The Terms and Conditions of CMS Spread Notes may provide for a variable interest rate which is dependent on the difference between rates for swaps having different terms. In the event that the market does not develop as anticipated by investors and that the difference between rates for swaps having different terms decreases to a greater extent than anticipated, the interest rate payable on the Notes will be lower than the interest level prevailing as at the date of purchase. In a worst case scenario, no interest will be payable.

[In the case of Fixed-to-Fixed Rate Notes insert:

Fixed-to-Fixed Rate Notes

The rate of interest, which will be reset, may be different from the initial rate of interest and may adversely affect the yield of the Notes.]

[In the case of [Fixed to Floating] [Fixed to Fixed to Floating] Rate Notes insert:

[Fixed to Floating] [Fixed to Fixed to Floating] Rate Notes

The conversion of the interest rate may affect the secondary market and the market value of the Notes.]

[In the case of Floating to Fixed Rate Notes insert:

Floating to Fixed Rate Notes

The conversion of the interest rate may affect the secondary market and the market value of the Notes.]

[In the case of Zero Coupon Notes insert:

Zero Coupon Notes

A Holder of Zero Coupon Notes is exposed to the risk that the price of such Notes falls as a result of changes in the Market Interest Rate. Prices of Zero Coupon Notes are more volatile than prices of Fixed Rate Notes and are likely to respond to a greater degree to Market Interest Rate changes than interest bearing Notes with a similar maturity.]

[In the case of Index Linked Notes insert:

Index Linked Notes

[If payment of interest is linked to a particular index, a Holder of an index linked interest Note is particularly exposed to the risk of fluctuating interest rate levels and uncertain interest income or may even receive no interest at all.]

[In the case of Notes whose redemption payment is linked to an index, the structures included in this Base Prospectus foresee a redemption payment

which may not be below the principal amount of the relevant Notes. However, the Holder of such a Note is particularly exposed to the risk of fluctuating index levels and, therefore, an uncertain yield on the Note.]¹⁷

Furthermore, the market price of such Notes may be very volatile.]

[In the case of Notes featuring a Cap insert:

Risks in connection with Caps

Holders of Notes featuring a cap will not be able to benefit from any actual favourable development above the cap.]

The Notes are not covered by the statutory deposit protection scheme. [The voluntary nationwide Raiffeisen customer guarantee scheme (Raiffeisen-Kundengarantiegemeinschaft – "RKÖ"), established for non-subordinated obligations, might prove insufficient to compensate the Holders of Notes for any loss suffered in case of insolvency of RBI.] [Losses incurred by Holders of Notes as a consequence of a bail-in measure pursuant to the Austrian Recovery and Resolution Act (Bundesgesetz über die Sanierung und Abwicklung von Banken (Sanierungs- und Abwicklungsgesetz – BaSAG)) will not be covered under RKÖ's voluntary scheme. Notes will not be covered by RKÖ's voluntary scheme, if it is terminated prior to the issuance of the Notes.] [Subordinated Notes are not covered by the voluntary nationwide Raiffeisen customer guarantee scheme (Raiffeisen-Kundengarantiegemeinschaft - RKÖ).]

[In the case of Covered Bank Bonds (Fundierte Bankschuldverschreibungen) insert:

Covered Bank Bonds

There can be no assurance, that the cover assets of the respective cover pool for Covered Bank Bonds will at all times be sufficient in order to cover RBI's obligations under the Notes and/or that replacement values are added in due time to the cover fund.

Although statutory law on Covered Bank Bonds (*Fundierte Bankschuldverschreibungen*) provides that a cover pool shall secure the claims resulting of the outstanding Covered Bank Bonds, investors may receive less than their investment.]

The statutory presentation period provided under German law may be reduced under the Terms and Conditions applicable to the Notes in which case Holders may have less time to assert claims under the Notes.

Pursuant to the Terms and Conditions of the Notes the regular presentation period of 30 years (as provided in § 801 (1) sentence 1 of the German Civil Code (*Bürgerliches Gesetzbuch – BGB*)) may be reduced. In case of partial or total non-payment of amounts due under the Notes the Holder will have to arrange for the presentation of the relevant Global Note to the Issuer. In case of an abbreviation of the presentation period the likelihood that the Holder will not receive the amounts due to him increases since the Holder will have less time to assert his claims under the Notes in comparison to holders of debt instruments the terms and conditions of which do not shorten the statutory presentation period at all or to a lesser degree than the Terms and Conditions of the Notes.

¹⁷ To be deleted if Notes are issued as non-derivative securities in the meaning of Annex V of the Prospectus Regulation.

[In the case of "Resolutions of Holder" is applicable, insert:

Resolutions of Holders - Risks in connection with the application of the German Act on Issues of Debt Securities

If the Terms and Conditions provide for resolutions of Holders, either to be passed in a meeting of Holders or by vote taken without a meeting, thus, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As resolutions properly adopted are binding on all Holders, certain rights of such Holder against the Issuer under the conditions of the Notes may be amended or reduced or even cancelled.]

[In the case of Holders' Representative is applicable, insert:

Holdings' Representative

The Terms and Conditions provide for the appointment of a Holders' Representative; thus it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' Representative who is then exclusively responsible to claim and enforce the rights of all Holders.]

An Austrian court could appoint a trustee for the Notes to exercise the rights and represent the interests of Holders on their behalf in which case the ability of Holders to pursue their rights under the Notes individually may be limited

A trustee (Kurator) could be appointed by an Austrian court for the purposes of representing the common interests of the Holders in matters concerning their collective rights, which may act to the disadvantage of individual or all Holders.

Because the Global Notes in most cases are held by or on behalf of a Clearing System, investors will have to rely on their procedures for transfer, payment and communication with the Issuer

Investors will be able to trade their beneficial interests only through the Clearing System and the Issuer will discharge its payment obligations under the Notes by making payments to the Clearing System for distribution to their account holders.

Reduced yield caused by transaction costs and depositary fees

A Holder's actual yield on the Notes may be significantly reduced from the stated yield by transaction costs and depositary fees.

Margin lending

If a loan is used to finance the acquisition of the Notes and the Notes subsequently go into default, or if the trading price diminishes significantly, the Holder not only has to face a potential loss on its investment, but it will also still have to repay the loan and pay distribution thereon.

Risk of potential conflicts of interest

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions and may perform services for the Issuer and its affiliates in the ordinary course of business.

Change of law

There can be no assurance given as to the impact of any possible change to German or Austrian law or any European laws having direct application in Germany and/or Austria. Such changes in law may include, but are not limited to, the introduction of a new regime enabling the competent authorities in Austria to cause Holders to share in the losses of the Issuer under certain circumstances.

Tax impact of the investment

An effective yield on the Notes may be diminished by the tax impact on an investment in the Notes.

Proposed EU Financial Transaction Tax

In case the contemplated Financial Transaction Tax will be implemented, sale and purchase of the Notes may constitute taxable transactions in this respect.

Payments on the Notes may be subject to U.S. Withholding Tax under FATCA

In certain circumstances payments made on or with respect to the Notes after 31 December 2018 may be subject to U.S. withholding tax under Sections 1471 through 1474 of the U.S. Internal Revenue Code (commonly referred to as FATCA) or similar law implementing an intergovernmental approach to FATCA.

[In case of Subordinated Notes insert:**Specific risks in connection with Subordinated Notes**

- *Obligations under Subordinated Notes will only be fulfilled after all non-subordinated claims of creditors have been satisfied*
- *The Holders of Subordinated Notes are exposed to the risk that RBI may issue subordinated debt instruments or incur subordinated liabilities which are senior to the Subordinated Notes*
- *Subordinated Notes are not covered by any (statutory or voluntary) deposit protection scheme*
- *Subordinated Notes do not give the right to accelerate future payments*
- *Subordinated Notes may not be early redeemed at the option of the Holders, and any rights of RBI to early redeem or repurchase Subordinated Notes are subject to the prior permission of the Competent Authority*
- *Specific risks in relation to the secondary market of Subordinated Notes; Market making for RBI's own Subordinated Notes requires the prior permission of the competent authority and is subject to certain conditions and thresholds]*

[In case of Eligible Notes insert:

Additional Risks in connection with Eligible Notes

- *The qualification of the Eligible Notes as instruments eligible for MREL purposes is subject to uncertainty*
- *Claims of Holders of Non-preferred senior Eligible Notes will be junior to the claims of holders of certain other senior claims.*
- *Eligible Notes may be redeemed prior to maturity for tax or regulatory reasons.*
- *Eligible Notes do not give the right to accelerate future payments of interest or principal amount.*
- *Debt instruments with 'non-preferred' senior ranking are new types of instruments for which there is no trading history.]*

[In case of Notes denominated in Renminbi insert:

Specific risks for Notes denominated in Renminbi

- *Renminbi is not completely freely convertible and there are restrictions on remittance of the Renminbi into and outside the People's Republic of China which may adversely affect the liquidity of Renminbi Notes*

Renminbi is not completely freely convertible at present.

- *There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of the Notes and the Issuer's ability to source Renminbi outside the PRC to service the Notes*

As a result of the restrictions by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside of the PRC is limited. This may affect the liquidity of the Notes and the Issuer's ability to source Renminbi to service the Notes.

- *Investments in Renminbi Notes are subject to Renminbi exchange rate risks*

The value of the Renminbi against the Euro and other foreign currencies fluctuates from time to time and is affected by changes in the PRC, by international political and economic conditions and by many other factors. The value of these Renminbi payments of interest and principal in euro or other applicable foreign currencies may vary with the prevailing exchange rates.

- *Investments in the Renminbi Notes are subject to currency risks*

Under certain circumstances the Issuer is entitled to settle any payment under the Renminbi Notes (in whole or in part) in U.S. dollars.

- *Investment in the Notes is subject to interest rate risks*

In addition, further liberalisation of interest rates by the PRC government may increase interest rate volatility and the trading price of

Abschnitt B – Raiffeisen Bank International AG als Emittentin

Punkt		
B.1	Gesetzliche und kommerzielle Bezeichnung	Der gesetzliche Name der Emittentin lautet Raiffeisen Bank International AG (" RBI " oder " Emittentin ") und ihre kommerziellen Namen sind Raiffeisen Bank International oder RBI.
B.2	Sitz und Rechtsform der Emittentin, das für die Emittentin geltende Recht und Land der Gründung der Gesellschaft	Die RBI ist eine nach österreichischem Recht gegründete und österreichischem Recht unterliegende Aktiengesellschaft mit Sitz in Wien.
B.4b	Alle bereits bekannten Trends, die sich auf die Emittentin und die Branchen, in denen sie tätig ist, auswirken	<p>Die Emittentin, gemeinsam mit ihren konsolidierten Tochtergesellschaften ("RBI-Konzern"), hat folgende Trends, Unsicherheiten, Anforderungen, Verbindlichkeiten oder Ereignisse identifiziert, die hinreichend wahrscheinlich wesentliche, nachteilige Auswirkungen auf ihre Perspektiven zumindest im laufenden Jahr haben:</p> <ul style="list-style-type: none"> • <u>Laufendes Anwachsen von Regierungs- und regulatorischen Anforderungen.</u> Im Rahmen des Einheitlichen Aufsichtsmechanismus ("SSM") hat die Europäische Zentralbank ("EZB") spezielle Aufgaben in Bezug auf Finanzmarktstabilität und Bankenaufsicht. Unter anderem ist die EZB berechtigt, wesentliche Banken direkt zu beaufsichtigen; darunter die RBI. Die EZB kann unter anderem wesentlichen Banken individuell zusätzliche Eigenmittel- und Liquiditätserfordernisse vorschreiben, insbesondere als Teil des aufsichtlichen Überprüfungs- und Evaluierungsprozesses (<i>SREP</i>) (die die gewöhnlichen regulatorischen Anforderungen übersteigen können), oder frühzeitige Korrekturmaßnahmen ergreifen, um potenziellen Problemen zu begegnen. Das neue Aufsichtsregime und die neuen Aufsichtsverfahren und -praktiken des SSM sind noch nicht voll etabliert und/oder bekannt gemacht und es wird erwartet, dass diese konstanter Prüfung, Änderung und Weiterentwicklung unterworfen sein werden. Eine weitere Säule der EU-Bankenunion ist der Einheitliche Bankenabwicklungsmechanismus ("SRM"), der ein einheitliches Verfahren zur Abwicklung von Kreditinstitutionen etablieren soll, die dem SSM unterworfen sind. Als Ergebnis der Abwicklungsmaßnahmen im SRM, könnte ein Kreditgeber der RBI dem Risiko ausgesetzt sein, alle oder einen Teil der eingesetzten Mittel bereits zu einem Zeitpunkt zu verlieren, bevor eine Insolvenz oder eine Liquidation der RBI auftritt. Diese Entwicklungen können zu negativen Konsequenzen und Kosten für den RBI-Konzern führen und könnten einen wesentlichen negativen Effekt auf die Perspektiven des RBI-Konzerns haben. Darüber hinaus könnte die volle Implementierung der durch Basel III eingeführten Kapital- und Liquiditätsanforderungen sowie jeglicher Stresstest, den die EZB in ihrer Eigenschaft als Europäische Bankenaufsicht durchführen könnte, dazu führen, dass der RBI noch strengere Anforderungen an ihre Kapitalausstattung und Liquiditätsplanung verordnet werden und dies wiederum könnte die Margen der RBI und ihr Wachstumspotenzial einengen. Die Einführung vielgestaltiger regulatorischer Anforderungen wird auch in den kommenden Jahren Druck auf die RBI ausüben. • <u>Allgemeine Trends betreffend die Finanzbranche.</u> Die Finanzbranche

		<p>im Allgemeinen und folglich auch der RBI-Konzern sind von anhaltenden Trends und Unsicherheiten betroffen, zu denen auch das makroökonomische Umfeld gehört. Der Finanzsektor als Ganzer, aber auch der RBI-Konzern im Speziellen, ist von der damit verbundenen Instabilität und erhöhten Volatilität der Finanzmärkte betroffen. Der RBI-Konzern wird sich auch den Folgewirkungen von Unternehmensinsolvenzen, Bonitätsverschlechterungen der Kreditnehmer und Bewertungsunsicherheiten durch volatile Wertpapiermärkte nicht entziehen können. Ebenso könnten die außerordentlich niedrigen Zinsen das Verhalten von Investoren und Kunden ändern, was zu weniger Vorsorgebedarf und/oder Druck auf die Zinsmarge führen könnte. Deshalb wird auch in den Jahren 2017 und 2018 der RBI-Konzern mit einem schwierigen wirtschaftlichen Umfeld konfrontiert sein.</p> <p>Bitte lesen Sie auch das untenstehende Element B.12.</p>
B.5	Ist die Emittentin Teil einer Gruppe, eine Beschreibung der Gruppe und der Stellung der Emittentin innerhalb dieser Gruppe	<p>Die RBI ist Konzern-Muttergesellschaft des RBI-Konzerns und entsprechend dem § 30 des österreichischen Bankwesengesetzes ("BWG") auch das übergeordnete Kreditinstitut der RBI-Kreditinstitutsgruppe, die alle Kreditinstitute, Finanzinstitute, Wertpapierfirmen und banknahen Dienstleister umfasst, an denen die RBI indirekt oder direkt mehrheitlich beteiligt ist oder auf welche sie maßgeblichen Einfluss hat. Das BWG verpflichtet die RBI in ihrer Funktion als übergeordnetes Kreditinstitut der RBI-Kreditinstitutsgruppe u.a. Risikomanagement, Rechnungswesen und Revision sowie die Risikostrategie für den gesamten RBI-Konzern zu steuern.</p> <p>Infolge der Verschmelzung mit ihrer früheren Muttergesellschaft Raiffeisen Zentralbank Österreich Aktiengesellschaft ("RZB") im März 2017 (der "Merger 2017") wurde die RBI Zentralinstitut der Raiffeisen Landesbanken, bei dem die Raiffeisen Landesbanken eine Liquiditätsreserve (gemäß BWG, insbesondere § 27a) zu halten haben. Die RBI agiert auch als zentrale Liquiditätsclearingeinheit der Raiffeisen Bankengruppe Österreich. Die Raiffeisen Landesbanken besitzen gemeinsam den Mehrheitsanteil an der RBI, agieren vorwiegend auf regionaler Ebene, erbringen zentrale Dienstleistungen für die Raiffeisen Banken in ihrer Region und sind darüber hinaus als Universalbanken tätig. Die Raiffeisen Landesbanken sind nicht Teil des RBI-Konzerns.</p>
B.9	Gewinnprognosen oder -schätzungen	Nicht anwendbar; es wird keine Gewinnprognose oder -schätzung gemacht.
B.10	Art etwaiger Einschränkungen der Bestätigungsvermerke zu den historischen Finanzinformationen	Nicht anwendbar. Die KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft (" KPMG ") hat die in deutscher Sprache erstellten Konzernabschlüsse der RBI zum 31. Dezember 2017 und zum 31. Dezember 2016 geprüft und einen uneingeschränkten Bestätigungsvermerk für diese Konzernabschlüsse erteilt. Die KPMG hat auch den Konzernzwischenabschluss in deutscher Sprache für das am 30. Juni 2018 beendete erste Halbjahr 2018 prüferisch durchgesehen. Im KPMG-Bericht über die prüferische Durchsicht gab es keinen einschränkenden Vermerk.

Abschnitt D – Risiken

Punkt		
D.2	<p>Zentrale Risiken, die der Emittentin eigen sind</p>	<p><u>A. Risiken in Bezug auf die Emittentin</u></p> <ol style="list-style-type: none"> 1. RBI ist Teil des RBI-Konzerns und unterliegt einem Konzentrationsrisiko im Hinblick auf geographische Regionen und Kundensektoren. 2. Der RBI-Konzern war und könnte weiterhin von der weltweiten Finanz- und Wirtschaftskrise einschließlich der (Staats-)Schuldenkrise in der Euro-Zone, dem Risiko eines Ausstiegs eines oder mehrerer Staaten aus der Europäischen Union oder der Euro-Zone und einem widrigen makroökonomischen Umfeld und widrigen Marktbedingungen nachteilig beeinflusst werden und könnte verpflichtet sein, weitere Wertminderungen bei ihren Beteiligungen vorzunehmen. 3. Der RBI-Konzern ist in verschiedenen Märkten tätig, die teilweise von einem gestiegenen Risiko hinsichtlich unvorhersehbarer politischer, wirtschaftlicher, rechtlicher und sozialer Änderungen und damit zusammenhängender Risiken, wie zum Beispiel Wechselkursrisiko, Devisenkontrollen bzw. -beschränkungen, aufsichtsrechtliche Änderungen, Inflation, wirtschaftliche Rezession, lokale Marktstörungen, Spannungen an den Arbeitsmärkten, ethnische Konflikte und wirtschaftliche Unterschiede, geprägt sind. 4. Jede Wertsteigerung einer Währung, in der Fremdwährungskredite gegen CEE-Währungen abgeschlossen wurden, oder auch ein weiterhin hoher Wert einer solchen Währung könnte – auch rückwirkend - die Qualität der Fremdwährungskredite verschlechtern, die der RBI-Konzern an Kunden in CEE vergeben hat, und erhöht auch das Risiko neuer Rechtsvorschriften und aufsichtsrechtlicher und/oder steuerlicher Maßnahmen und/oder von Anfechtungen in Gerichtsverfahren, die nachteilig für den RBI-Konzern sind. 5. Noch in der Entwicklung befindliche Rechts- und Steuersysteme in einigen Ländern, in denen der RBI-Konzern tätig ist, könnten wesentliche nachteilige Auswirkungen auf die Emittentin haben. 6. In bestimmten Märkten ist der RBI-Konzern einem erhöhten Risiko von staatlichen Interventionen ausgesetzt. 7. Die Liquidität und die Profitabilität des RBI-Konzerns würde erheblich nachteilig beeinflusst werden, wenn der RBI-Konzern nicht in der Lage sein sollte, Zugang zu den Kapitalmärkten zu haben, Einlagen zu erhöhen, Vermögenswerte zu vorteilhaften Bedingungen verkaufen, oder wenn die Finanzierungskosten stark ansteigen (Liquiditätsrisiko). 8. Eine Verschlechterung, Aussetzung oder ein Widerruf einer oder mehrerer Kreditratings der RBI oder eines Mitglieds des RBI-Konzerns könnte zu erhöhten Refinanzierungskosten führen, die Kundenwahrnehmung schädigen und könnte weitere erheblich nachteilige Effekte auf den RBI-Konzern haben. 9. Die Geschäftstätigkeit, Kapitalisierung und Geschäftsergebnisse des RBI-Konzerns wurden und könnten weiterhin erheblich nachteilig von Marktrisiken beeinflusst werden. 10. Hedging-Strategien könnten sich als wirkungslos erweisen. Wenn der RBI-Konzern Positionen ohne Vornahme entsprechender

		<p>Absicherungsgeschäfte eingeht, ist der RBI-Konzern direkt dem Risiko von Änderungen der Zinssätze, Wechselkurse oder Preise von Finanzinstrumenten ausgesetzt.</p> <ol style="list-style-type: none"> 11. Sich verringernde Zinsmargen können einen erheblich nachteiligen Einfluss auf den RBI-Konzern haben. 12. Der RBI-Konzern hat und könnte weiterhin durch Handlungen ihrer Schuldner, Vertragspartner oder anderer Finanzdienstleister oder durch die Verschlechterung von deren Kreditwürdigkeit Verluste erleiden (Kreditrisiko / Gegenparteirisiko). 13. Nachteilige Schwankungen und Volatilität bei Wechselkursen hatten und könnten weiterhin einen nachteiligen Einfluss auf die Bewertung der Vermögenswerte des RBI-Konzerns und auf die finanzielle Situation, das Geschäftsergebnis, die Zahlungsströme und die Kapitaladäquanz des RBI-Konzerns haben. 14. Risiko von Nachteilen für RBI aufgrund ihrer Mitgliedschaft in der Raiffeisen-Kundengarantiegemeinschaft Österreich. 15. Die RBI ist verpflichtet, Beiträge zum Einheitlichen Abwicklungsfonds und zu ex-ante finanzierten Fonds der Einlagensicherungssysteme zu leisten. Änderungen dieser Beiträge können zu zusätzlichen finanziellen Belastungen für die RBI führen und folglich die finanzielle Position der Emittentin sowie die Vermögens-, die Finanz- und Ertragslage negativ beeinflussen können. 16. Die RBI ist aufgrund ihrer Verflechtung in Zusammenhang mit dem institutionellen Sicherungssystem Risiken ausgesetzt. 17. Der RBI-Konzern könnte verpflichtet sein, an staatlichen Unterstützungsprogrammen für Kreditinstitute teilzunehmen oder diese zu finanzieren oder staatliche Budgetkonsolidierungsprogramme, einschließlich der Einführung von Banksteuern oder anderen Abgaben, zu finanzieren. 18. Neue staatliche oder aufsichtsrechtliche Anforderungen und Änderungen zu wahrgenommenen Level der adäquaten Kapitalisierung und des Verschuldungsgrades könnte der RBI-Konzern (aus regulatorischer Sicht) erhöhten Kapitalanforderungen und reduzierter Profitabilität unterwerfen. 19. Die Emittentin ist möglicherweise nicht in der Lage, die Mindestanforderungen für Eigenmittel und berücksichtigungsfähige Verbindlichkeiten zu erfüllen. 20. Anpassungen des Geschäftsprofils der RBI oder des RBI-Konzerns könnte zu Änderungen in ihrer Profitabilität führen. 21. Die Einhaltung von anwendbaren Vorschriften und Bestimmungen, insbesondere Geldwäsche- und Anti-Terrorismusfinanzierungsregeln, Anti-Korruptionsregelungen und Bestimmungen zur Betrugsbekämpfung, Sanktionsregime und Steuer- und Kapitalmarktvorschriften (in Bezug auf Wertpapier- und Börsen-Compliance), umfasst erhebliche Kosten und Anstrengungen und die Nichteinhaltung dieser Vorschriften könnte zu schweren juristischen und Reputationsrisiken für die RBI führen. 22. Die Fähigkeit der RBI, ihre Verpflichtungen unter den Schuldverschreibungen zu erfüllen, hängt insbesondere von ihrer Finanzstärke ab, die wiederum von ihrer Profitabilität beeinflusst wird. Die folgenden Faktoren können RBI's Profitabilität nachteilig

		beeinflussen: Verbraucherschutz, Projektrisiko, RBI's Abhängigkeit vom Kapitalmarkt, Abhängigkeit des RBI-Konzerns von Kundeneinlagen, Kriterien für die Anerkennung von Sicherheiten, Verschlechterung der Bewertung von Vermögenswerten und Beeinträchtigung von Sicherheiten, Wettbewerb, Operationelles Risiko, M&A Risiken, Prozessrisiko, Risikomanagement, IT Systeme, Interessenkonflikte, Beteiligungsrisiko, Kapitalrisiko, Risiko sonstiger Sachanlagen, Abwicklungsrisiko.

		<p>Liquiditätsrisiko</p> <p>Es besteht keine Gewissheit, dass ein liquider Sekundärmarkt für die Schuldverschreibungen entstehen wird, oder sofern er entsteht, dass er fortbestehen wird. In einem illiquiden Markt könnte es sein, dass ein Anleger seine Schuldverschreibungen nicht jederzeit zu angemessenen Marktpreisen veräußern kann. Die Benchmark-Verordnung könnte sich wesentlich auf Schuldverschreibungen auswirken, die auf einen "Benchmark"-Satz oder -Index bezogen sind. RISK FACTORS

The following is a disclosure of risk factors that are material with respect to the Issuer and the Notes issued under the Programme in order to assess the Issuer related risks and the market and other risks associated with the Notes. However, there may be other risks of which the Issuer is currently not aware or which it does not consider to be material and any of these risks may affect the Issuer's ability to fulfil its obligations under the Notes to investors and/or thus, may be material to the Notes in order to assess the market risk associated with the Notes.

Prospective investors should consider the risk factors stated below before deciding to purchase Notes issued under the Programme, especially since in certain cases the investor may lose its entire investment or parts of it.

Prospective investors should consider all information provided in the Prospectus and consult with their own professional advisers (including their financial, accounting, legal and tax advisers) if they consider it necessary. In addition, investors should be aware that the risks described may combine and thus intensify one another.

A. RISKS RELATING TO THE ISSUER AND RBI GROUP

The following is a description of the risk factors, which may affect the ability of the Issuer to fulfil its obligations under the Notes. Potential investors should carefully read and consider these risk factors before deciding upon the purchase of the Notes.

Potential investors should consider these risk factors and all other information provided in this Prospectus and consult their own experts. In addition, the investors should bear in mind that several of the mentioned risks may occur simultaneously and that their implication can, possibly together with other circumstances, thus be intensified. The order in which the risks are described does neither represent a conclusion about their probability of occurrence nor the gravity or significance of the individual risks. The following information is not exhaustive. Indeed, further risks which have not been visible yet may also affect the business activities of RBI Group and the ability of the Issuer to fulfil its obligations arising from the Notes. Due to the occurrence of each individual risk described in the following, investors could lose their invested capital in whole or in part.

An investment in the Notes comes along with accepting risks of the underlying operational business of the Issuer. As an internationally operating company the risk situation of the Issuer comprises various aspects. The overall risk situation and any of the following single risks may influence the future income, asset and liquidity situation of the Issuer negatively:

1. *RBI as member of RBI Group is subject to concentration risk with respect to geographic regions and client sectors.*

The business activities of RBI are pursued to a significant extent via its subsidiaries. Each of these subsidiaries can influence RBI especially via the valuation of the subsidiary, via the costs of refinancing the participation versus its dividend payments and via national regulatory burdens on the level of each subsidiary.

Furthermore, due to accounts receivable from borrowers in certain countries and/or certain industry sectors, as the case may be, RBI Group is, to varying degrees, subject to a concentration of regional as well as sectorial counterparty risks. The concentration risk with respect to geographic regions and client sectors mainly exists in Russia, Poland, Czech Republic, and Austria due to RBI's exposure to the Raiffeisen banking group Austria (*Raiffeisen Bankengruppe Österreich*) (see also the risk factors "14. Risk of disadvantages for RBI due to its membership in Raiffeisen Customer Guarantee Scheme Austria." and "16. RBI is exposed to risks due to its interconnectedness concerning the Institutional

Protection Scheme."). Furthermore, at RBI level, the reallocation of intra-group funding in order to support particular members of RBI Group, and the resulting increase in exposure to such group members and the countries in which they are located, also constitutes a concentration risk, which may be severe in the event of a default by one or several of these subsidiaries. Additionally, a failure of one or more members of RBI Group to service their respective payment obligations under certain financing agreements could trigger group cross default clauses and thus, unforeseen short-term liquidity needs for members of RBI Group. Moreover, concentration risks may arise out of investments in asset backed securities if such investments show a sectoral or regional concentration of the debtors. The value of asset backed securities may be reduced significantly if the asset backed securities are concentrated in debtors stemming from respective sectors or regions which are hit by economic downturns.

Furthermore, regulatory burdens can appear at the consolidated group level forcing RBI as the group parent institution to take actions to remedy such burdens.

The realisation of any concentration risk and all of the above-mentioned mechanisms may adversely affect RBI's ability to meet its obligations under the Notes.

2. RBI Group has been and may continue to be adversely affected by global financial and economic crises including the Eurozone (sovereign) debt crisis, the risk of one or more countries leaving the European Union or the Eurozone and other negative macroeconomic and market environments and may further be required to make impairments on its exposures.

RBI's ability to fulfil its obligations under the Notes may be affected by changing conditions in the global financial markets, economic conditions generally and perceptions of those conditions and future economic prospects. The outlook for the global economy over the near to medium term remains uncertain and many forecasts predict a decrease in the levels of gross domestic product ("**GDP**") growth across many of the focus areas in which RBI Group operates. Many European and other countries continue to struggle under large budget deficits and elevated debt levels, raising a concern of the market that some European and other countries may in the future be unable to repay outstanding debt. These countries could find it difficult to obtain financing, if markets were to become volatile and potentially subject to intermittent and prolonged disruptions as experienced in the past.

Furthermore, the persisting low interest rate environment in many countries creates further pressure on the financial sector as it puts a constraint to net interest income and increased pressure on the cost structure.

In recent years, in Europe, the financial and economic conditions of certain countries have been particularly negatively affected. Refinancing costs for some of these countries are still elevated as the perceived risk of default on the sovereign debt of those countries had raised concerns about the contagion effect such a default would have on other European Union economies. Credit rating agencies downgraded the credit ratings of many of these countries, but have also stripped the AAA rating from certain core European countries. Sovereigns, financial institutions and other corporates may become unable to obtain refinancing or new funding and may default on their existing debt. The outcome of debt restructuring negotiations may result in RBI Group suffering additional impairments. Austerity measures to reduce debt levels and fiscal deficits may well result in a slowdown of or negative economic development. One or more Eurozone countries could come under increasing pressure to leave the European Monetary Union, or the Euro as the single currency of the Eurozone could cease to exist. The magnitude of such events is not quantifiable however it cannot be ruled out that significant systemic implications occur which could have an adverse impact on RBI's capital situation and ability to repay its obligations.

The political, financial, economic and legal impact of the departure of one or more countries from the Eurozone and/or the European Union is difficult to predict. However it can be observed using the example of the withdrawal of the United Kingdom from the European Union (so-called "**Brexit**") that unclear legal formalities and pending legal and economic frameworks lead to increased political and

economic uncertainty which can entail various adverse cumulative impacts on the respective economies (e.g. investments, GDP, exchange rates, etc.).

For a country exiting the Eurozone and/or the European Union, possible consequences of such exit in a stress case include the loss of liquidity supply by the European Central Bank ("ECB"), the need to introduce capital controls and, subsequently, certificates of indebtedness or a new national currency, a possibility of a surge in inflation and, generally, a breakdown of its economy. Businesses and other debtors whose main sources of income are converted to a non-euro currency could be unable to repay their euro-denominated debts. Thus, foreign lenders and business partners including members of RBI Group would have to face significant losses. Disputes are likely to arise over whether contracts would have to be converted into a new currency or remain in euros. In the wider Eurozone, concerns over the euro's future might cause businesses to cut investment and people to cut back their spending, thus pushing the Eurozone into recession. Nervous depositors in other struggling Eurozone countries could start withdrawing their deposits or moving them to other countries, thus provoking a banking crisis in southern Europe. The Euro could lose but also increase in value in case that exiting countries are coming from the economically weaker periphery. Depending on the exact mutual development of the FX-rates embedded in the global exchange-rate regime this might impact RBI Group's ability to repay its obligations. In addition to the risk of market contagion, there is also the potential of political repercussions such as a boost to anti-euro and anti-European political forces in other countries. Owing to the high level of interconnection in the financial markets in the Eurozone, the departure from the European Monetary Union by one or more Eurozone countries and/or the abandonment of the Euro as a currency could have material adverse effects on the existing contractual relations and the fulfilment of obligations by RBI Group and/or RBI Group's customers and, thus, have an adverse impact on RBI's ability to duly meet its obligations under the Notes.

Outside the European Union, conflicts (such as in the Ukraine) or specific economic developments could have a negative impact on macroeconomic conditions and the financial position, results of operations and the prospects of RBI's subsidiaries. Furthermore, instability and whatsoever aggravation of the aforementioned conflicts (including developments concerning certain sanctions) might lead to adverse impacts on RBI Group (e.g. increase of defaults, legal implications, decrease of asset prices, etc.).

These developments or the perception that any of these developments will occur or exacerbate, have and could continue to significantly affect the economic development of affected countries, lead to widespread declines in GDP growth, and jeopardize the stability of financial markets. If the scope and severity of adverse economic conditions were to intensify in certain countries and in the focus areas of RBI Group, the risks RBI Group faces may be exacerbated. Such challenging economic conditions may adversely affect the Issuer's ability to meet its obligations under the Notes.

3. *RBI Group operates in several markets which are partially characterised by an increased risk of unpredictable political, economic, legal and social changes and related risks, such as exchange rate volatility, exchange controls/restrictions, regulatory changes, inflation, economic recession, local market disruptions, labour market tensions, ethnic conflicts and economic disparity.*

RBI Group's business is materially dependent on political and social stability, the performance of the economies and a sustainable development of the banking sector in the countries in which it operates. It is evident that due to the nature of some main markets RBI Group is exposed to a significant extent to those risks. Some of these markets are characterised by an increased risk of unpredictable political, economic, legal and social changes and related risks, such as exchange rate volatility, exchange controls/restrictions, regulatory changes, inflation, economic recession, local market disruptions, labour market tensions, ethnic conflicts and economic disparity. The level of risk differs significantly from country to country, and generally depends on the economic and political development stage of each country. The degree of political and economic stability varies throughout the region and over time. Future political, economic and social changes in the economies in which RBI Group operates could adversely impact RBI's ability to meet its obligations under the Notes.

4. Any appreciation of the value of any currency in which foreign-currency loans are denominated against CEE currencies or even a continuing high value of such a currency may – also retroactively - deteriorate the quality of foreign currency loans which RBI Group has granted to customers in CEE and also raises the risk of new forced legislation actions as well as regulatory and/or tax measures and/or challenges in litigation proceedings detrimental to RBI Group.

In several Central and Eastern European, including South Eastern European countries ("CEE"), RBI operates through a network of majority-owned subsidiary credit institutions (the "Network Banks") which belong to RBI Group. RBI Group has granted loans to households and companies denominated in a foreign currency (e.g. Swiss francs, US Dollar and Euro). An appreciation of such a currency makes the debt more burdensome for local borrowers in CEE without income streams in the relevant currency, which not only deteriorates loan quality but also raises the risk of new legislation as well as regulatory (e.g. higher risk weights and minimum capital requirements for loans denominated in foreign currencies) and/or tax measures and/or challenges in litigation proceedings detrimental to the banking sector. RBI Group has experienced such or similar developments already in Hungary, Croatia and Romania. Similar developments cannot be ruled out for other markets RBI Group is operating in.

In Croatia, following litigation initiated by a Croatian Consumer Association against Raiffeisenbank Austria, d.d., Croatia ("RBHR") and other Croatian banks, two contractual clauses used in consumer loan agreements between 2003/2004 and 2008 were declared null and void: an interest change clause and a CHF index clause. The decision on the interest change clause cannot be challenged any more, whereas the decision on the CHF index clause can still be challenged at the Croatian Supreme Court and the Croatian Constitutional Court, and a final decision by any of these courts may have an impact on the relevant CHF index clause. Based on the decisions already rendered on the nullity of the interest change clause and/or the CHF index clause, borrowers may – subject to the statute of limitation – raise claims against RBHR. Depending on the final outcome of the aforementioned court proceedings and the number of borrowers raising such claims against RBHR in the future, this could have a material negative effect on RBHR and, thus, on the Issuer and RBI Group. However, given current legal uncertainties, a quantification of a possible damage is not possible at this point of time.

In Poland, higher minimum capital requirements for loans denominated in foreign currencies were introduced on 1 December 2017. In this regard, the competent authorities in Poland approved a resolution of the Minister for Development and Finance regarding higher risk weights (150 per cent.) for foreign currency exposures secured by mortgages on immovable property. The respective change led to an increase of Risk-Weighted Assets (RWA) of EUR 2.784 billion. Additionally, potential measures in favour of borrowers who have taken out foreign currency-mortgage loans (the majority of which are indexed and denominated in Swiss francs), are currently being discussed. In the middle of 2017, the Polish President has proposed the new foreign currency ("FX") draft Law. The draft regulation provides an extension of the existing support program for customers in difficulties and a new restructuring scheme to convert FX and decrease outstanding exposure in FX. In view of estimated costs for the banking sector of up to PLN 3 billion yearly the President's draft is discussed controversially and has not been taken up for a decision by the Polish Parliament yet.

In addition, on 2 August 2017, the President submitted a new draft bill to the Polish parliament on amendments of the act from 2015 on support for borrowers with mortgage loans in financial difficulties (primarily extending the criteria for the application of the respective support in a manner which extends the scope of beneficiaries).

In spring 2018, a special commission within the Polish parliament for loans denominated and indexed in Swiss francs was established to analyse closer the aforementioned President's proposals for the support of borrowers in difficulties and to agree a new proposal with the Polish parliament.

Any of these measures and other measures, if decided and implemented, or the binding application of superior court rulings in favour borrowers of FX loans, which would force banks to convert FX loans into relevant local currencies or apply accounting rules having the same of similar effect, could have a material negative impact on the Network Banks and, thus, on the Issuer and RBI Group. In case of Poland, this would still hold following the sale of the core banking operations of Raiffeisen Bank

Polska S.A. (as further set out in section "2.2 Strategy" in "Description of the Issuer") as the FX retail mortgage portfolio will remain in RBI Group.

5. *Developing legal and taxation systems in some of the countries in which RBI Group operates may have a material adverse effect on the Issuer.*

The legal systems of many countries in which RBI Group operates, in particular in the emerging economies, have undergone dramatic changes since 1989. In many cases, the interpretation and procedural safeguards of the new legal and regulatory systems of these countries are changing continuously, which may result in existing laws and regulations being applied inconsistently or arbitrary and onerous new laws being introduced.

Additionally, it may not be possible to obtain legal remedies in a reasonably timely manner, which could in particular have a material adverse effect on the legal enforcement of loan collateral which in many cases is mandatory. The members of RBI Group are subject to a large number of tax regulations that in some cases have only been in effect for a short period of time, are frequently amended and enforced by various political subdivisions. Thus, there are hardly any precedents for such enforcement, and administrative practices may be unpredictable. Taxpayers often have to take recourse to the courts to defend their position against the fiscal authorities.

Furthermore, the lack of collectability in some CEE countries may result in new taxes being continuously introduced in an attempt to increase tax revenues. Therefore, there is a risk that members of RBI Group may be subject to arbitrary and onerous taxation. In some CEE countries, tax returns and taxation matters are not subject to the statute of limitations and thus might be addressed by the authorities for years afterwards. Therefore, the tax risk in some CEE countries is significantly higher than in other countries whose tax systems are based on a longer historical development.

Moreover, in a number of cases the introduction of legal or tax measures is allegedly based on political or protectionist reasons and directed primarily against foreign investors, in particular credit institutions. The risks related to the development and application of the legal and tax systems in some of the countries in which RBI Group operates may have a material adverse effect on RBI's financial position and results of operations, and may affect its ability to meet its obligations under the Notes.

6. *In certain of its markets, RBI Group is exposed to a heightened risk of government intervention.*

Some economies are characterised by an increased risk of state and central bank intervention in response to economic crises. Governments in several economies in which RBI Group operates have taken and could further take measures to protect their national economies and/or currencies in response to political and economic developments, including, such as:

- require that loans denominated in foreign currencies like EUR, USD or CHF are converted into local currencies (even in retrospect) at unfavourable rates for lenders in order to assist local consumers and/or businesses;
- require loans to be assumed by government entities, potentially involving haircuts;
- set out regulations limiting, even with retro-active effect, interest rates or fees that can be charged on loans;
- require loans to be closed out at unfavourable conditions (*e.g.* in terms of breakage costs, mortgage/collateral evaluation);
- impose a waiver of the repayment of loans resulting in higher levels of provisions of risks;
- impose limitations on foreclosures and debt collections;

- set limitations on the repatriation of profits (either through restriction of dividend payments to parent companies or otherwise);
- require the parent company or a group member to provide funding or guarantees to support a local group member in distress;
- nationalise local members of RBI Group at less than the fair market value or without compensation;
- fix the exchange rate of the local currency against freely convertible currencies or lift any such exchange rate fixing; and
- prohibit or limit money transfers abroad or the export of, or convertibility into, foreign currency.

RBI Group has been adversely affected and has incurred losses through certain of these measures and was forced to increase loan loss provisions in the recent past.

The occurrence of any of these events may adversely affect RBI Group's ability to conduct business in the affected part of these economies. The occurrence of one or more of these events may also affect the ability of RBI Group's clients or counterparties located in the affected country or region to obtain foreign exchange or credit and, therefore, to satisfy their obligations to RBI Group. If any of these events occurs, it could adversely impact RBI's ability to meet its obligations under the Notes.

7. *RBI Group's liquidity and profitability would be significantly adversely affected should RBI Group be unable to access the capital markets, to raise deposits, to sell assets on favourable terms, or if there is a strong increase in its funding costs (liquidity risk).*

Liquidity risk is the risk of an entity to be unable to meet its current and future financial obligations in full and/or in time. This arises, *e.g.* if refinancing can only be obtained at unfavourable terms or is entirely impossible. Liquidity risk can take various forms. For example, one or more members of RBI Group may be unable to meet their respective payment obligations on a particular day and may have to obtain liquidity from the market at short notice and on unfavourable terms, or even fail to obtain liquidity from the market and, at the same time, be unable to generate sufficient alternative liquidity through the disposing of assets. Loss of customer confidence in RBI Group's business or performance could result in unexpectedly high levels of customer withdrawals; deposits could be withdrawn at a faster rate than the rate at which any of RBI Group's borrowers repay their loans; lending commitments could be terminated; or further collateral in connection with collateral agreements for derivative transactions could be required. RBI Group's liquidity buffers may not be sufficient in every market environment or specific situation and results of RBI Group's liquidity risk management models may lead to inadequate steering measures. All of this could negatively affect RBI's ability to fulfil its obligations under the Notes (see also the risk factor "22. *RBI's ability to fulfil its obligations under the Notes depends in particular on its financial strength which in turn is influenced by its profitability. The following describes factors which may adversely affect RBI's profitability.*").

8. *Any deterioration, suspension or withdrawal of one or more of the credit ratings of RBI or of a member of the RBI Group could result in increased funding costs, may damage customer perception and may have other material adverse effects on RBI Group.*

Credit ratings represent the opinion of a rating agency on the credit standing of an entity and take into account the likelihood of delay of and default on payments. They are material to RBI Group since they affect both, the willingness of customers to do business with RBI Group at all and the terms on which creditors are willing to transact with RBI Group.

Credit ratings may be suspended, downgraded or withdrawn which may occur as a result of adverse macroeconomic developments or regulatory activities in the countries and regions in which rated

entities operate, company-specific developments or changes in the rating agencies' support assumptions. Rating agencies also change or adjust their ratings methodologies from time to time. Any such changes to rating criteria or methodologies can result in rating changes including downgrades.

Furthermore, a credit rating may also be suspended or withdrawn if RBI were to terminate the agreement with a rating agency or if it were to determine that it would not be in its interest to continue to supply financial data to a rating agency.

Rating downgrades may have a negative impact on the market price of outstanding RBI Notes as well as future funding rates. Since RBI is also dependent on the interbank and wholesale markets as a refinancing source, any funding rate increase caused by a downgrade, suspension or withdrawal of a credit rating by a rating agency may restrict its access to refinancing opportunities and have a significant effect on RBI's earnings. In particular a rating downgrade to below investment grade might restrict investors to invest in notes issued by RBI or corporate customers to place deposits with RBI, leading to a reduced funding volume.

Furthermore, a rating downgrade among others, has a material effect on RBI's business activity, e.g. reduce wholesale deposits, derivative business, fee business (e.g. custody and guarantee business), as well as might cause a severe disruption of its client base.

9. *RBI Group's business, capital position and results of operations have been, and may continue to be, significantly adversely affected by market risks.*

Market risk refers to the specific and general risk position assumed by RBI Group on the asset or liability side with respect to positions in any debt instruments, equity instruments, equity-index forwards and futures, investment fund units, options, foreign currencies and commodities (e.g. gold).

Market risk is the risk that market prices of assets and liabilities or revenues will be adversely affected by changes in market conditions and includes, but is not limited to changes of interest rates, credit spreads of issuers of securities, foreign exchange rates, equity and debt price risks or market volatility. Changes in interest rate levels, yield curves, rates and spreads may affect RBI Group's net interest income and margin. Changes in foreign exchange rates affect the market price of assets and liabilities denominated in foreign currencies as well as the capital position and the profit and loss values as measured in euro, or the respective local currency of the Network Banks whose capital is denominated in the local currency, and may affect income from foreign exchange dealing.

The performance of financial markets or financial conditions generally may cause changes in the market price of RBI Group's investment and trading portfolios. RBI Group's risk management systems for the market risks to which its portfolios are exposed contain measurement systems which may prove inadequate as it is difficult to predict changes in economic or market conditions with accuracy and to anticipate the effects that such changes could have on RBI Group's financial performance and business operations, in particular in cases of extreme and unforeseeable events. In times of market stress or other unforeseen circumstances, such as the extreme market conditions experienced in 2008 and 2009, previously uncorrelated indicators may become correlated, or previously correlated indicators may move in different directions. These changes in correlation can be exacerbated where other market participants are using risk or trading models with assumptions or algorithms that are similar to RBI Group's. In these and other cases, it may be difficult to reduce RBI Group's risk positions due to the activity of other market participants or widespread market dislocations, including circumstances where asset values are significantly declining or no market exists for certain assets.

To the extent that RBI Group makes investments directly in assets that do not have an established liquid trading market or are otherwise subject to restrictions on sale or hedging, RBI Group may not be able to reduce its positions and therefore reduce its risk associated with such positions. These types of market movements have at times limited the effectiveness of RBI Group's hedging strategies and have caused RBI Group to incur significant losses, which may also happen in the future.

The realisation of any market risk could have a material adverse effect on RBI's financial position and results of operations and could adversely affect RBI's ability to meet its obligations under the Notes.

10. *Hedging measures might prove to be ineffective. When entering into unhedged positions, RBI Group is directly exposed to the risk of changes in interest rates, foreign exchange rates or prices of financial instruments.*

RBI Group utilises a range of instruments and strategies to hedge risks. Unforeseen market developments may have a significant impact on the effectiveness of hedging measures. Instruments used to hedge interest and currency risks can result in losses if the underlying financial instruments are sold or if valuation adjustments must be undertaken. Furthermore, RBI Group's hedging measures may be affected due to deterioration of hedging counterparty's creditworthiness. In a worst case, an originally hedged position may become an unhedged position due to counterparty's default.

Hedging instruments, in particular credit default swaps, could prove ineffective if restructurings of outstanding debt, including sovereign debt, avoid credit events that would trigger payment under such hedging instruments. Generally, gains and losses from ineffective risk-hedging measures can increase the volatility of the results generated by RBI Group.

In addition, RBI Group assumes open, *i.e.* unhedged, positions with respect to interest rates, foreign exchange and financial instruments either in the expectation that favourable market movements may result in profits or it considers certain positions cannot be hedged effectively or at all. These open positions are subject to the risk that changes in interest rates, foreign exchange rates or the prices of financial instruments may result in significant losses. This aspect also includes the hedging of capital positions which are not denominated in Euro (*e.g.* capital of subsidiaries).

Capital hedging takes place in RBI's head office in Vienna, based on a detailed analysis of capital markets (current situation, outlook and forecast) and market environment (availability of hedging instrument in respective currencies).

Furthermore, RBI Group has open positions with regard to its subsidiaries' capital and profit and loss positions measured in Euro. Only part of these positions can be hedged due to inadequate market developments and RBI Group does not consistently close these positions. Thus, even with constant margins and profits as measured in local currencies there is a risk of material adverse effects on the accounts as measured in Euro.

11. *Decreasing interest rate margins may have a material adverse effect on RBI Group.*

The majority of RBI Group's operating income is derived from net interest income. In 2017, EUR 3,208 million or 62 per cent. of RBI Group's operating income was derived from net interest income (source: RBI's audited consolidated annual financial statements as per 31 December 2017). In the first half of 2018, EUR 1,663 million or 62 per cent. of RBI Group's operating income stem from net interest income (source: RBI's reviewed interim consolidated financial statements for the six months ended 30 June 2018). The members of RBI Group earn interest from loans and other assets, and pay interest to their depositors and other creditors.

Interest rates are highly sensitive to many factors beyond RBI Group's control, including inflation, monetary policies and domestic and international economic and political conditions. Decreasing interest rates often result in decreasing margins and consequently in decreasing net interest income unless compensated by an increase in customer loan volumes. The effects of changes in interest rates on RBI Group's net interest income depend on the relative amounts of assets and liabilities that are affected by the change in interest rates. Reductions in interest rates and margins may not affect RBI Group's refinancing costs to the same extent as they affect interest rates and margins on loans granted by RBI Group, because a credit institution's ability to make a corresponding reduction in the interest rate and margin it pays to its lenders is limited, in particular when interest rates on deposits are already very low. Additionally, legal provisions may lead to restrictions on charging negative interest

rates on deposit accounts and credit customers may be motivated due to low or negative interest rates to do a full repayment of their debts (e.g. loans with fixed interest rates) without any cost charging.

Furthermore, a low or negative interest rate environment results in increased costs of maintaining the regulatory and prudential liquidity buffers held in cash and low yield liquid assets.

As a result of the above, interest rate fluctuations and, in particular, decreasing interest rate margins could negatively affect RBI Group's net interest income and have a material adverse effect on RBI's ability to fulfil its obligations under the Notes.

12. *RBI Group has suffered and could continue to suffer losses as a result of the actions of or deterioration in the commercial soundness of its borrowers, counterparties and other financial services institutions (credit risk / counterparty risk).*

Credit risk refers to the commercial soundness of a counterparty (e.g. borrower or another market participant contracting with a member of RBI Group) and the potential financial loss that such market participant may cause to RBI Group if it could not meet its contractual obligations vis-à-vis RBI Group. In addition, RBI Group's credit risk is impacted by the value of collateral provided and RBI Group's ability to enforce its security interests.

RBI Group is exposed to counterparty risk in particular with respect to its lending activities with retail and corporate customers, credit institutions, local regional governments, municipalities and sovereigns, as well as other activities such as its trading and settlement activities, the risk that third parties who owe money, securities or other assets to RBI Group will not perform their obligations. This exposes RBI Group to the risk of counterparty defaults, which have historically been higher during periods of economic downturn. Furthermore, RBI is exposed to the risk of lower creditworthiness of its customers, potentially leading to higher loan loss provisions for the entire portfolio.

In the ordinary course of its business, RBI Group is exposed to a risk of non-performance by counterparties in the financial services industry. This risk can arise through trading, lending, deposit-taking, derivative business, repurchase and securities lending transactions, clearance and settlement and many other activities and relationships with financial institutions (including without limitation: brokers and dealers, custodians, commercial banks, investment banks, mutual and hedge funds, and other institutional clients).

Defaults by, or even rumours or concerns about potential defaults or a perceived lack of creditworthiness of, one or more financial institutions, or the financial industry generally, have led and could lead to significant market-wide liquidity problems, losses or defaults by other financial institutions as many financial institutions are inter-related due to trading, funding, clearing or other relationships. This risk is often referred to as "systemic risk" and it affects credit institutions and all different types of intermediaries in the financial services industry. In addition to its other adverse effects, the realisation of systemic risk could lead to an imminent need for RBI Group members and other credit institutions in the markets in which RBI Group operates to raise additional liquidity or capital while at the same time making it more difficult to do so. Systemic risk could therefore have a material adverse effect on RBI Group's business, financial condition, results of operations, liquidity and prospects.

In the past, volatile economic conditions substantially raised the risk of defaults in the customer business, and increased the amount of non-performing loans for both retail and corporate customers. If such developments were to reoccur, they might be reinforced by changes of foreign exchange rates (foreign exchange based loans) which would negatively affect the ability of customers to repay their loans. Furthermore, the ability of customers to repay their loans may also be affected by increasing money market interest rates if the interest rate of a loan is based on floating rates. Given the recent economic recovery and the level of interest rates, low level of market interest rates (short- mid- and long-term) could come to an end. In the case of increasing interest rates, the rate of non-performing

loans may increase, the provisioning of which would diminish RBI's Groups profits and could negatively affect the equity of RBI's Group entities denominated in local currency and the goodwill of local group companies. Furthermore, RBI Group's loan portfolio and other financial assets might be impaired which might result in a withdrawal of deposits and decreased demand for RBI Group's products.

RBI Group is also exposed to counterparty risk in relation to its financial institution and sovereign portfolios which include exposures to the financial institutions, local regional governments and sovereigns of countries that recently have experienced deteriorating fiscal conditions and are considered to have an elevated risk of default.

Downgrades in sovereign credit ratings could increase the credit risk of financial institutions based in these countries. Financial institutions are likely to be affected most by potential rating downgrade because they are affected by larger defaults or revaluations of securities, for example, or by heavy withdrawals of customer deposits in the event of a significant deterioration of economic conditions. Such adverse credit migration could result in increased losses and impairments with respect to RBI Group's exposures in these portfolios.

RBI Group provides for potential losses arising from counterparty default or credit risk by net allocations to provisioning for impairment losses, the amount of which depends on applicable accounting principles, risk control mechanisms and RBI Group's estimates.

Should actual credit risk exceed current estimates on which RBI Group's management has based net allocations to provisioning, RBI Group's loan loss provisions could be insufficient to cover losses. This would have a material adverse impact on RBI Group's financial position and results of operations and could affect RBI's ability to meet its obligations under the Notes.

13. Adverse movements and volatility in foreign exchange rates had and could continue to have an adverse effect on the valuation of RBI Group's assets and on RBI Group's financial condition, results of operations, cash flows and capital adequacy.

A large part of RBI Group's operations, assets and customers are located outside the Eurozone and RBI Group conducts its operations in many currencies other than the euro, all of which for purposes of inclusion in RBI Group's consolidated financial statements must be translated into euros at the applicable exchange rates. RBI Group also has liabilities in currencies other than the euro and trades currencies on behalf of its customers and for its own account, thus maintaining open currency positions.

Adverse movements in foreign exchange rates may affect RBI Group's cash flows as measured in euro, as well as the cash flows of RBI Group's customers, particularly if such fluctuations are unanticipated or sudden. Some of the currencies in which RBI Group operates have been highly volatile in the past.

A renewed financial crisis might cause a substantial depreciation of CEE currencies against the Euro, which might reduce the equity of RBI Group companies denominated in local currency as measured in EUR and the goodwill of local group companies.

A reoccurrence of the financial crisis and euro zone debt crisis and its effects on CEE economies or the political and economic crisis in the Ukraine, and in particular a sovereign default, could cause the currencies in countries in which RBI Group operates to depreciate further. A devaluation of local currencies could have an adverse effect on RBI Group's revenues and profits. Foreign currency exchange rate fluctuations may affect the regulatory capital ratios as much as the base currency mix of risk weighted assets differs from the mix of consolidated capital for RBI and RBI Group.

As such, fluctuations in foreign currency exchange rates may have a material adverse effect on RBI Group's business, financial position and results of operations and, in particular, may result in

fluctuations in RBI Group's consolidated capital as well as its credit risk related capital adequacy requirements.

14. Risk of disadvantages for RBI due to its membership in Raiffeisen Customer Guarantee Scheme Austria.

RBI is a member of the nationwide voluntary Raiffeisen Customer Guarantee Scheme Austria (*Raiffeisen-Kundengarantiegemeinschaft Österreich* - "RKÖ"). Approximately 82 per cent. of the Austrian Raiffeisen Banks are (directly or indirectly) members of the RKÖ.

In case of an insolvency of an RKÖ member, under certain circumstances, the other RKÖ members are contractually liable to pay extraordinary membership contributions limited by their economic reserves, in order to ensure timely payment of such claims. Customers of the insolvent RKÖ member are offered equivalent claims against other RKÖ members instead of insolvency claims. In addition, regular membership contributions to cover on-going administrative expenses may become due.

Any insolvency of a RKÖ member may result in RBI's obligation to settle guaranteed customer claims against such insolvent member, which would likely have a negative influence upon the business, asset, financial and earnings situation of RBI and its ability to meet its obligations under the Notes.

15. The Issuer is obliged to contribute amounts to the Single Resolution Fund and to ex-ante financed funds of the deposit guarantee schemes. Changes of the contributions can lead to additional financial burdens for the Issuer and thus, adversely affects the financial position of the Issuer and the results of its business, financial condition and results of operations.

The Single Resolution Mechanism ("SRM") includes a Single Resolution Fund ("SRF") to which credit institutions and certain investment firms in the participating Member States have to contribute.

The SRF shall be composed of contributions from credit institutions and certain investment firms in the participating Member States. The SRF shall be gradually built up during the initial period of the first eight years (2016 - 2023) in accordance with Article 69 SRM Regulation and shall reach the target level of at least 1 per cent. of the amount of covered deposits of all credit institutions within the Banking Union by 31 December 2023.

Furthermore, the "Directive 2014/49/EU of the European Parliament and of the Council of 16 April 2014 on deposit guarantee schemes" (*Directive on Deposit Guarantee Schemes* – "DGSD") stipulates financing requirements for the Deposit Guarantee Schemes ("DGS"). In principle, the target level of *ex ante* financed funds for each DGS is 0.8 per cent. of covered deposits to be collected from credit institutions until 3 July 2024. According to the Austrian Deposit Guarantee and Investor Protection Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz* – "ESAEG"), which implements the DGSD in Austria, the deposit guarantee fund must therefore be fully funded until 3 July 2024.

According to an EBA report published on 17 January 2018, its "Guidelines on methods for calculating contributions to deposit guarantee schemes (DGS)" have broadly met the aim of introducing different contribution levels for institutions according to their riskiness, but the method outlined in the guidelines, and currently in use, allows too much flexibility, and thus, may need to be reviewed in the future to ensure a more consistent approach, while still catering for national specificities.

As of 1 January 2019, Einlagensicherung AUSTRIA GmbH will start its operational activities as unified Austrian DGS and replace most of the deposit guarantee schemes currently existing in Austria, including the current DGS of the Raiffeisen sector.

In the past, the Austrian mandatory DGSs did not require *ex ante* funding, but merely has obliged the respective DGS-members (*ex post*) to contribute after deposits of any member have become

unavailable (protection event). Therefore, the implementation of the DGSD into Austrian law which stipulates *ex ante* contributions triggered an additional financial burden for the Issuer.

In addition to *ex ante* contributions, if necessary, credit institutions have to pay certain additional (*ex post*) contributions for resolution as well as DGS funds when funds are emptied by payments to failing institutions.

The obligation to contribute amounts for the establishment of the SRF and the *ex-ante* funds to the DGS results in additional financial burdens for the Issuer and potentially increased contributions (e.g. due to regulatory reasons) can reinforce these financial burdens and therefore adversely affect the financial position of the Issuer and the results of its business, financial condition and results of operations.

16. RBI is exposed to risks due to its interconnectedness concerning the Institutional Protection Scheme.

As a consequence of an universal succession, upon the Merger 2017 RBI, has entered into RZB's place in the agreements for the establishment of an institutional protection scheme ("**IPS**") within the meaning of Article 113 (7) of the "Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012" (*Capital Requirements Regulation* - "**CRR**") (the "**Federal IPS**"). The Federal IPS must comply with the requirements of the CRR, particularly safeguarding the existence and the liquidity and solvency of its members to prevent insolvency. Beside RBI, the Federal IPS currently consists of the following institutions:

- the "**Raiffeisen Regional Banks**" (i.e. RAIFFEISEN LANDESBANK NIEDERÖSTERREICH-WIEN AG, Raiffeisen-Landesbank Steiermark AG, Raiffeisen Landesbank Oberösterreich Aktiengesellschaft, Raiffeisen Landesbank Tirol AG, Raiffeisenverband Salzburg eGen, Raiffeisenlandesbank Kärnten - Rechenzentrum und Revisionsverband regGenmbH, Raiffeisenlandesbank Burgenland und Revisionsverband regGenmbH, and Raiffeisenlandesbank Vorarlberg Waren- und Revisionsverband regGenmbH);
- Raiffeisen-Holding Niederösterreich Wien reg.Gen.m.b.H.;
- Posojilnica Bank eGen;
- Raiffeisen Wohnbaubank Aktiengesellschaft (a subsidiary of RBI); and
- Raiffeisen Bausparkasse Gesellschaft m.b.H. (a subsidiary of RBI).

The Federal IPS is subject to consolidated (or extended aggregated) minimum own funds requirements.

Due to the membership of RBI in the Federal IPS, RBI can be affected in case of material economic problems within the Federal IPS. In case of liquidity and/or capital needs of one or several Federal IPS members, RBI is obliged, among other Federal IPS members, to ensure compliance with regulatory requirements of Federal IPS and its members. In case of the six Raiffeisen Regional Banks which are, in addition, also members of the so-called "**Regional IPSs**" (Burgenland, Lower Austria, Styria, Tyrol, Upper Austria and Vorarlberg), the Federal IPS is only obliged to step in order to ensure regulatory requirement of the members of the Federal IPS if a Regional IPS is not able to give sufficient support. The six Regional IPSs consist of the relevant Raiffeisen Regional Bank and the cooperative, local Raiffeisen Banks. The only RBI subsidiaries which are members of Federal IPS are Raiffeisen Bausparkasse Gesellschaft m.b.H. and Raiffeisen Wohnbaubank Aktiengesellschaft. No other RBI subsidiary is part of this institutional protection scheme. However, the potential support of RBI for other members of the Federal IPS could affect RBI Group as a whole in terms of regulatory parameters.

RBI has to contribute to the ex ante fund of the Federal IPS. This results in additional financial burden for the Issuer and potentially increased contributions (e.g. in case support for other members) can reinforce these financial burdens and therefore adversely affect the financial position of the Issuer and the results of its business, financial condition and results of operations.

RBI's membership in the Federal IPS may end, in particular it may be terminated by giving two years prior notice.

17. *RBI Group may be required to participate in or finance governmental support programs for credit institutions or finance governmental budget consolidation programmes, including through the introduction of banking taxes and other levies.*

If an important credit institution or financial institution in Austria or the CEE markets where RBI Group has significant operations were to suffer significant liquidity problems, risk defaulting on its obligations or otherwise potentially risk declaring insolvency, the local government might require one or more members of RBI Group to provide funding or other guarantees to ensure the continued existence of such institution. This might require RBI or one of its affiliates to allocate resources to such assistance rather than using such resources to promote other business activities that may be financially more productive, which could have – rather in a situation of similar events in multiple jurisdictions – an adverse effect on RBI's and RBI Group's business, financial condition or results of operations.

18. *New governmental or regulatory requirements and changes in perceived levels of adequate capitalisation and leverage could lead to increased capital requirements and reduced profitability for RBI (Regulatory) Group.*

In response to the global financial crisis and the European sovereign debt crisis, a number of initiatives relating to the regulatory requirements applicable to European credit institutions, including RBI (Regulatory) Group, have been (and are currently being) implemented, adopted, or developed. These include the following:

- **SREP requirements.** RBI Regulatory Group is subject to SREP requirements stipulated in § 70(4a) and (4b) in connection with § 77c and § 77d of the Austrian Banking Act (*Bankwesengesetz* – "**BWG**"), implementing Articles 97, 98 and 104 (1) the "Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms" (*Capital Requirements Directive IV* – "**CRD IV**") and Article 16 of Single Supervisory Mechanism Regulation determined by the annual Supervisory Review and Evaluation Process ("**SREP**") by the ECB. Depending on the business model, governance and risk management, capital adequacy and the liquidity situation of the credit institution, each year the ECB sets an individual additional own funds requirement for each credit institution. This requirement also takes into account results from the latest stress tests and needs to be met by the sort of capital (Common Equity Tier 1 ("**CET 1**") capital, Additional Tier 1 ("**AT 1**") capital or Tier 2 capital) set by ECB. Depending on the financial situation of the credit institution group, SREP requirements may vary annually. As publically explained by ECB in July 2016, the SREP requirements have been split into a hard Pillar 2 requirement located above the 4.5 per cent. CET 1 Pillar 1 requirement, but below the combined buffer requirement (capital conservation buffer plus countercyclical buffer plus systemic/G-SIB buffer, see below), thus having an impact on the Maximum Distributable Amount calculation, and a soft Pillar 2 guidance located above the combined buffer requirement. Increasing Pillar 2 requirements for RBI Regulatory Group or its individual members could trigger additional pressure on the capitalization of RBI Regulatory Group and/or its individual entities requiring unplanned adaptations.
- **Combined buffer requirement.** §§ 23 to 23d BWG which implement Articles 128 to 140

CRD IV into national law in Austria require institutions to maintain in addition to the CET 1 capital maintained to meet the own funds requirements imposed by the CRR and potentially any Pillar 2 additional own funds requirement specific capital buffers to be met with CET 1 capital. The Austrian Capital Buffers Regulation (*Kapitalpuffer-Verordnung* – "KP-V") of the FMA further stipulates the calculation, determination and recognition of the countercyclical buffer rate pursuant to § 23a(3) BWG, the determination of the capital buffer rate for systemic vulnerability and for systemic concentration risk (= systemic risk buffer) pursuant to § 23d(3) BWG and of the capital buffer for other systemically important institutions ("O-SIIs") pursuant to § 23c(5) BWG and the more precise elaboration of the calculation basis pursuant to § 24(2) BWG concerning the calculation of the Maximum Distributable Amount. These buffer requirements are gradually being phased in from 1 January 2016 until 1 January 2019.

- (i) § 23(1) BWG requires credit institutions to maintain a capital conservation buffer equal to 2.5 per cent. of their total risk exposure amount calculated in accordance with Article 92(3) CRR and the respective phasing-in rules.
- (ii) § 23a(1) BWG requires credit institutions to also maintain a countercyclical capital buffer. Pursuant to the KP-V, the countercyclical buffer rate is currently set at 0.00 per cent. for significant credit exposures located in Austria. In addition, national countercyclical buffers determined by the designated authorities of other Member States and third countries for significant credit exposures located in their respective territories apply. However, if a (national) countercyclical buffer rate has been determined in excess of 2.5 per cent., a rate of 2.5 per cent. shall apply, unless the FMA has recognised a buffer exceeding 2.5 per cent. The KP-V specifies that the institution specific countercyclical capital buffer rate is a weighted average of all applicable national countercyclical capital buffers based on the respective total risk exposure.

In this regard, as of the date of this Prospectus, the following countercyclical capital buffers above 0.00 per cent. apply to RBI Regulatory Group on the total risk exposure in the respective jurisdictions or have been announced to apply:

Country	Applicable as of date of prospectus	Announced new rate	As of
Czech Republic	0.50 per cent.	1.00 per cent./1.25 per cent./1.50 per cent.	1 Jul 2018/ 1 Jan 2019/1 Jul 2019
Slovak Republic	0.50 per cent.	1.25 per cent./1.50 per cent.	1 Aug 2018/1 Aug 2019
Iceland	1.25 per cent.	1.75 per cent.	15 May 2019
Ireland		1.00 per cent.	5 July 2019
Lithuania		0.50 per cent./1.00 per cent.	31 Dec 2018/30 Jun 2019
Hong Kong SAR	1.875 per cent.	2.50 per cent.	1 Jan 2019
Sweden	2.00 per cent.		
Norway	2.00 per cent.		
United Kingdom		0.50 per cent. / 1.00 per cent.	27 Jun 2018/ 28 Nov 2018
France		0.25 per cent.	1 Jul 2019
Denmark		0.50 per cent.	31 March 2019

- (iii) For RBI (which qualifies as an O-SII) and RBI (Regulatory) Group, the KP-V stipulates a systemic risk buffer (applicable on individual and on consolidated level), as well as an O-SII buffer (applicable on consolidated level) each totalling 1.00 per cent. (since 1 January 2018) and 2.00 per cent. (as of 1 January 2019). According to

the BWG (and therefore in the case of RBI), in general, the higher of such capital buffer rates at any given time applies.

As a result, the combined buffer requirement for RBI and RBI Regulatory Group is the total CET 1 capital required to meet the capital conservation buffer extended by an institution-specific countercyclical buffer, a systemic buffer (in each case, on an individual and on a consolidated level) and an O-SII buffer (on a consolidated level).

In its 16th meeting on 4 July 2018, the Austrian Financial Market Stability Board (*Finanzmarktstabilitätsgremium* – "FMSG") adopted three recommendations to the FMA concerning the macro-prudential capital buffers. The FMSG, inter alia, recommends extending the list of O-SIIs and adjusting the systemic risk buffer. For RBI, the FMSG recommends applying the following O-SII and systemic risk buffer rates (both to be applied at consolidated level): 2.0% of risk-weighted assets as of 1 January 2019 and 2.0% of risk-weighted assets as of 1 January 2020.

Compliance with existing or increasing capital buffer requirements for RBI, RBI Regulatory Group and/or individual subsidiaries could trigger additional pressure on their capitalization requiring unplanned actions, in particular because CRR/CRD IV imposes a series of new requirements, some of which are still subject to transitional provisions and others are likely to be amended in the near future. Although the CRR is directly applicable in each EU Member State, the CRR provides for important interpretational issues to be further specified through binding technical standards and/or delegated legal acts, through guidelines as well as national options and discretions to be chosen by national law makers and competent authorities.

- **Reform of the Basel III Framework.** As part of its continuous effort to enhance the banking regulatory framework, the Basel Committee of Banking Supervision ("BCBS") has reviewed different aspects and approaches under the Basel III framework. In this regard, on 7 December 2017, the BCBS announced to have finalised the Basel III framework reforms. A key objective of the revisions incorporated into the framework is to reduce excessive variability of risk-weighted assets ("RWA") which will help restoring credibility in the calculation of RWA by: (i) enhancing the robustness and risk sensitivity of the standardised approaches for credit risk and operational risk, which will facilitate the comparability of credit institutions' capital ratios; (ii) constraining the use of internally modelled approaches; and (iii) complementing the risk-weighted capital ratio with a finalised leverage ratio and a revised and robust capital floor. The revised standards will take effect from 1 January 2022 (which will constitute both the implementation and regulatory reporting date for the revised framework) – parts of the reform, including the output floor, will be phased in over a period of five years commencing in 2022. As the agreed standards constitute minimum standards, jurisdictions may elect to adopt more conservative standards. Accordingly, the implementation of the amendments to the Basel III framework within the European Union may go beyond the Basel standards and provide for European specificities. Moreover, jurisdictions will be considered compliant with the Basel III framework if they do not implement any of the internally modelled approaches and instead implement the standardised approaches. In addition, BCBS also announced that a high-level task force set up to review the regulatory treatment of sovereign exposures in the Basel III framework and to recommend potential policy options has not reached a consensus at this stage to make any changes to the treatment of sovereign exposures, but for the time being only has published a discussion paper. Therefore, currently no firm conclusions regarding the impact on the future capital requirements and their impact on the capital requirements for RBI (Regulatory) Group can be made.
- **Bank Recovery and Resolution Legislation.** The "Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms" (*Bank Recovery and Resolution*

Directive - "BRRD") has been implemented in Austria into national law by the Austrian Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz – "BaSAG"*). Amongst other requirements institutions have to meet, at all times, minimum requirement for own funds and eligible liabilities ("**MREL**") set by the resolution authority on a case-by-case basis. Measures undertaken under the BRRD/BaSAG may also have a negative impact on debt instruments (in particular subordinated notes, but under certain circumstances also senior notes) by allowing resolution authorities to order the write-down of such instruments or convert them into **CET 1** instruments. Where no such resolution tools and powers as set out above are applied, RBI may be subject to national insolvency proceedings.

- **Single Resolution Mechanism for European Banks.** The SRM which started operationally in January 2016 is one of the components of the Banking Union, alongside the Single Supervisory Mechanism ("**SSM**") and a common deposit guarantee scheme. It is set to centralise key competences and resources for managing the failure of a credit institution in the participating Member States of the Banking Union. Under the SRM, the Single Resolution Board ("**SRB**") is, in particular, responsible for adopting resolution decisions in close cooperation with the ECB, the European Commission and the national resolution authorities in case of a failing (or likely failing) of a significant entity subject to direct supervision of the ECB, such as the Issuer (see also the risk factor "*I. The Notes may be subject to write-down or conversion powers exercised by a resolution authority resulting in: (i) the amount outstanding to be reduced, including to zero; (ii) a conversion into ordinary shares or other instruments of ownership; or (iii) the terms of the Notes being varied (statutory loss absorption).*"). The SRM complements the SSM and aims to ensure that if a credit institution subject to the SSM faces serious difficulties, its resolution can be managed efficiently with minimal costs to taxpayers and the real economy.

The SRM is governed by: (i) the "Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010" (*Single Resolution Mechanism Regulation – "SRM Regulation"*) covering the main aspects of the mechanism and broadly replicating the BRRD rules on the recovery and resolution of credit institutions; and (ii) an intergovernmental agreement related to some specific aspects of the SRF.

- **EU Banking Reform Package of the European Commission and the European Council.** On 23 November 2016, the European Commission published proposals for the revision of the CRD IV and the CRR as well as of the BRRD and the SRM Regulation. The proposal builds on existing EU banking rules and aims to complete the post-crisis regulatory agenda of the European Commission. The consultation drafts, which have been submitted to the European Parliament and to the Council for their consideration and adoption, include the following key elements: (i) more risk-sensitive capital requirements, in particular in the area of market risk, counterparty credit risk, and for exposures to central counterparties; (ii) a binding leverage ratio to prevent institutions from excessive leverage; (iii) a binding net stable funding ratio to address the excessive reliance on short-term wholesale funding and to reduce long-term funding risk; and (iv) the total loss absorbing capacity ("**TLAC**") requirement for global systemically important banks ("**G-SIBs**") which will be integrated into the MREL logic applicable to all credit institutions. It also proposes a harmonised national insolvency ranking of unsecured debt instruments to facilitate credit institutions' issuance of such loss absorbing debt instruments. Directive (EU) 2017/2399 amending the BRRD as regards the ranking of unsecured debt instruments in insolvency hierarchy was published in the Official Journal of the EU on 27 December 2017 and has to be transposed into national law by the Member States by 29 December 2018. In Austria, the relevant amendments of § 131 BaSAG entered into force on 30 June 2018 already (see also the risk factor "The Holders of the Notes are

exposed to the risk that in case of the Issuer's insolvency deposits have a higher rank than their claims under the Notes.").

On 25 May 2018, the European Council announced that an agreement was reached on its stance on the proposed amendments at a meeting of the Economic and Financial Affairs Council and that the EU presidency was asked to start negotiations with the European Parliament as soon as the European Parliament is ready to negotiate. In late June 2018, the European Parliament's Committee on Economic and Monetary Affairs adopted its full report on the proposed amendments and scheduled three-way talks with the Commission and the Council (so-called "trilogue") to begin after the announcement of the text in the European Parliament's July plenary session.

Currently, no firm conclusions regarding the impact on the potential future capital requirements and consequently how this will affect the capital requirements for RBI Regulatory Group can be made.

- **MREL.** In order to ensure the effectiveness of bail-in and other resolution tools introduced by the BRRD, the BRRD requires that all institutions must meet an individual MREL requirement to be calculated as a percentage of total liabilities and own funds and to be set by the relevant resolution authorities. In this regard, the European Commission issued a Delegated Regulation supplementing the BRRD, which specifies the current criteria for setting MREL ("**MREL Delegated Regulation**"). The MREL Delegated Regulation requires each resolution authority to make a separate determination of the appropriate MREL requirement for each group or institution within its jurisdiction, depending on the institution's resolvability, risk profile, systemic importance and other characteristics. As of the date of this Prospectus, neither for RBI (Regulatory) Group nor RBI any binding MREL target has been set.

On 9 November 2015, the Financial Stability Board ("**FSB**") published its final principles and term sheet containing an international standard to enhance the loss absorbing capacity of G-SIBs. In the most recent updated G-SIB list published by the FSB on 21 November 2017, RBI (Regulatory) Group is not included and therefore, currently would not be subject to the TLAC standard as such. However, on-going work on the EU level intended to align TLAC implementation with the existing MREL framework, may have an impact on RBI (Regulatory) Group:

The EU banking reform package also includes proposals for the revision of the CRR, the BRRD and the SRM Regulation in order to integrate the TLAC requirement into the EU's MREL rules. Whereas the TLAC standard sets out requirements for G-SIIs only, the MREL covers the entire EU banking industry; the proposals address this and other differences between the two. On 25 May 2018, a compromise was reached by the European Council, *inter alia*, on the necessary level and quality of the subordination of liabilities in the event of G-SIIs, or other banks that could pose a systemic risk to financial stability, having to be resolved; and an adjusted methodology for calculation of the G-SII 'score'.

On 20 December 2017, the EBA has published an updated quantitative analysis on the MREL, based on the same methodology and assumptions developed in the context of its (final) MREL report published in December 2016.

While the general goal of these proposals is now well understood, the exact amendments that will be introduced, the timing of their introduction and consequently the precise impact on the Issuer are not yet clear.

It is possible that the Issuer has to issue additional eligible liabilities, which qualify for MREL purposes (including, potentially, subordinated debt and/or certain other types of non-preferred senior debt ranking senior to subordinated notes) in order to meet the additional

requirements (see also the risk factor "19. *The Issuer may not be able to meet the minimum requirement for own funds and eligible liabilities.*").

- **MiFID II / MiFIR.** The regulatory framework for investment services and regulated markets is updated by the "Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU" (Markets in Financial Instruments Directive II – "**MiFID II**") and by the "Regulation (EU) No 600/2014 of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Regulation (EU) No 648/2012" (Markets in Financial Instruments Regulation – "**MiFIR**") and applies since 3 January 2018. In Austria, MiFID II has been implemented by the Austrian Securities Supervision Act 2018 (Wertpapieraufsichtsgesetz 2018 – "**WAG 2018**"). Due to increased regulatory requirements, there are also increased costs for the Issuer. In addition certain issues with regard to the application of the above mentioned regulations remain unclear in practice, which causes uncertainties regarding the full and final impact of these regulations for the Issuer.
- **Stricter and Changing Accounting Standards.** Due to new and/or amended accounting standards and rules, RBI and/or RBI Group may have to revise the accounting and regulatory treatment of certain positions or transactions. Any such changes will cause implementation costs, can negatively impact estimates in financial plans for the future, may require restating previously published financial statements and/or can significantly influence the way how business and financial results are recorded. This could also impact RBI Group's capital needs. On the other hand, in the area of classification and measurement there is a risk of increased volatility in the income statement for financial assets which have to be re-measured at fair value through profit or loss, due to the contractual cash flow characteristics which do not fulfil the criteria of mere payments of principal and interest. Complex accounting standards can increase the risk of errors, as can the use of inconsistent valuation standards, particularly in relation to RBI Group's principal financial instruments. A difficult business environment can also increase the risk of significant financial reporting errors. For the purpose of preparing the consolidated financial statements, estimates have to be made for asset and liability items for which no market price can be reliably determined. This is particularly relevant for the lending business, securities, participations and intangible assets.

Stricter and/or new regulatory requirements may be adopted in the future, and the existing regulatory environment in many markets in which RBI Group operates continues to develop, implement and change. The substance and scope of any new or amended laws and regulations as well as the manner in which they will be adopted, enforced or interpreted may increase RBI Group's financing costs and could have an adverse effect on RBI Group's business, financial condition, results of operations and prospects. In addition to complying with capital requirements on a consolidated basis, RBI itself is also subject to capital requirements on an unconsolidated basis. Furthermore, entities of RBI (Regulatory) Group which are subject to local supervision in their country of incorporation may be, on an individual and/or on a (sub-)consolidated basis, also required to comply with applicable local regulatory capital requirements. It is therefore possible that individual entities within RBI Group or sub-groups require additional capital, even though the capital of RBI (Regulatory) Group is sufficient. Legislative and/or regulatory changes in the current definitions of what is deemed to qualify as own funds could reduce RBI (Regulatory) Group's eligible capital and/or require reducing the RWA of RBI and/or RBI (Regulatory) Group. There can be no assurance that, in the event of any further changes of the applicable rules, adequate grandfathering or transitional provisions will be implemented to allow RBI (Regulatory) Group to repay or replace such derecognised capital instruments in a timely fashion or on favourable terms. RBI (Regulatory) Group may therefore need to obtain additional capital in the future which may not be available on attractive terms or at all.

Furthermore, any such regulatory development may expose RBI Group to additional costs and liabilities which may require RBI Group to change its business strategy or otherwise have a negative impact on its business, the offered products and services as well as the value of its assets. There can be no assurance that RBI (Regulatory) Group would be able to increase its eligible capital (respectively its capital ratios) sufficiently or on time. If RBI (Regulatory) Group is unable to increase its capital ratios sufficiently, its credit ratings may drop and its cost of funding may increase, the occurrence of which could have a material adverse effect on its business, financial condition and results of operations and could limit its ability to fulfil its obligations under the Notes.

19. *The Issuer may not be able to meet the minimum requirement for own funds and eligible liabilities.*

Under the SRM, each institution has to ensure that it meets the MREL at all times (on an individual basis and in case of EU parent undertakings (such as RBI (Regulatory) Group) also on a consolidated basis). Such minimum requirement currently shall be determined by the resolution authority and shall be calculated as the amount of own funds and eligible liabilities expressed as a percentage of the total liabilities and own funds of the institution. The scope, calculation and composition of the MREL is currently under review (see also the risk factor "18. *New governmental or regulatory requirements and changes in perceived levels of adequate capitalisation and leverage could lead to increased capital requirements and reduced profitability for RBI (Regulatory) Group.*"). There is a risk that the Issuer may not be able to meet the MREL which could result in higher refinancing costs, regulatory measures and, if resolution measures were imposed on the Issuer, could significantly affect its business operations, could lead to losses for its creditors (including the Holders of the Notes) and could result in restrictions on , or materially adversely affect the Issuer's ability to make payments on the Notes.

20. *Adjustments to the business profile of RBI or RBI Group may lead to changes in its profitability.*

Adjustments of the business profile to meet increasing capital requirements or other business needs may include the attempt to sell assets including existing subsidiaries. No assurance can be given that suitable opportunities for disposals will be identified in the future, or that RBI Group will be able to complete such disposals on favourable terms or at all (e.g. the envisaged sale of a majority stake of Raiffeisen Bank Polska S.A. (as further set out in section "2.2 Strategy" in "General Information on the Issuer and the RBI Group")). Such disposals may prove difficult in the market environment as many of RBI Group's competitors may also seek to dispose of assets. It may also be difficult for RBI Group to adapt its cost structure to the smaller size of certain of its businesses or to otherwise increase the potential to retain earnings in order to build up capital internally. This may have a material adverse effect on RBI's ability to meet its obligations under the Notes.

Furthermore, strategic initiatives and efficiency programmes (including restructuring activities and cost savings plans) might influence the legal form of business being pursued. In case business currently performed in a separate legal entity is merged into RBI, this could increase the economic risk of RBI versus the current structure. Moreover, RBI Group is exposed to the risk that the benefits from such initiatives and programmes, in particular any expected synergy effects and cost savings, cannot be fully achieved.

21. *Compliance with applicable rules and regulations, in particular on anti-money laundering and anti-terrorism financing, anti-corruption and fraud prevention, sanctions, tax as well as capital markets (securities and stock exchange related), involve significant costs and efforts and non-compliance may have severe legal and reputational consequences for RBI.*

RBI Group members are subject to rules and regulations, in particular on anti-money laundering and anti-terrorism financing, anti-corruption and fraud prevention, economic sanctions and tax as well as capital markets (securities and stock exchange related). These rules and regulations have been

recently tightened particular by the implementation of the "Directive (EU) 2015/849 of the European Parliament and of the Council of 20 May 2015 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing, amending Regulation (EU) No 648/2012 of the European Parliament and of the Council, and repealing Directive 2005/60/EC of the European Parliament and of the Council and Commission Directive 2006/70/EC" ("4th AML Directive"), implemented in Austrian law, *inter alia*, by the Austrian Financial Markets Anti-Money Laundering Act (*Finanzmarkt-Geldwäschegesetz – "FM-GwG"*) and the Austrian Beneficial Ownership Register Act (*Wirtschaftliches Eigentümer Registergesetz – "WiEReG"*), and might be further tightened and more strictly enforced in the future. Economic sanctions, such as embargos, may impose further restrictions on the operations of RBI Group in certain countries or with certain customers, may require RBI or any member of RBI Group to terminate business relationships or to block assets such as bank accounts.

Monitoring compliance with such rules and regulations constitutes a significant financial burden on and places technical demands on RBI Group. RBI Group cannot guarantee that it is in compliance with all applicable rules and regulations at all times or that its group standards are being consistently applied by its employees in all circumstances, despite its strict management approach. Any violation of such rules and regulations, or even alleged violations, may have severe legal, monetary and reputational consequences and could have a material adverse effect on RBI Group's business, financial condition and results of operations.

This also applies to the more stringent due diligence and disclosure obligations according to the standard for automatic exchange of financial account information in tax matters (*Common Reporting Standard – "CRS"*), which has been approved by the Organisation for Economic Co-operation and Development OECD, and formally adopted by the EU through the "Council Directive 2014/107/EU of 9 December 2014 amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation". Therefore, RBI Group members within the EU are required to apply the CRS rules and provisions. In Austria, CRS is implemented by the Austrian Common Reporting Standard Act (*Gemeinsamer Meldestandard-Gesetz – "GMSG"*). Not complying with the provisions of the CRS and/or GMSG could lead to locally defined penalties.

According to the CRS, financial institutions in participating countries are required to apply strict due diligence rules for new, as well as for pre-existing accounts in order to identify the customer's tax residence. These strict provisions result in an annual reporting obligation to the local tax authority which exchanges data with other tax authorities.

Another due diligence and disclosure obligation derives from the Foreign Account Tax Compliance Act ("**FATCA**") provisions of the U.S., which were put in force in 2010 in order to prevent tax evasion by U.S. account holders (U.S. citizens and U.S. residents for tax purposes). In 2014, the United States and Austria entered into an intergovernmental agreement (an "**IGA Model 2**") in order to facilitate the implementation of FATCA for Austrian financial institutions. According said agreement, all Austrian financial institutions have to implement appropriate measures in order to meet the due-diligence and reporting obligations of the FATCA.

The U.S. Treasury Department and the U.S. Internal Revenue Services (IRS) may issue additional guidance and regulations that may alter the application of FATCA to RBI Group and the Notes in the future. All FATCA reporting relevant RBI Group units (FFIs), including RBI itself, are registered with the U.S. IRS as FATCA compliant members of RBI Expanded Affiliated Group.

A similar strict U.S. regulation is the Qualified Intermediary Agreement ("**QI Agreement**"). According to the QI Agreement a compliance programme has to be created and a review with sampling has to be conducted periodically. This QI Agreement, originally from 2001, has been renewed between RBI and the U.S. IRS in 2017. RBI is obliged to make an appropriate report regarding withheld amounts for the US Treasury Department (respectively U.S. IRS). In addition, the U.S. IRS has issued detailed regulations about taxing Dividend Equivalent Payments.

Since the U.S. IRS combines both FATCA and the QI Agreement, not complying with QI regulations could result in a loss of the QI status and in a loss of the FATCA compliant status, which would lead to severe legal, monetary and reputational consequences and could have a material adverse effect on RBI Group's business, financial condition and results of operations.

Based on the Austrian "Bankenpaket" regulation - i.e. Kontenregister- und Konteneinschaugesetz – "KontRegG", Kapitalabfluss-Meldegesetz "KapAbflG", RBI has a strict reporting obligation to the Austrian Financial Authority ("BMF"). On one hand, there is the reporting obligation of accounts encompassed by the "account register" as defined in the Federal Act on the establishment of a register of accounts and account insight ("Account Register and Account Insight Act" – "KontRegG"), BGBl. I No. 116/2015, on the other hand, RBI is obliged to report capital in/outflows according to the Federal Act on the reporting obligation of capital in/outflows (capital in/outflow reporting law – "KapAbflG"). RBI would be exposed to severe monetary and reputational risk if non-compliant with the above mentioned regulations.

Increasingly stricter EU sanctions as well as U.S. sanctions against certain countries, legal entities and individuals may restrict or prevent RBI as well as RBI Group companies not only from entering into new transactions with affected entities but also affect the settlement of existing transactions, in particular the enforcement of existing claims against customers, which could result in risks relating to law suits due to non-payment in connection with guarantees issued by RBI or members of RBI Group or letters of credit as well as significant losses. The situation will be exacerbated by legislation of affected countries countering such sanction legislation if RBI Group entities may be required to comply with contradicting acts of legislation with extra-territorial effect enacted in different jurisdictions. This risk may affect in particular RBI Group's business in Russia and with entities related to Russia.

Any breach of such regulations and even the mere suspicion of any breach may have legal consequences or have an adverse impact on the reputation of RBI Group and thus significantly affect its business, for example by the freezing of accounts with US correspondent credit institutions, its financial position and results of operations and may have an adverse effect on RBI's ability to meet its obligations under the Notes.

22. *RBI's ability to fulfil its obligations under the Notes depends in particular on its financial strength which in turn is influenced by its profitability. The following describes factors which may adversely affect RBI's profitability.*

- **Consumer Protection.** Changes in consumer protection laws and their application and interpretation as well as the more aggressive enforcement of such laws by consumers, regulatory authorities and consumer protection agencies can adversely affect the pricing terms of RBI Group's loans and other products and services and may allow consumers to reclaim fees, interest and principal payments previously paid.
- **Project Risk.** RBI Group carries out complex projects, *inter alia*, in the context of regulatory/legal requirements and business development bearing the risk of not fully achieving the projected targets in terms of effectiveness and efficiency but also with regards to strategic and business ambition. This might potentially increase costs of implementation and operations on one hand and missed profitability targets on the other hand. Regulatory or legal non-compliance due to materialized project risk might additionally result in severe penalties.
- **RBI's Capital Market Dependence.** RBI itself is not a retail bank and does not have a broad and diversified base of customer deposits. Accordingly, RBI's funding is dependent on the conditions of the international capital markets. Reduced access to capital market funding and increased capital market funding rates may have a stronger effect on RBI's profitability and liquidity position compared to other Austrian credit institutions with a more diversified deposit base.

- **RBI Group's Customer Deposits Dependence.** On RBI Group level, one of the principal sources of funding for RBI Group are customer deposits, with the remaining funding provided through debt issuances and interbank loans. The ongoing availability of deposits to fund RBI Group's loan portfolio is subject to potential changes in factors outside RBI Group's control, such as, *inter alia*, increased competition from other credit institutions for deposits, depositors' concerns regarding either the economy in general, the financial services industry or RBI Group, rating downgrades and the availability and extent of deposit guarantees.
- **Collateral Eligibility Criteria.** More restrictive collateral eligibility criteria for tender operations with the ECB, the Austrian National Bank (*Oesterreichische Nationalbank – OeNB*) and/or local central banks could increase RBI Group's funding costs and impair its liquidity situation.
- **Deteriorating Asset Valuations and Impairments of Collateral.** RBI Group is exposed to the risk of deteriorating asset valuations resulting from poor market conditions and impairments of collateral securing business and real estate loans.
- **Competition.** Rising levels of competition in the countries in which RBI Group operates may result in narrowing net interest margins and lower profitability. The consolidation of the worldwide financial services sector creates competitors with extensive product and service portfolios, which may have better access to liquidity or the ability to provide services at lower prices than RBI Group. Large competitors may expand or further expand their presence in the CEE region. Due to their greater international presence and their ability to provide banking services beyond the CEE markets, these competitors might appear more attractive to certain customer groups, *e.g.* multinational clients, than RBI Group.
- **Operational Risk.** Although RBI Group is analysing operational risks on a frequent basis, it may suffer significant losses as a result of operational risk, *i.e.* the risk of loss due to inadequate or failed internal processes or due to external events. Inadequate or failed internal processes include without limitation unauthorised actions, theft or fraud by employees, clerical and record keeping errors, business interruption and information systems malfunctions or manipulations or model risks (*e.g.* valuation of asstes/liabilities, in terms of liquidity or market risks). External events include without limitation earthquakes, riots or terrorist attacks, bank robberies, fraud by outsiders and equipment failures, whether deliberate, accidental or natural occurrences.
- **M&A Risks.** In connection with mergers, acquisitions and investments, RBI is exposed to previously unidentified risks and to the risk that expenses may arise (*e.g.* unexpectedly high or unforeseen costs of integration measures).
- **Litigation.** RBI Group operates in an increasingly litigious environment, potentially exposing it to liability and other costs, the amounts of which cannot be estimated and may adversely influence the results of operations.
- **Risk Management.** RBI Group's risk management strategies and its implementation may not be effective in identifying and assessing all risks and reducing the potential for significant losses in each market environment.
- **IT-Systems.** RBI Group is dependent on complex information technology systems and RBI relies heavily on such systems to conduct its business. Risks include, *inter alia*, the proper functioning and proper setup of the systems as well as correct data entries and result interpretation.
- **Conflicts of Interest.** RBI is exposed to risks in connection with potential conflicts of interest due to various business relationships.

For example, certain of the direct or indirect shareholders of RBI are commercial banks and

their managers serve – among others – on RBI's Supervisory Board. Such activities in the same or similar areas may trigger differences of opinion between RBI and such shareholders, who effectively control RBI's annual general meeting, and consequently, may either delay or prevent necessary business decisions or result in additional own or external funds being withheld by shareholders. In addition, members of the management board of RBI serving on the management boards or supervisory boards or performing any similar functions in other companies/foundations may in individual cases be confronted with conflicts of interest if the Issuer or any member of RBI Group maintains active business relations with such other companies/foundations. Such development could have a material negative impact on RBI's business, financial position and results of operations so that it may not or only to a limited extent be able to meet its obligations under the Notes.

- **Participation Risk.** RBI has equity participations in legal entities that are held for operations or out of a strategic long-term nature. It is exposed to the risk that the value of those equity participations decreases.
- **Capital Risk.** Capital must be held for internal and regulatory capital adequacy purposes. As more advanced risk quantification models are used for quantifying the minimum required amount of risk capital, capital requirements typically also become more volatile. Furthermore, the composition of capital incorporates certain risks, reflecting eligibility rules. In particular, some types of capital might become ineligible or could not be eligible due to applicable regulatory rules. Therefore, capital risk can influence RBI Group's ability to achieve its business targets. If no additional own funds could be raised when needed, a reduction of the overall risk position would be a main option in case of a capital shortage. This can limit the growth of RBI Group, and reduce earnings of RBI Group in the future.
- **Owned Property risk.** Although a major part of RBI Group's assets stem from financial instruments including loans, securities or money market placements, a specific part of RBI's assets consist of owned properties including buildings, suspense accounts and other tangible assets. A permanent decline of market prices for owned properties or other assets may also affect RBI Group's profit and therefore may affect the ability of RBI Group to fulfil its obligations.
- **Settlement risk.** Potential losses due to settlement risks arise from the time-lag between the dates of the exchange of cash, securities, or assets respectively. A counterpart might not deliver a security or its value in cash after RBI Group has already paid or delivered securities as per agreement (credit risk) or the counterpart will fulfil the respective value later on (liquidity risk). Furthermore, a delay in the settlement of the transaction may lead to trading losses due to the fact that the value of the underlying asset changed. In usual market environments, such losses are generally low. However, in stressed market conditions such losses may reinforce liquidity risks, may lead to higher losses and therefore may affect the ability of RBI Group to fulfil its obligations.

B. RISKS RELATING TO THE NOTES

1. Notes may not be a suitable investment for all investors if they do not have sufficient knowledge and/or experience in the financial markets and/or access to information and/or financial resources and liquidity to bear all the risks of an investment and/or a thorough understanding of the terms of the Notes and/or the ability to evaluate possible scenarios for economic, interest rate and other factors that may affect their investment

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in the Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of the relevant underlying, if any; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolio. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes, the likelihood of cancellation of payment of principal, payment of distributions or a write-down of the Notes and the impact this investment will have on the potential investor's overall investment portfolio. Each potential investor in the Notes should determine the suitability of such investment in light of its own circumstances and have sufficient financial resources and liquidity to bear the risks of an investment in the Notes, including the possibility that the entire principal amount of the Notes could be lost.

2. Legality of Purchase

Neither the Issuer, the Dealers nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different) or for compliance by that prospective purchaser with any laws, regulation or regulatory policy applicable to it. A prospective purchaser may not rely on the Issuer, the Dealers or any of their respective affiliates in connection with its evaluation as to the legality of its acquisition of the Notes.

3. Issuer risk.

Holder of the Notes are exposed to a so-called "Issuer risk" or credit risk. Issuer/credit risk means the risk of the Issuer becoming either temporarily or permanently insolvent which means that the Issuer may become unable to pay its debt when it falls due. In such event a total loss of all capital invested cannot be excluded. The risks relating to the Issuer are described in detail in "A. Risk factors relating to the Issuer" of the section "Risk Factors" above.

4. The Holders of the Notes are exposed to the risk that RBI faces no limitation on issuing further debt instruments or incurring further liabilities.

Neither the Terms and Conditions nor any other contractual clauses / agreements contain any restrictions on the amount of debt that the Issuer may (or may have to) issue, ranking senior to or *pari passu* with the Notes. The issue of any such debt or instruments may reduce the amount recoverable by Holders of the Notes upon the Issuer's insolvency. If the Issuer's financial condition were to deteriorate, the Holders could suffer direct and materially adverse consequences, including suffering of their entire investment.

5. The Notes may be subject to write-down or conversion powers exercised by a resolution authority resulting in (i) the amount outstanding to be reduced, including to zero; (ii) a conversion into ordinary shares or other instruments of ownership or (iii) the terms of the Notes being varied (statutory loss absorption).

The stated aim of the SRM is to provide relevant resolution authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimize taxpayers' exposure to losses.

The powers provided to such resolution authorities include write-down and conversion powers which may be used prior to or on entry into resolution to ensure that, *inter alia*, relevant capital instruments fully absorb losses of the issuing institution and/or the group (so-called "write down or conversion power of relevant capital instruments"). Accordingly, resolution authorities will be required to order the write-down of such relevant capital instruments on a permanent basis, or convert them into CET 1 items (such as ordinary shares or other instruments of ownership), once the conditions for resolution or the conditions for exercising the power of write-down or conversion of relevant capital instruments (both as described below) are met, and before any resolution tool (other than the bail-in tool) is made use of (statutory loss absorption).

If the relevant conditions (in particular those for applying resolution tools) are met, the relevant resolution authorities may also apply, the bail-in tool in order to meet the resolution objectives.

The resolution authority shall exercise the write down and conversion power in accordance with the priority of claims under normal insolvency proceedings, meeting the following results:

(i) CET 1 is reduced first in proportion to the relevant losses; (ii) the principal amount of Additional Tier 1 instruments ("AT 1") is written down or converted or both; (iii) the principal amount of Tier 2 instruments ("Tier 2") is written down or converted or both, in each case, if and to the extent of the reduction of the relevant capital instruments is not sufficient to cover the losses.

When applying the bail-in tool, resolution authorities may exercise the write down and conversion powers not only to shares or other instruments of ownership and relevant capital instruments pursuant to (i), (ii) and (iii) (= CET 1, AT 1 and Tier 2) in the manner and order set out above, but also: (iv) reduce other subordinated debt that is not AT 1 or Tier 2 in accordance with the hierarchy of claims in the normal insolvency proceedings; and (v) the rest of eligible liabilities (including certain senior) in accordance with the hierarchy of claims in the normal insolvency proceedings including the ranking pursuant to § 131 of the Austrian Recovery and

Resolution Act (*Bundesgesetz über die Sanierung und Abwicklung von Banken (Sanierungs- und Abwicklungsgesetz – "BaSAG")*) (sequence of write down and conversion / loss absorbing cascade).

The conditions for resolution are:

1. the Competent Authority or the resolution authority determines that the institution is failing or likely to fail; and
2. having regard to timing and other relevant circumstances, there is no reasonable prospect that any alternative private sector measures, including measures by an institutional protection scheme, or supervisory action, including early intervention measures or the write-down or conversion of relevant capital instruments taken in respect of the institution, would prevent the failure of the institution within a reasonable timeframe; and
3. a resolution action is necessary in the public interest.

The first and second condition for resolution also apply to the exercise of write-down or conversion powers of relevant capital instruments, provided that the test also applies to the failure of a group. A group shall be deemed to be failing or likely to fail where the group infringes, or there are objective elements to support a determination that the group, in the near future, will infringe, its consolidated prudential requirements in a way that would justify action by the Competent Authority including but not limited to because the group has incurred or is likely to incur losses that will deplete all or a significant amount of its own funds. It should be noted that the power of write-down or conversion of relevant capital instruments may be applied before and independent from the bail-in tool, and therefore claims of Holders of Subordinated Notes may be subject to statutory loss absorption while claims of other Holders (such as Senior Notes, Eligible Notes and Covered Bank Bonds) may remain unaffected.

Any write-down or conversion of all or part of the principal amount of any instrument, including accrued but unpaid interest in respect thereof, in accordance with the bail-in tool or the write-down and conversion powers would not constitute an event of default under the terms of the relevant instruments. Consequently, any amounts so written down or converted would be irrevocably lost and the holders of such instruments would cease to have any claims thereunder, regardless whether or not the institution's financial position is restored.

Hence, the Notes may be subject to write-down or conversion into CET 1 which may result in Holders losing some or all of their investment in the Notes. The exercise of any such power is highly unpredictable and any suggestion or anticipation of such exercise could materially adversely affect the market price of the Notes.

Investors should be aware that if write-down or conversion powers are exercised by a resolution authority: (i) the amount outstanding of the Notes may be (permanently) reduced, including to zero; (ii) the Notes may be converted into ordinary shares or other instruments of ownership; and/or (iii) the terms of the Notes may be varied (e.g. the variation of maturity of a debt instrument).

Where no such resolution tools and powers as set out above are applied, the Issuer may be subject to national insolvency proceedings.

6. *The Notes may be subject to other resolution powers which may result in the non-payment of interest and/or non-repayment.*

Provided that the Issuer meets the applicable conditions for resolution, the resolution authority has certain resolution powers which it may exercise either individually or in any combination together with or in preparation of applying a resolution instrument. Such resolution powers in particular include:

- (a) the power to transfer to another entity rights, assets or liabilities of the Issuer;
- (b) the power to reduce, including to reduce to zero, the nominal value of or outstanding amount due in respect of Eligible Liabilities of the Issuer;
- (c) the power to convert Eligible Liabilities of the Issuer into ordinary shares or other instruments of ownership of the Issuer, a relevant parent institution or a bridge institution to which assets, rights or liabilities of the Issuer are transferred;
- (d) the power to cancel debt instruments issued by the Issuer;
- (e) the power to require the Issuer or a relevant parent institution to issue new shares or other instruments of ownership or other capital instruments, including preference shares and contingent convertible instruments; and/or
- (f) the power to amend or alter the maturity of certain debt instruments and other eligible liabilities issued by the Issuer or the amount of interest payable under such debt instruments and other Eligible Liabilities, or the date on which the interest becomes payable, including by suspending payment for a temporary period.

The exercise of such resolution powers could have a negative impact on the Issuer and/or the Notes.

7. *The Holders of the Notes are exposed to the risk that in an insolvency of the Issuer deposits have a higher ranking than their claims under the Notes.*

§ 131 BaSAG implements Article 108 BRRD in Austria and stipulates the ranking in the insolvency hierarchy, whereas in insolvency proceedings opened in relation to the Issuer the following insolvency hierarchy for deposits applies:

- (a) The following claims have the same ranking, which is higher than the ranking of the claims of ordinary senior unsecured and non-preferred senior unsecured creditors:
 - (i) that part of eligible deposits from natural persons and micro, small and medium-sized enterprises which exceeds the coverage level provided for in Article 6 DGSD; and
 - (ii) deposits that would be eligible deposits from natural persons, micro, small and medium-sized enterprises if they are not made through branches (located outside the EU) of institutions established within the EU;
- (b) The following claims have the same priority ranking, which is higher than the ranking of claims provided for under point (a) above: (i) covered deposits; and (ii) deposit guarantee schemes subrogating to the rights and obligations of covered depositors in insolvency.

In addition to that, for entities listed in §1(1)(1) to (4) BaSAG (such as the Issuer) Article 108 BRRD as amended by Directive (EU) 2017/2399 introduces a (new) class of certain non-preferred debt instruments. While Directive (EU) 2017/2399 has to be transposed into national law by the Member States by 29 December 2018 at the latest, the relevant amendments of § 131 BaSAG in Austria entered into force on 30 June 2018 already.

Thus, ordinary senior unsecured claims shall have a higher priority ranking in normal insolvency proceedings than that of unsecured claims resulting from debt instruments within the meaning of

§ 131(3) BaSAG. Such so-called “non-preferred senior debt instruments” are debt instruments that meet the following conditions: (i) the original contractual maturity of the debt instruments is of at least one year; (ii) the debt instruments contains no embedded derivatives and are not derivatives themselves; (iii) the relevant contractual documentation and, where applicable, the prospectus related to the issuance explicitly refer to the lower ranking under § 131(3) BaSAG. For the purposes of item (ii), debt instruments with variable interest derived from a broadly used reference rate and debt instruments not denominated in the domestic currency of the issuer, provided that principal repayment and interest are denominated in the same currency, Competent Authority shall not be considered to be debt instruments containing embedded derivatives solely because or those features. Such non-preferred senior debt instruments in turn, shall have a higher priority ranking in normal insolvency proceedings than the priority ranking of claims resulting from instruments referred to in § 90(1)(l) to (4) BaSAG (i.e. CET 1 items, AT 1 instruments, Tier 2 instruments and other subordinated debt). Therefore, Holders of the Notes should bear in mind that in case of insolvency proceedings opened in relation to the Issuer and in any comparable proceedings (such as resolution proceedings under the SRM), their claims will be junior to the claims listed above in points (a) and (b), and that therefore they will only receive payment of their claims if and to the extent that such claims listed above in points (a) and (b) have been discharged in full.

8. *Ratings of the Notes, if any, may not reflect all risks - ratings of the Notes may be subject to change at all times.*

The Issuer has been rated and one or more independent rating agencies may assign ratings to the Notes. The rating of the Notes is not necessarily identical to the rating of the Issuer and may differ due to specifics of the Notes such as status, structure, underlying, if any, or other factors. Furthermore, Notes may not be rated at all.

A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Rating agencies may also change their methodologies for rating securities with features similar to the in the future. If the rating agencies were to change their practices for rating such securities in the future and the ratings of the Notes were to be subsequently lowered, this may have a negative impact on the trading price of the Notes.

In any case, the ratings of the Notes may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes.

9. *Liquidity risk.*

Application for the Programme has been made in order for any Notes to be issued under the Programme to be listed on the official list of the Luxembourg Stock Exchange, to be traded on the Regulated Market "*Bourse de Luxembourg*" of the Luxembourg Stock Exchange and application may be made to admit the Notes on the Official Market (*Amtlicher Handel*) or on any other stock exchange. In addition, the Programme provides that Notes may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance that any liquid secondary market for the Notes will develop or, if it does develop, that it will continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Notes. If the Notes are not listed on any stock exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor might not be able to sell its Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Investors should note that difficult global credit market conditions may adversely affect the liquidity not only in the primary market but also in the secondary market for debt securities issued by the Issuer

and may affect the liquidity of any primary or secondary market in which Notes to be issued by the Issuer may be traded. The Issuer cannot predict when these circumstances will change.

10. *Market price risk.*

The development of market prices of the Notes depends on various factors, such as changes of Market Interest Rate levels, development of an underlying, the policy of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The Holder of Notes is therefore exposed to the risk of an unfavourable development of market prices of its Notes which materialises if the Holder sells the Notes prior to the final maturity of such Notes. If the Holder decides to hold the Notes until final maturity the Notes shall be redeemed at the amount set out in the relevant Final Terms.

Depending on the market price at which Notes are purchased in the secondary market, the yield on such Notes may be negative.

11. *Hedging Transactions.*

Hedging transactions carried out by the Issuer in connection with the Notes cannot preclude the fact that such hedging transactions may have an adverse impact on the determination of the purchase and the sales price of the Notes.

12. *Risk of early redemption.*

The applicable Final Terms will indicate whether the Issuer may have the right to call the Notes prior to maturity (optional call right) on one or several dates determined beforehand, whether the Issuer does not have the right to call the Notes at all or whether the Notes will be subject to early redemption upon the occurrence of an event indicated in the applicable Final Terms (early redemption event). In addition, the Issuer will have the right to redeem the Notes if the Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation, in case of Subordinated Notes subject to regulatory conditions, all as set out in the Terms and Conditions. If the Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a holder of such Notes is exposed to the risk that due to such early redemption its investment will have a lower than expected yield. The Issuer can be expected to exercise its optional call right if the yield on comparable Notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable Notes with a lower yield. On the other hand, the Issuer can be expected not to exercise its optional call right if the yield on comparable Notes in the capital market has increased. In this event an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the Issuer may exercise any optional call right irrespective of Market Interest Rates on a call date.

The applicable Final Terms of Senior Notes will indicate whether an automatic early redemption is applicable. If the Notes are automatically early redeemed, a Noteholder of such Note is exposed to the risk that due to early redemption his investment may have a lower yield than expected.

Noteholders may be subject to the risk that interest / redemption proceeds earned/received from an investment in the Notes may not in the event of early redemption of any Notes be able to be reinvested in such a way that they earn the same rate of return as the redeemed Notes. The Notes may be automatically early redeemed (the automatic redemption condition may be fulfilled) if the yield on comparable notes in the capital market falls which means that the investor may only be able to reinvest the redemption proceeds in securities with a lower yield.

13. Reinvestment Risk.

A Holder of Notes may be exposed to risks connected to the reinvestment of cash resources freed from any Note. The return the Holder will receive from a Note depends not only on the price and the nominal interest rate of the Note but also on whether or not the interest received during the term of the Note can be reinvested at the same or a higher interest rate than the rate provided for in the Note. The risk that the general market interest rate falls below the interest rate of the Note during its term is generally called reinvestment risk. The extent of the reinvestment risk depends on the individual features of the relevant Note.

14. Currency risk.

A Holder of Notes denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks and governments.

A change in the value of any foreign currency against the local currency of the Holder of Notes, for example, will result in a corresponding change in the local currency value of Notes denominated in a currency other than the local currency and a corresponding change in the local currency value of interest and principal payments made in a currency other than in the local currency in accordance with the terms of such Notes. If the underlying exchange rate falls and the value of the local currency correspondingly rises, the price of the Notes and the value of interest and principal payments made thereunder expressed in the local currency falls.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal at all.

15. Fixed Rate Notes.

A holder of Fixed Rate Notes is exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate. While the nominal interest rate of Fixed Rate Notes as indicated in the applicable Final Terms is fixed during the life of such Notes, the current interest rate on the capital market for issues of the same maturity (the "**Market Interest Rate**") typically changes on a daily basis. As the Market Interest Rate changes, the price of Fixed Rate Notes also changes, but in the opposite direction. If the Market Interest Rate increases, the price of Fixed Rate Notes typically falls, until the yield of such Notes is approximately equal to the Market Interest Rate. If the Market Interest Rate falls, the price of Fixed Rate Notes typically increases, until the yield of such Notes is approximately equal to the Market Interest Rate. If the Holder of Fixed Rate Notes holds such Notes until maturity, changes in the Market Interest Rate are without relevance to such Holder as the Notes will be redeemed at a specified redemption amount, usually the principal amount of such Notes.

The same risk applies to Notes which bear different fixed interest rates for different interest periods such as Fixed-to-Fixed Rate Notes, Step-Up Notes and Step-Down Notes or other structured products certain interest periods of which are fixed-rate, if the Market Interest Rates in respect of comparable Notes are higher than the rates applicable to such Notes.

16. Floating Rate Notes.

Floating Rate Notes tend to be volatile investments. A Holder of Floating Rate Notes is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance. If Floating Rate Notes are structured to include underlyings, multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, the market value may be more

volatile than those for Floating Rate Notes that do not include these features. If the amount of interest payable is determined in conjunction with a multiplier which is greater than one or by reference to some other leverage factor, the effect of changes in the interest rates on interest payable will be increased.

Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

17. Risks of CMS Spread Securities.

The Terms and Conditions of CMS Spread Notes may provide for a variable interest rate (except for a possible agreed fixed rate payable to the extent provided for in the Terms and Conditions of Notes) which is dependent on the difference between rates for swaps having different terms (the "**CMS Spread Notes**").

Investors purchasing CMS Spread Notes might expect that, during the term of the CMS Spread Notes, (i) the interest curve will not, or only moderately, flatten out, or (ii), depending on the structure of CMS Spread Notes, expect that the interest curve will not steepen, as the case may be. In the event that the market does not develop as anticipated by investors and that the difference between rates for swaps having different terms decreases to a greater extent than anticipated, the interest rate payable on the Notes will be lower than the interest level prevailing as at the date of purchase. In a worst case scenario, no interest will be payable. In such cases, the price of the CMS Spread Notes will also decline during the term.

CMS Spread Notes may be equipped with a cap with respect to the interest payment. In that case the amount of interest will never rise above and beyond the predetermined cap, so that the Holder will not be able to benefit from any actual favourable development beyond the cap. The yield of these Notes could therefore be lower than that of similarly structured Notes without a cap.

CMS Spread Notes may also be issued with one or more initial fixed interest period(s) which are connected upstream to the floating rate interest periods. In such case, risks relating to Fixed Rate Notes apply with regard to the fixed interest period(s) of such CMS Spread Notes as well.

18. Conflicts of interest – Calculation Agent.

Potential conflicts of interest may exist between the Calculation Agent (if any) and Holders (in particular where a Dealer or the Issuer acts as a calculation agent), in particular with respect to certain determinations and judgements that such Calculation Agent may make pursuant to the Terms and Conditions that may influence amounts receivable by the Holders during the term of the Notes and upon their redemption.

19. Risk of financial benchmark and reference rate continuity.

The EURIBOR, the LIBOR and other interest rate indices which are deemed to be benchmarks are the subject of recent national, international and other regulatory guidance and proposals for reform (such indices and together the "**Benchmarks**"). Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such Benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to such a Benchmark.

In May 2016, the Council of the European Union adopted the EU regulation on indices used as Benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**"). The Benchmark Regulation entered into force on 30 June 2016. Subject to various transitional provisions, the Benchmark Regulation will apply from 1 January 2018, except that the regime for "critical" Benchmarks applies from 30 June 2016. The

Benchmark Regulation will apply to "contributors", "administrators" and "users" of Benchmarks in the EU, and will, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to have satisfied certain "equivalence" conditions in its local jurisdiction, to be "recognised" by the authorities of a Member State pending an equivalence decision or to be "endorsed" for such purpose by an EU Competent Authority) and to comply with requirements in relation to the administration of Benchmarks and (ii) ban the use of Benchmarks of unauthorised administrators. The scope of the Benchmark Regulation is wide and, in addition to so-called critical Benchmark indices such as EURIBOR and LIBOR, will apply to many other interest rate indices.

The Benchmark Regulation could have a material impact on Notes linked to a "benchmark" rate or index, including in any of the following circumstances:

- (a) a rate or index which is a Benchmark could not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction which (subject to applicable transitional provisions) does not satisfy the "equivalence" conditions, is not "recognised" pending such a decision and is not "endorsed" for such purpose. In such event, depending on the particular Benchmark and the applicable terms of the Notes, the Notes could be delisted, adjusted, redeemed prior to maturity or otherwise impacted; and
- (b) the methodology or other terms of the Benchmark could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the Notes, including Calculation Agent determination of the rate or level of such Benchmark.

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of Benchmarks could increase the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks. Benchmarks could also be discontinued entirely. If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for floating rate Notes which are linked to such Benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes and as stipulated in the Terms and Conditions, which in the end could result in the same rate being applied until maturity of the floating rate Notes, effectively turning the floating rate of interest into a fixed rate of interest or, if set in the respective Final Terms, the Issuer could have the possibility to terminate the Notes under certain circumstances according to the respective Terms and Conditions. Any such consequence could have a material adverse effect on the value of and return on any such Notes.

20. *Uncertainty relating to the LIBOR calculation process and potential phasing out of LIBOR after 2021 may adversely affect the value of the Notes.*

Regulators and law enforcement agencies in the United Kingdom and elsewhere are conducting civil and criminal investigations into whether the banks that contribute to the British Bankers' Association (the "BBA") in connection with the calculation of daily LIBOR may have been under-reporting or otherwise manipulating or attempting to manipulate LIBOR. A number of BBA member banks have entered into settlements with their regulators and law enforcement agencies with respect to this alleged manipulation of LIBOR. Actions by the BBA, regulators or law enforcement agencies may result in changes to the manner in which LIBOR is determined or the establishment of alternative reference rates. For example, on 27 July 2017, the U.K. Financial Conduct Authority announced that it intends to stop persuading or compelling banks to submit LIBOR rates after 2021.

Furthermore, in the United States, efforts to identify a set of alternative U.S. dollar reference interest rates include proposals by the Alternative Reference Rates Committee of the Federal Reserve Board

and the Federal Reserve Bank of New York. At this time, it is not possible to predict the effect of any such changes, any establishment of alternative reference rates or any other reforms to LIBOR that may be enacted in the United Kingdom, in the United States or elsewhere. Uncertainty as to the nature of such potential changes, alternative reference rates or other reforms may adversely affect the trading market for LIBOR-based securities, including the Notes. Reform of, or the replacement or disappearance of, LIBOR and proposed regulation of LIBOR and other Benchmarks may adversely affect the value of and return on the Notes.

21. *Fixed-to-Fixed Rate Notes.*

The rate of the fixed interest applicable to the Notes, which will be reset on the Reset Day(s) based on a fixed spread (marge) to a certain Benchmark, may be different from the initial rate of interest and may adversely affect the yield of the Notes.

22. *Fixed to Floating Rate Notes or Fixed to Fixed to Floating Rate Notes.*

Fixed to Floating Rate Notes or Fixed to Fixed to Floating Rate Notes bear interest at a rate that converts from one or more fixed rate(s) to a floating rate. Such conversion may affect the secondary market and the market value of the Notes. The spread on the Fixed to Floating Rate Notes or Fixed to Fixed to Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes relating to the same reference rate. In addition, the new floating rate at any time may be lower than the interest rates payable on other Notes.

23. *Floating to Fixed Rate Notes.*

Floating to Fixed Rate Notes bear interest at a rate that converts from a floating rate to a fixed rate. Such conversion may affect the secondary market and the market value of the Notes. A Holder of Floating to Fixed Rate Notes is exposed to the risk that the fixed interest rate may be lower than the then prevailing interest rates payable on the Notes.

24. *Zero Coupon Notes.*

Zero Coupon Notes do not pay interest periodically. Instead, the difference between the redemption price and the issue price constitutes interest income until maturity. A holder of Zero Coupon Notes is exposed to the risk that the price of such Notes falls as a result of changes in the Market Interest Rate. Prices of Zero Coupon Notes are more volatile than prices of Fixed Rate Notes and are likely to respond to a greater degree to Market Interest Rate changes than interest bearing Notes with a similar maturity.

25. *Index Linked Notes.*

Notes may be issued as index linked Notes whose payments of interest or redemption payment will be made by reference to an index (the "**Index Linked Notes**").

If payment of interest is linked to a particular index, a Holder of an Index Linked Note is particularly exposed to the risk of fluctuating interest rate levels and uncertain interest income or may even receive no interest at all.

In the case of Index Linked Notes whose redemption payment is linked to an index, the structures included in this Base Prospectus foresee a redemption payment which may, however, never be below the principal amount of the relevant Index Linked Notes. However, a Holder of such an Index Linked Note is particularly exposed to the risk of fluctuating index levels and, therefore, an uncertain yield on the Note.

In the case of Index Linked Notes, the Issuer has no control over a number of matters, including economic, financial and political events that are important in determining the existence, magnitude and longevity of these risks and their results.

Investors should be aware that the market price of Index Linked Notes may be very volatile (depending on the volatility of the relevant index). Neither the current nor the historical value of the relevant index should be taken as an indication of the future performance of such index during the term of any Note.

The more volatile the relevant index is, the greater is the uncertainty in respect of interest income or the amount at which the redemption amount exceeds the principal amount, if at all. Uncertainty with respect to interest amount or redemption amount makes it impossible to determine the yield of Index Linked Notes in advance.

26. *Risks in connection with caps.*

Interest rate and/or the redemption amount of an issue of Notes may be capped. The effect of a cap is that the amount of interest and/or the redemption amount will never rise above and beyond the predetermined cap, so that the Holder will not be able to benefit from any actual favourable development beyond the cap. The yield could therefore be considerably lower than that of similar notes without a cap.

27. *The Notes are not covered by the statutory deposit protection scheme. The voluntary nationwide Raiffeisen customer guarantee scheme, established for non-subordinated obligations, might prove insufficient to compensate the Holders of Notes for any loss suffered in case of insolvency of RBI. Losses incurred by Holders of Notes due to the application of a bail-in tool pursuant to the (BaSAG) will not be covered under RKÖ's voluntary scheme. Notes will not be covered by RKÖ's voluntary scheme, if it is terminated prior to the issuance of the Notes.*

The Notes are not covered by the statutory protection scheme pursuant to the ESAEG provided for certain deposits or investment services subject to compulsory protection. Although non-subordinated Notes are, in principle, covered by the voluntary deposit guarantee scheme established by the RKÖ, the Holders may suffer losses if member institutions of the RKÖ are facing financial problems. As a consequence, the possibility to provide mutual assistance within the RKÖ is reduced or no longer feasible. Losses incurred by Holders of Notes due to the application of a bail-in tool pursuant to BaSAG will not be covered under RKÖ's voluntary scheme. Therefore, the Holders of the Notes may lose their entire investment. Non-subordinated Notes will not be covered by RKÖ's voluntary scheme, if it is terminated prior to the issuance of such Notes. Subordinated Notes are not covered by such voluntary deposit guarantee scheme (Please see in this regard also the risk factor "34.3. *Subordinated Notes are not covered by any (statutory or voluntary) protection scheme*" below).

28. *There can be no assurance, that the cover assets of the respective cover pool for Covered Bank Bonds will at all times be sufficient in order to cover RBI's obligations under the Notes and/or that replacement values are added in due time to the cover fund.*

Covered Bank Bonds are secured or covered (*gedeckt*) by assets (*Vermögenswerte*) which meet the requirements set out in the Austrian Act on Covered Bank Bonds (*Gesetz betreffend fundierte Bankschuldverschreibungen – "FBSchVG"*). Payment claims of Holders of Covered Bank Bonds are collateralized through different (types of) cover pools (*Deckungsstöcke*) with different cover assets (*Vermögenswerte*). In the event of insolvency or enforcement proceedings regarding RBI and/ or its assets, the relevant cover assets are separated from RBI's other assets and may not be used to satisfy claims of creditors of RBI other than the Holders of Covered Bank Bonds which are covered by these cover assets. However, there can be no assurance, that the cover assets of the respective cover pool for Covered Bank Bonds will at all times be sufficient in order to cover the obligations under the Covered

Bank Bonds and/or that replacement values are added in due time to the cover pool. The cover pools are managed separately and do not collateralize all Covered Bank Bonds, but only those, which are allocated to the respective cover pool. Accordingly investors cannot rely that the assets of an asset pool, to which their Covered Bank Bonds are not allocated, may be used to satisfy their claims.

29. *The statutory presentation period provided under German law may be reduced under the Terms and Conditions applicable to the Notes in which case Holders may have less time to assert claims under the Notes.*

Pursuant to the Terms and Conditions of the Notes the regular presentation period of 30 years (as provided in § 801 (1) sentence 1 of the German Civil Code (*Bürgerliches Gesetzbuch – "BGB"*)) may be reduced. In case of partial or total non-payment of amounts due under the Notes the Holder will have to arrange for the presentation of the relevant Global Note to the Issuer. In case of an abbreviation of the presentation period the likelihood that the Holder will not receive the amounts due to him increases since the Holder will have less time to assert his claims under the Notes in comparison to holders of debt instruments the terms and conditions of which do not shorten the statutory presentation period at all or to a lesser degree than the Terms and Conditions of the Notes.

30. *Resolutions of Holders in case of the application of the German Act on Issues of Debt Securities.*

If the Terms and Conditions of the Notes provide for resolutions of Holders pursuant to the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen – "SchVG"*), either to be passed in a meeting of Holders or by vote taken without a meeting, a Holder is subject to the risk of being outvoted and of losing rights against the Issuer against his will by a majority resolution of the Holders. As resolutions properly adopted are binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions of the Notes may be amended or reduced or even cancelled.

31. *Holders' representative pursuant to the German Act on Issues of Debt Securities.*

If the Terms and Conditions of the Notes provide for the appointment of a Holders' Representative pursuant to the SchVG, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions of the Notes against the Issuer, such right passing to the Holders' Representative who is then exclusively responsible to claim and enforce the rights of all Holders.

32. *An Austrian court could appoint a trustee for the Notes to exercise the rights and represent the interests of Holders on their behalf in which case the ability of Holders to pursue their rights under the Notes individually may be limited.*

Pursuant to the Austrian Notes Trustee Act (*Kuratorenengesetz – "KuratorenG"*), a trustee (*Kurator*) could be appointed by an Austrian court upon the request of any interested party (e.g. a Holder) or upon the initiative of the competent court, for the purposes of representing the common interests of the Holders in matters concerning their collective rights. In particular, this may occur if insolvency proceedings are initiated against the Issuer, in connection with any amendments to the Terms and Conditions of the Notes or changes relating to the Issuer, or under other similar circumstances.

Even though, save for the Terms and Conditions of the Covered Bank Bonds, the applicability of the Austrian Notes Trustee Act is excluded in the Terms and Conditions, it cannot be excluded that an Austrian court rejects the exclusion of the applicability of the Austrian Notes Trustee and appoints a trustee, because the Issuer is an Austrian company. If a trustee is appointed, it will exercise the collective rights and represent the interests of the Holders and will be entitled to make statements on their behalf which shall be binding on all Holders. Where a trustee represents the interests of and exercises the rights of Holders, this may conflict with or otherwise adversely affect the interests of

individual or all Holders. The role of an appointed trustee may also conflict with provisions of the Terms and Conditions related to majority resolutions of the Holders pursuant to the Terms and Conditions. On the other hand, investors should not rely on the protection afforded by the Austrian Notes Trustee Act, as its application has been excluded in the Terms and Conditions and an Austrian court may give effect to such disapplication.

33. *Because the Global Notes in most cases are held by or on behalf of a Clearing System, investors will have to rely on their procedures for transfer, payment and communication with the Issuer.*

Because the global notes representing the Notes (each a "Global Note" and, together, the "Global Notes") may be held by or on behalf of Euroclear, CBF and CBL, investors will have to rely on their procedures for transfer, payment and communication with the Issuer. In most cases, the Notes will be represented by one or more Global Notes and will be deposited with a Clearing System. Investors will not be entitled to receive definitive notes. The Clearing System will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through the Clearing System and the Issuer will discharge its payment obligations under the Notes by making payments to the Clearing System for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of the Clearing System to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of beneficial interests in the Global Notes.

34. *Reduced yield caused by transaction costs and depositary fees.*

When Notes are purchased held or sold, several types of transactions cost (fees, commissions, depositary fees) and follow-up costs may occur / charged by intermediaries and the depositary bank, which may reduce the all-in-all yield significantly or even exclude the profit of the Notes.

Transaction costs reduce the yield an investor will realize on the investment in the Notes. When Notes are purchased, several types of incidental costs (including transaction fees and commissions) are incurred and will have to be paid by the buyer in addition to the then current market price. Similarly, when a Holder sells any Notes, such incidental costs will reduce the actual price the Holder will receive for each Note sold. These incidental costs may significantly reduce or even exclude the profit potential of an investment in the Notes and, therefore, just burden costs. For instance, credit institutions as a rule charge their clients commissions which are either fixed minimum commissions or pro-rata commissions depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic Managers or brokers in foreign markets, Holders must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

35. *Margin lending.*

Margin lending, where it is permitted, can materially increase the risk to a Holder of non-performance of the Notes. If a loan is used to finance the acquisition of the Notes and the Notes subsequently go into default, or if the trading price diminishes significantly, the Holder not only has to face a potential loss on its investment, but it will also still have to repay the loan and pay distribution thereon. This may significantly increase the risk of a loss. Investors should not assume that they will be able to repay the loan or pay distribution thereon from the profits of a transaction. Instead, investors should assess their financial situation prior to an investment, as to whether they are able to pay distribution on the loan, or to repay the loan on demand, even if they face losses on such investment.

36. Risk of potential conflicts of interest.

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions and may perform services for the Issuer and its affiliates in the ordinary course of business.

37. Change of law.

The Final Terms/Terms and Conditions of the Notes are governed by, and construed in accordance with, German law except for certain provisions relating to Subordinated Notes, Covered Bank Bonds and Eligible Notes, which are governed by Austrian law as specified in the Terms and Conditions. Furthermore, certain provisions relating to Notes kept in custody by SIX SIS AG, Olten, Switzerland ("**SIX SIS AG**"), which will be governed by the laws of Switzerland. There can be no assurance given as to the impact of any possible change to German or Austrian or Swiss law or any European laws having direct application in Germany and/or Austria and/or Switzerland. Such changes in law may include, but are not limited to, the introduction of a new regime enabling the Competent Authority/ies in Austria to cause investors in the Notes to share in the losses of the Issuer under certain circumstances.

38. Tax impact of the investment.

An effective yield on the Notes may be diminished by the tax impact on an investment in the Notes. Interest payments on Notes, or profits realised by the Holder upon the sale or repayment of the Notes, may be subject to taxation in the Holder's state of residence or in other jurisdictions in which the Holder is subject to tax. The tax impact on Holders generally in Germany, Austria, the Czech Republic, the Slovak Republic, Poland, Hungary, Romania and Luxembourg is described in the section "*Taxation*" below; however, the tax impact on an individual Holder may differ from the situation described for Holders generally.

All investors are advised to contact their own tax advisors for advice on the tax impact of an investment in the Notes.

38.1 Proposed EU Financial Transaction Tax.

On 14 February 2013, the European Commission adopted a proposal for a Council Directive (the "**Draft Directive**") implementing enhanced cooperation in the area of financial transaction tax ("**FTT**"). According to the Draft Directive, the FTT shall be implemented in eleven EU Member States (Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Spain, the Slovak Republic and Slovenia; the "**Participating Member States**"). However, Estonia has since stated that it will not participate.

Pursuant to the Draft Directive, the Participating Members shall charge an FTT on financial transactions as defined if at least one party to the transaction is established in the territory of a Participating Member State and a financial institution established in the territory of a Participating Member State is party to the transaction, acting either for its own account or for the account of another person, or is acting in the name of a party to the transaction (residency principle). In addition, the Draft Directive contains rules pursuant to which a financial institution and, respectively, a person which is not a financial institution are deemed to be established in the territory of a Participating Member State if they are parties to a financial transaction in certain instruments issued within the territory of that Participating Member State (issuance principle). Among others, FTT shall however not be payable on primary market transactions referred to in Article 5 (c) of Regulation (EC) No 1287/2006, including the activity of underwriting and subsequent allocation of financial instruments in the framework of their issue.

According to a publication by the Council of the European Union dated 8 December 2015, shares and derivatives shall be taxed initially. All Participating Member States except for Estonia have agreed on main features of the tax base, but not on the respective tax rates.

It is unclear whether an FTT will be introduced at all. The FTT as proposed by the European Commission has a very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. In any case, the FTT remains subject to negotiations among the Participating Member States and was (and most probably still will be) the subject of legal challenge. It may therefore be altered prior to its adoption, the timing of which remains unclear. Moreover, the FTT will need to be implemented into the respective domestic laws of the Participating Member States and the domestic provisions implementing the FTT might deviate from the Draft Directive or any other proposal for a FTT itself. Finally, additional EU Member States may decide to participate and/or Participating Member States may decide to discard the Draft Directive. Prospective Holders of the Notes should consult their own tax advisers in relation to the consequences of the FTT associated with subscribing, purchasing, holding and disposing the Notes.

38.2 Payments on the Notes may be subject to U.S. withholding tax under FATCA.

In certain circumstances payments made on or with respect to the Notes after 31 December 2018 may be subject to U.S. withholding tax under Sections 1471 through 1474 of the U.S. Internal Revenue Code (commonly referred to as FATCA) or similar law implementing an intergovernmental approach to FATCA. This withholding tax does not apply to payments on Notes that are issued prior to the date that is six months after the date on which the final regulations that define "foreign passthru payments" are published in the Federal register (the "**Grandfather Date**") unless: (x) such Notes are "materially modified" after that date, (y) such Notes are characterised as equity for U.S. federal income tax purposes, pursuant to FATCA or similar law implementing an intergovernmental approach to FATCA or (z) the Issuer issues further Notes on or after the Grandfather Date that form part of the same series as the existing Notes, other than pursuant to a "qualified reopening" for U.S. tax purposes. Final regulations that define "foreign passthru payments" have not yet been published in the Federal register.

FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA), and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligations under the Notes are discharged once it has paid the common depositary or common safekeeper for the ICSDs (as bearer of the Notes) and the Issuer has therefore no responsibility for any amount thereafter transmitted through hands of the ICSDs and custodians or intermediaries.

On 29 April 2014, Austria concluded an intergovernmental agreement (Model 2) with the United States in order to facilitate the implementation of FATCA for Austrian financial institutions (i.e. custodians, depositories, investment entities or specific insurance companies) and to allow the provision of certain information on accounts held by "U.S. Persons" to the U.S. Internal Revenue Service (IRS). "U.S. Persons" are considered U.S. citizens or resident individuals, partnerships or corporations organised in the United States or under the laws of the United States or any State thereof, certain trusts (subject to the jurisdiction of a court within the United States with one or more U.S. persons having the authority to control all substantial decisions of the trust) and an estate of a

decendent that is a citizen or resident of the United States. If the respective U.S. account holder does not allow the financial institution to forward account specific information to the IRS, the financial institution is still obliged to forward aggregated information on the account to the IRS and such information may serve as basis for group requests by the IRS to the Austrian tax administration in order to obtain more specific information on such accounts.

It is to note that there is currently no guidance on the impact of FATCA and the intergovernmental agreement on Austrian financial institutions and their reporting and withholding responsibilities. In particular, as mentioned above, it is not yet certain how the United States and Austria will implement withholding on "foreign passthru payments" (which may include payments on the Notes) or if such withholding will be required at all.

If withholding is required under FATCA, the Issuer will not be required to pay any additional amounts with respect to the withheld amounts.

39. *Specific Risks in connection with Subordinated Notes.*

39.1 Obligations under Subordinated Notes will only be fulfilled after all non-subordinated claims of creditors have been satisfied.

In the event of the Issuer's liquidation or insolvency, the Issuer's obligations under the Subordinated Notes will be wholly subordinated to the claims of all unsubordinated creditors of the Issuer so that in any such event no amounts will be payable under such obligations until the claims of all unsubordinated creditors of the Issuer will have been satisfied in full. If this occurs, the Issuer may not have enough assets remaining after such payments to pay amounts due under the relevant Subordinated Notes and the Holder of such Subordinated Notes could lose all or some of his investment. No Holder may set off any claims arising under the Subordinated Notes against any claims that the Issuer may have against the Holder.

39.2 The Holders of Subordinated Notes are exposed to the risk that RBI may issue subordinated debt instruments or incur subordinated liabilities which are senior to the Subordinated Notes.

Holders of Subordinated Notes are exposed to the risk of subordination not only in respect of unsubordinated obligations of RBI (including, without limitation, Senior Notes, ordinary senior and non-preferred senior Eligible Notes or Covered Bank Bonds). This could in particular apply in connection with bail-in instruments which RBI would have to issue under the SRM for MREL purposes.

In the event of an insolvency of the Issuer, no amounts will be payable under Subordinated Notes until the claims of any and all such subordinated creditors of the Issuer ranking senior to Subordinated Notes will have been satisfied in full. Similarly, where the resolution authority applied the bail-in tool, Subordinated Notes would be subject to write down or conversion prior to such other subordinated creditors of the Issuer ranking senior to Subordinated Notes, in accordance with the statutory sequence of write-down and conversion (see also the risk factor "4. *The Notes may be subject to write-down or conversion powers exercised by a resolution authority resulting in (i) the amount outstanding to be reduced, including to zero; (ii) a conversion into ordinary shares or other instruments of ownership or (iii) the terms of the Notes being varied (statutory loss absorption)*").

39.3 Subordinated Notes are not covered by any (statutory or voluntary) protection scheme.

The Subordinated Notes are not covered by the statutory protection scheme as provided pursuant to the ESAEG for certain deposits. In addition, no voluntary deposit guarantee scheme exists for Subordinated Notes. In the event of the insolvency of RBI, investors of Subordinated Notes therefore cannot rely on any (statutory or voluntary) protection scheme to compensate them for the loss of capital invested in the Subordinated Notes and might lose their entire investment.

39.4 Subordinated Notes do not give the right to accelerate future payments.

The Terms and Conditions of the Subordinated Notes do not give the Holder the right to accelerate the future scheduled payment of interest or principal. Claims of RBI are not permitted to be offset against payment obligations of RBI under the Subordinated Notes which are not, and may not become secured or subject to a guarantee or any other arrangement that enhances the seniority of the claim.

39.5 Subordinated Notes may not be early redeemed at the option of the Holders, and any rights of RBI to early redeem or repurchase Subordinated Notes are subject to the prior permission of the Competent Authority.

The Holders of the Subordinated Notes will have no rights to call for the early redemption of their Subordinated Notes and should not invest in the Subordinated Notes in the expectation that any early redemption right will be exercised by RBI. RBI may, at its sole discretion, early redeem the Subordinated Notes at any time either for tax or regulatory reasons at the Early Redemption Amount plus interest accrued until the date fixed for redemption. In addition, if such right is foreseen in the Terms and Conditions, RBI may at its sole discretion redeem the Subordinated Notes before their stated maturity, but not before five years after the date of their issuance, on a specified Call Redemption Date at the applicable Call Redemption Amount plus accrued interest.

Any early redemption and any repurchase of the Subordinated Notes is subject to the prior permission of the Competent Authority pursuant to Article 4(1)(40) CRR which is responsible to supervise RBI and compliance with regulatory capital rules applicable from time to time to RBI. Under the CRR, the Competent Authority may only permit institutions to early redeem or repurchase Tier 2 instruments such as the Notes if certain conditions prescribed by the CRR are complied with. These conditions, as well as a number of other technical rules and standards relating to regulatory capital requirements applicable to RBI, should be taken into account by the Competent Authority in its assessment of whether or not to permit any early redemption or repurchase. It is uncertain how the Competent Authority will apply these criteria in practice and such rules and standards may change during the maturity of the Notes. It is therefore difficult to predict whether, and if so, on what terms, the Competent Authority will grant its prior permission for any early redemption or repurchase of the Notes.

Furthermore, even if RBI would be granted the prior permission of the Competent Authority, any decision by RBI as to whether it will early redeem the Subordinated Notes will be made at the absolute discretion of RBI with regard to external factors such as the economic and market impact of exercising an early redemption right, regulatory capital requirements and prevailing market conditions. RBI disclaims, and investors should therefore not expect, that RBI will exercise any early redemption right in relation to the Subordinated Notes.

Notwithstanding if RBI exercises an early redemption right in relation to Subordinated Notes with the prior permission of the Competent Authority Holders of Subordinated Notes are exposed to the risk that due to such early redemption their investments may a different than expected yield and maturity.

Holders of the Subordinated Notes should therefore be aware that they may be required to bear the financial risks of an investment in the Subordinated Notes until their final maturity.

39.6 Specific risks in relation to the secondary market of Subordinated Notes; Market making for RBI's own Subordinated Notes requires the prior permission of the Competent Authority and is subject to certain conditions and thresholds.

Subordinated Notes may be only repurchased subject to regulatory conditions, such as in particular the prior permission of the Competent Authority.

These restrictions impair RBI's market making capacities. Where the Competent Authority does not grant the prior permission for market making, such restrictions may have a negative impact on the

liquidity of the Subordinated Notes and may lead to inadequate or delayed market prices for the Subordinated Notes.

40. Additional Risks in connection with Eligible Notes.

40.1 The qualification of the Eligible Notes as instruments eligible for MREL purposes is subject to uncertainty.

Eligible Notes are intended to be instruments eligible for MREL purposes under the BaSAG. However, there is uncertainty regarding the final substance of applicable regulation and on how such regulation, once enacted, is to be interpreted and applied and the Issuer cannot provide any assurance that Eligible Notes will be (or thereafter remain) instruments eligible for MREL purposes.

Currently, no European laws or regulations have been adopted to align MREL with the TLAC concept, but there are proposals in order to integrate the TLAC standards into the existing MREL requirements (see also the risk factor "*18. New governmental or regulatory requirements and changes in perceived levels of adequate capitalisation and leverage could lead to increased capital requirements and reduced profitability for RBI (Regulatory) Group.*"). While the Terms and Conditions of Eligible Notes are intended to be consistent with these proposals, these proposals have not yet been interpreted and when finally adopted, applicable regulation in this respect may be different from regulation set forth in these proposals.

Because of the uncertainty surrounding the substance of final regulation on MREL eligibility, the Issuer cannot provide any assurance that the Eligible Notes will ultimately be instruments eligible for MREL purposes. If for any reasons they are not instruments eligible for MREL purposes or if they initially are instruments eligible for MREL purposes and subsequently become ineligible, then the Issuer may be required to issue other capital instruments or Eligible Notes to fulfil its MREL (see also the risk factor "*The Issuer may not be able to meet the minimum requirement for own funds and Eligible Notes.*") and the Eligible Notes may be redeemed by the Issuer, in accordance with the Terms and Conditions of the Eligible Notes and applicable regulation (see also the risk factor "*35.3 Eligible Notes may be redeemed prior to maturity for tax or regulatory reasons.*").

40.2 Claims of Holders of non-preferred senior Eligible Notes will be junior to the claims of holders of certain other senior claims.

Holders of non-preferred senior Eligible Notes should bear in mind that in case of insolvency proceedings opened in relation to the Issuer and in any comparable proceedings (such as resolution proceedings pursuant to the SRM) their claims will, in accordance with the terms of such Notes, be junior to the claims of Holders of Senior Notes, ordinary senior Eligible Notes and any other senior claims without non-preferred senior status (including senior claims preferred by law).

Thus, no amounts will be payable under non-preferred senior Eligible Notes until the claims ranking senior to such Notes will have been satisfied in full. If this occurs, the Issuer may not have enough assets remaining after such payments to pay amounts due under the relevant non-preferred senior Eligible Notes and the Holders of such Notes could lose all or some of their investment.

40.3 Eligible Notes may be redeemed prior to maturity for tax or regulatory reasons.

The Issuer may, at its option, redeem Eligible Notes in whole, but not in part, at any time at their Early Redemption Amount, together with interest (if any) accrued to the date fixed for redemption (exclusive), if there is a change in the applicable tax treatment of the Eligible Notes, or if there is a change in the regulatory classification of the Eligible Notes that would be likely to result or has resulted in their exclusion in full or in part from liabilities eligible for MREL purposes pursuant to BaSAG on an unlimited and uncapped basis and in each case if the conditions for redemption and repurchase are met.

The early redemption of Notes which qualify as Eligible Liabilities may be subject in the future to the prior permission of the Competent Authority and/or the Resolution Authority. The proposals for a regulation amending CRR (intended to be reflected under the Terms and Conditions of the Eligible Notes) provide that the redemption of Eligible Liabilities prior to the date of their contractual maturity is subject to the prior permission of the Competent Authority and/or the Resolution Authority—in accordance with the relevant terms of the CRR, if and to the extent such prior permission is required at this time.

Notwithstanding the above conditions, if, at the time of any early redemption or repurchase, the prevailing supervisory regulations applicable to the Issuer permit the early redemption or repurchase only after compliance with one or more alternative or additional pre-conditions to those set out in the first paragraph above, the Issuer shall comply with such other and/or, as appropriate, additional pre-conditions, if any.

It is not possible to predict whether or not Eligible Notes will qualify as instruments eligible for MREL purposes (see the risk factor "*35.1 The qualification of the Eligible Notes as instruments eligible for MREL purposes is subject to uncertainty.*") or if any further change in the laws or regulations of Austria or the European Union will occur and so lead to the circumstances in which the Issuer is able to elect to redeem the Eligible Notes, and, if so, whether or not the Issuer will elect to exercise such option to redeem the Eligible Notes or any prior consent of the Competent Authority and/or the resolution authority, if required, will be given. The Issuer may be expected to redeem Eligible Notes on this basis, when its cost of borrowing is lower than the interest rate on the Eligible Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Eligible Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time. Early redemption features are also likely to limit the market price of the Eligible Notes. During any period when the Issuer can redeem the Eligible Notes, the market price of the Eligible Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period if the market believes that the Eligible Notes may become eligible for redemption in the near term.

40.4 Eligible Notes do not give right to accelerate future payments.

Holders have no ability to accelerate the maturity of their Eligible Notes. The Terms and Conditions of the Eligible Notes do not provide for any events of default or right to demand for repayment, except that each Holder shall be entitled, if insolvency proceedings are commenced against assets of the Issuer, to file an application in such court demanding payment of all principal amounts due under the Eligible Notes together with accrued interest and any additional amounts payable under the Terms and Conditions of the Eligible Notes.

Claims of RBI are not permitted to be offset against payment obligations of RBI under the Eligible Notes which are not, and may not become secured or subject to a guarantee or any other arrangement that enhances the seniority of the claims under the Eligible Notes.

40.5 Debt instruments with 'non-preferred' senior ranking are new types of instruments for which there is no trading history.

As of the date of this Prospectus, the Issuer is not aware of any public offer / issuance of any benchmark "non-preferred" senior debt instruments by an Austrian credit institution. Accordingly, there is no trading history for instruments issued by Austrian credit institutions with this ranking. Market participants, including credit rating agencies, are in the initial stages of evaluating the risks associated with "non-preferred" senior debt instruments. The credit ratings assigned to "non-preferred" senior debt instruments such as the Eligible Notes with "non-preferred" senior ranking may change as the credit rating agencies refine their approaches, and the value of such securities may be particularly volatile as the market becomes more familiar with them. It is possible that, over time, the credit ratings and value of "non-preferred" senior debt instruments such as the Eligible Notes with "non-preferred" senior ranking will be lower than those expected by investors at the time of issuance

of such debt instrument. If so, Holders may incur losses in respect of their investments in Eligible Notes with "non-preferred" senior ranking.

41. Specific risks for Notes denominated in Renminbi.

41.1 Renminbi is not completely freely convertible and there are significant restrictions on the remittance of the Renminbi into and outside the People's Republic of China which may adversely affect the liquidity of Renminbi Notes.

Renminbi (the "**RMB**" or "**CNY**") is not completely freely convertible at present. This may adversely affect the liquidity of Notes denominated in Renminbi (the "**Renminbi Notes**"). The availability of RMB funds for servicing the Notes may be subject to future limitations imposed by the People's Republic of China (the "**PRC**") government.

The PRC government continues to regulate conversion between RMB and foreign currencies, including the Euro, despite the significant reduction over the years by the PRC government of control over routine foreign exchange transactions under current accounts. However, remittance of RMB by foreign investors into the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of RMB into the PRC for settlement of capital account items are developing gradually.

Although since 1 October 2016 RMB has been included in the basket of currencies that make up the Special Drawing Rights (SDR) created by the International Monetary Fund (IMF), there is no assurance that the PRC government will continue to gradually liberalise a control over cross-border RMB remittances in the future, that the schemes for RMB cross-border utilization will not be discontinued or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of RMB into or out of the PRC. Investors may be required to provide certifications and other information (including CNY account information) in order to be allowed to receive payments in CNY in accordance with the CNY clearing and settlement system for participating banks in Hong Kong. In the event that funds cannot be repatriated out of the PRC in RMB, this may affect the overall availability of RMB outside the PRC and the ability of the Issuer to source RMB to perform its obligations under Notes denominated in RMB.

41.2 There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of the Notes and the Issuer's ability to source Renminbi outside the PRC to service the Notes.

As a result of the restrictions by the PRC government on cross-border RMB fund flows, the availability of RMB outside of the PRC is limited. Currently, licensed banks in Singapore and Hong Kong may offer limited RMB -denominated banking services to Singapore residents, Hong Kong residents and specified business customers. The People's Bank of China, the central bank of the PRC (the "**PBOC**") has entered into agreements on the clearing of RMB business with financial institutions in a number of financial centers and cities (each a "**RMB Clearing Bank**"), which will act as the RMB clearing bank in the applicable RMB Settlement Centre, and is in the process of establishing RMB clearing and settlement mechanisms in several other jurisdictions (the "**Settlement Arrangements**").

However, the current size of RMB -denominated financial assets outside the PRC is limited. There are restrictions imposed by the PBOC on RMB business participating banks in respect of cross-border RMB settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, RMB business participating banks do not have direct RMB liquidity support from the PBOC. The relevant RMB Clearing Bank only has access to onshore liquidity support from the PBOC for the purpose of squaring open positions of participating banks for limited types of transactions, including open positions as a result of conversion services for corporations relating to cross-border trade settlement. The relevant RMB Clearing Bank is not obliged to square for participating banks any open

positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source RMB from outside the PRC to square such open positions.

Although it is expected that the offshore RMB market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Agreements will not be terminated or amended in the future which will have the effect of restricting availability of RMB offshore. The limited availability of RMB outside the PRC may affect the liquidity of the Issuer's RMB Notes. To the extent the Issuer is required to source RMB in the offshore market to service its RMB Notes, there is no assurance that the Issuer will be able to source such RMB on satisfactory terms, if at all.

If the Issuer cannot obtain RMB to satisfy its obligation to pay interest and principal on its RMB Notes as a result of Inconvertibility, Non-transferability or Illiquidity (each, as defined in "~~§ 5 [(4)][(5)]~~ Payment of U.S. Dollar Equivalent." in the Terms and Conditions of the Notes), the Issuer shall be entitled to settle such payment (in whole or in part) in U.S. Dollars at the USD Equivalent (outas defined in "~~§ 5 [(4)][(5)]~~ Payment of U.S. Dollar Equivalent." in the Terms and Conditions of the Notes).

41.3 Investments in Renminbi Notes are subject to RMB exchange rate risks.

The value of the RMB against the Euro and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions and by many other factors. Recently, the PBOC implemented changes to the way it calculates the RMB's daily mid-point against the U.S. Dollar to take into account market-maker quotes before announcing such daily mid-point. This change, and others that may be implemented, may increase the volatility in the value of the RMB against foreign currencies. All payments of interest and principal will be made with respect to the RMB Notes in RMB. As a result, the value of these RMB payments in Euro or other applicable foreign currency terms may vary with the prevailing exchange rates in the marketplace. If the value of RMB depreciates against the Euro or any other foreign currencies, the value of investment in the Euro or other applicable foreign currency terms will decline.

41.4 Investments in the RMB Notes are subject to currency risks.

If the Issuer is not able, or it is impracticable for it, to satisfy its obligation to pay interest and principal on the RMB Notes when due, in whole or in part, in Renminbi in the relevant RMB Settlement Centre as a result of Inconvertibility, Non transferability or Illiquidity (each, as defined in "~~§ 5 [(4)][(5)]~~ Payment of U.S. Dollar Equivalent." in the Terms and Conditions of the Notes), the Issuer shall be entitled, to settle any such payment, in whole or in part, in U.S. dollars on the due date at the USD Equivalent (as provided for in more detail in the Terms and Conditions of the Notes) of any such interest or principal amount otherwise payable in Renminbi, as the case may be.

41.5 Investment in the Notes is subject to interest rate risks.

The PRC government has gradually liberalised the regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. If the Notes carry a fixed interest rate, the market price of the Notes may vary with the fluctuations in the RMB interest rates. If an investor sells the Notes before their maturity, it may receive an offer that is less than the original amount invested.

41.6 Payments in respect of the Notes will only be made to investors in the manner specified in the Notes.

All payments to holders of interests in respect of the Notes will be made solely by transfer to a RMB bank account maintained in Hong Kong, in accordance with prevailing rules and procedures of the relevant Clearing System. Neither the Issuer nor the Fiscal Agent, nor the Paying Agent can be required to make payment by any other means (including in bank notes, by cheque or draft, or by transfer to a bank account in the PRC).

42. In respect of any Notes issued with a specific use of proceeds, such as a Green Bond or Social Bond, there can be no assurance that such use of proceeds will be suitable for the investment criteria of an investor.

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer's intention to apply the proceeds from an offer of those Notes specifically for projects and activities that promote climate-friendly and other environmental purposes or social purposes ("**ESG Projects**"). Prospective investors should have regard to the information set out in the relevant Final Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular no assurance is given by the Issuer that the use of such proceeds for any ESG Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any ESG Projects. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green" or "sustainable" or "social" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green" or "sustainable" or "social" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any ESG Projects will meet any or all investor expectations regarding such "green", "sustainable" or "social" or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any ESG Projects. Also the criteria for what constitutes an ESG Project may be changed from time to time.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes and in particular with any ESG Projects to fulfil any environmental, sustainability, social and/or other criteria. Any such opinion may not address risks that may affect the value of Notes or any project. For the avoidance of doubt, any such opinion or certification is not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Notes. Any such opinion or certification is only current as of the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight.

In the event that any such Notes are listed or admitted to trading on any dedicated "green" "environmental", "sustainable" or "social" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any ESG Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

While it is the intention of the Issuer to apply the proceeds of any Notes so specified for ESG Projects in, or substantially in, the manner described in the relevant Final Terms, there can be no assurance that the relevant project(s) or use(s) the subject of, or related to, any ESG Projects will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such ESG Projects. Nor can there be any assurance that such ESG Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Notes. Also any failure by the Issuer to provide any reporting or obtain any opinion will not constitute an Event of Default under the Notes.

Any such event or failure to apply the proceeds of any issue of Notes for any ESG Projects as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance ESG Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

DESCRIPTION OF THE ISSUER

1. INFORMATION ABOUT THE ISSUER

1.1. Corporate history and development of the Issuer

Raiffeisen Bank International AG ("**RBI**") was established in 1991 under the name of DOIRE Handels- und Beteiligungsgesellschaft mbH as a holding company for bundling investments and interests in CEE by Raiffeisen Zentralbank Österreich Aktiengesellschaft ("**RZB**"), which was founded 1927, originally under the name "Girozentrale der österreichischen Genossenschaften". The holding company was renamed several times and operated under the name of "Raiffeisen International Bank-Holding AG" ("**RI**") from 2003 until 2010, when its name was ultimately changed to Raiffeisen Bank International AG. RBI's initial public offering and stock exchange listing on the Vienna Stock Exchange occurred in 2005, secondary public offerings took place in 2007 and 2014.

In 2010, major parts of RZB's banking business were spun-off and merged with RI (the "**Merger 2010**"). As a consequence of the Merger 2010 the commercial banking business and associated equity participations of RZB were transferred to RI. With effective date of the Merger 2010, RI changed its name to Raiffeisen Bank International AG and took over RZB's Austrian credit institution license pursuant to the Austrian Banking Act (*Bankwesengesetz* – "**BWG**").

In March 2017, RBI merged with its parent company RZB (the "**Merger 2017**"). RBI was the absorbing institution and therefore legal successor of RZB. Due to the Merger 2017, RBI became the central institution of the Raiffeisen Regional Banks and holder of the liquidity reserve (according to BWG, in particular § 27a BWG). Therefore, RBI acts as central liquidity clearing unit of the Raiffeisen Regional Banks. RBI's shares continue to be listed on the Vienna Stock Exchange after the Merger 2017.

The Issuer is authorised to acquire real estate, to establish branches and subsidiaries in Austria and elsewhere, and to acquire shareholdings in other companies. Moreover, the Issuer is entitled to engage in any and all transactions and to take all measures which are deemed necessary or expedient for the fulfilment of the Issuer's purposes, including without limitation in areas that are similar or related to such purposes.

1.1.3. Statutory auditors

RBI's auditor is KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft, Porzellangasse 51, 1090 Vienna, Austria ("**KPMG**"), a member of the Austrian Chamber of Auditors (Kammer der Wirtschaftstreuhänder). KPMG audited RBI's German language consolidated financial statements for the years ending as of 31 December 2016 and 2017 in accordance with Austrian generally accepted auditing standards, which require KPMG to comply with the international standards on auditing as published by the international federation of accountants and issued its unqualified audit opinions on 28 February 2017 and on 27 February 2018, respectively.

Furthermore, KPMG reviewed RBI's German language interim consolidated financial statements for the first half year 2018 ending 30 June 2018 in accordance with KFS/PG 11 "principles of engagements to review financial statements" and with the international standard on review engagements (ISRE 2410) "review of interim financial information performed by the independent auditor of the entity" and issued its review report dated 3 August 2018.

For information purposes only: KPMG has also audited the German language consolidated financial statements of RZB (which has been merged in the meantime with the Issuer as of 18 March 2017) as of 31 December 2016 in accordance with Austrian generally accepted auditing standards, which require KPMG to comply with the international standards on auditing as published by the international federation of accountants, and issued an unqualified auditor's report (Bestätigungsvermerk) on 1 March 2017 thereon.

2. BUSINESS OVERVIEW

2.1. Principle areas of activity

The RBI Group is a universal banking group offering banking and financial products as well as services to retail and corporate customers, financial institutions and public sector entities predominantly in or with a connection to Austria and CEE. In CEE, RBI operates through its Network Banks, leasing companies and numerous specialized financial service providers. RBI Group's products and services include loans, deposits, payment and account services, credit and debit cards, leasing and factoring, asset management, distribution of insurance products, export and project financing, cash management, foreign exchange and fixed income products as well as investment banking services. RBI's specialist institutions provide Raiffeisen Banks and Raiffeisen Regional Banks with retail products for distribution.

2.2. Strategy

RBI's business activities comprise the corporate customer business, financial services for retail customers in CEE and business with banks and other institutional clients. Ongoing changes and challenges in the business environment in which financial institutions operate – particularly tighter regulatory requirements, bank-specific taxes and politically motivated market interventions, the persistently low interest rate environment, new technological challenges and competitors – demand flexibility in adjusting structures and business models. In order to meet these challenges, RBI implemented a transformation program; following the merger of RBI and RZB, the strategic focus is on growth in the most promising markets for the years ahead. To this end, RBI will continue to concentrate on the CEE region, which offers in the view of RBI's management structurally higher growth rates than Western Europe and therefore more attractive levels of interest rates and returns. The Merger 2017 also enlarged RBI's business portfolio by the addition of leading specialist institutions in Austria notably the building society, asset management company and pension fund management company, RBI benefits at the same time from the stability of the Austrian business areas.

RBI's business model is based on the following core competencies:

- RBI maintains and develops a strong and reliable brand that serves as the basis for its business model.
- RBI provides all retail customer segments with comprehensive financial services through the customers' respective preferred sales and communication channel.
- RBI is a reliable business partner for corporate and institutional clients that have a link to the target region, and offers financial services of an international standard.
- RBI distinguishes itself through its strong local presence, customer focus and long-term business relationships.
- RBI utilizes the strengths of country-specific business strategies combined with central business management standards.

This business model is used as a basis by RBI in the provision of services to about 16.4 million retail and private banking customers as well as small enterprises, roughly 90,000 corporate clients (medium-sized businesses, major local companies and international corporations) and approximately 9,000 institutional clients (banks, insurance companies, asset managers, sovereigns and public-sector organizations). RBI aims to provide its customers comprehensive financial services to meet their needs and in this way build long-term business partnerships. RBI implements this strategy through the provision of advisory services and innovative solutions.

Retail customers can benefit, for example, from video and telephone advisory services, as well as internet and mobile banking solutions. By means of these sales and support channels – alongside around 2,400 business outlets – RBI offers its customers a product range (e.g. current account packages, payment transfer services, consumer financing and mortgage loans) from which they can select the products that fit their needs.

For corporate and institutional clients, key emphasis is placed on group-wide sales and management tools with a focus on capital- and liquidity-efficient products (particularly trade finance, capital market products and hedging of currency, interest rate and credit risks, as well as payment transfer business). At the same time, group-wide product competence centres not only enhance efficiency through the pooling of know-how, but also facilitate customer access to complex financing products (e.g. in the areas of project, real estate and export financing).

Sale of Raiffeisen Bank Polska S.A. and establishment of a branch of RBI in Poland

When Polbank was acquired by RBI and merged into the existing Polish subsidiary of RBI, RBI had entered into a commitment towards the Polish regulator to launch an initial public offering ("IPO") with a free float of 15 per cent. of the shares of Raiffeisen Bank Polska S.A. ("RBPL") to be listed on

the Warsaw Stock Exchange. Later, it was agreed that such commitment could alternatively be fulfilled through a sale of a majority stake in RBPL's core banking operations.

On 10 April 2018, RBI entered into an agreement to sell the core banking operations of RBPL by way of demerger to Bank BGZ BNP Paribas S.A., a subsidiary of BNP Paribas S.A..

The sales price is approximately EUR 775 million, equating to a preliminary price/tangible book value multiple of around 0.95 times. This is based on the tangible book value of the core banking operations of approximately EUR 815 million as of 31 December 2017 and is subject to closing accounts. The direct impact of the sale on the RBI Group's consolidated profit is expected to be around minus EUR 120 million, excluding any potential effects from deconsolidation.

Under the terms of the agreement with the buyer, total assets of approximately EUR 9.5 billion and total risk-weighted assets of approximately EUR 5.0 billion as of 31 December 2017 have been allocated to the core banking operations.

RBI intends to transfer the remaining Raiffeisen Bank Polska S.A. operations, mainly comprising the foreign currency retail mortgage loan portfolio, to a Polish branch of RBI which is to be established. Total assets of approximately EUR 3.5 billion and total risk-weighted assets of approximately EUR 5.0 billion as of 31 December 2017 have been allocated to the retained operations.

The transaction is expected to close in the fourth quarter of 2018.

2.3. Significant new products and services

Currently no significant new products and services are being introduced.

2.4. Principle markets and business segments

Segment reporting at RBI Group is based on the current organizational structure pursuant to IFRS 8. A cash generating unit within RBI Group is either a country or a business activity. Markets in CEE are thereby grouped into regional segments comprising countries with comparable economic profiles and similar long-term economic growth expectations. This results in the following segments:

- ***Central Europe***
(Czech Republic, Hungary, Poland, Slovakia and Slovenia)

RBI's segment Central Europe comprises the Czech Republic, Hungary, Poland, Slovakia and Slovenia. In each of these countries, RBI is represented by a credit institution (except Slovenia), leasing companies (except Poland) and other specialised financial institutions.

- ***Southeastern Europe***
(Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Kosovo, Romania, Serbia)

The segment Southeastern Europe includes Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Kosovo, Romania and Serbia. Within these countries, RBI is represented by credit institutions, leasing companies, as well as, in some markets, by separate capital management and asset management companies and pension funds. Moldova, where RBI only owns a leasing company, is managed out of the Romanian subsidiary. Consequently and due to its close economic ties to Romania, Moldova is reported as part thereof.

- ***Eastern Europe***
(Belarus, Russia and Ukraine)

The Eastern Europe segment comprises Belarus, Russia and Ukraine. The Network Bank in Russia is one of the largest foreign credit institutions in Russia. RBI also offers leasing products to its Russian clients through a leasing company. In Belarus and Ukraine RBI Group is represented by credit institutions, leasing companies and other financial service companies.

- **Group Corporates & Markets**
(*business with large Austrian and multinational corporate customers as well as financial institutions and sovereigns managed from Vienna; customer and proprietary capital markets related business managed from Vienna; Raiffeisen banking group Austria; business of Austrian subsidiaries which are financial institutions and specialised companies*)

The Group Corporates & Markets segment has been introduced for operative business booked in Austria. This primarily comprises financing business with Austrian and international corporate customers serviced from Vienna, Group Markets, Financial Institutions & Sovereigns, and business with entities of the Raiffeisen banking group Austria. Also included in the segment are financial service providers and specialized companies such as Raiffeisen Centrobank AG ("**RCB**"), Kathrein Privatbank Aktiengesellschaft, Raiffeisen Bausparkasse Gesellschaft m.b.H., Raiffeisen-Leasing Ges.m.b.H., Raiffeisen Factor Bank AG and Raiffeisen Kapitalanlage-Gesellschaft mit beschränkter Haftung.

- **Corporate Center**
(*central management functions at RBI Group head office and other RBI Group units*)

The Corporate Center segment encompasses all the services as well as the oversight function provided by RBI Group headquarters in Vienna in various divisions to implement the overall strategy and that are allocated to this segment to ensure comparability. This segment also includes liquidity management, as well as RBI's equity participation management (including holdings) and minority interests (e.g. UNIQA Insurance Group AG, Leipnik-Lundenburger Invest Beteiligungs AG).

2.5. Capital requirements

Based on the Supervisory Review and Evaluation Process ("**SREP**") in 2017, RBI Regulatory Group received a Pillar 2 requirement of 2.25 per cent. and a Pillar 2 guidance of 1.00 per cent. with both to be fulfilled by Common Equity Tier 1 ("**CET 1**") from 1 January 2018. This is unchanged from the requirements imposed for 2017. RBI Regulatory Group's consolidated CET 1 ratio (transitional) requirement amounts to 9.72 per cent. for 30 June 2018. This is the sum of 4.5 per cent. Pillar 1 requirement plus 2.25 per cent. Pillar 2 requirement and 2.97 per cent. combined buffer requirement on a transitional basis. The combined buffer requirement of 2.97 per cent. is the sum of 1.875 per cent. capital conservation buffer plus 1.0 per cent. systemic risk buffer and 0.097 per cent. countercyclical buffer (derived from the variable requirements in the various countries) as of 30 June 2018. In 2019 the combined buffer requirement is expected to increase to approximately 4.6 per cent. CET 1 (assuming the capital conservation buffer and the systemic risk buffer to increase at the announced levels). A breach of the combined buffer requirement would induce constraints, for example in relation to dividend distributions and coupon payments on certain capital instruments. 2.6. Competitive position

RBI considers itself as a leading corporate bank in Austria and a leading universal credit institution in CEE.

3. ORGANISATIONAL STRUCTURE

3.1. RBI is part of the Raiffeisen banking group Austria

RBI's majority shareholders are jointly the Raiffeisen Regional Banks (*Raiffeisen-Landesbanken*), which directly and/or indirectly hold approximately 58.8 per cent. of RBI's shares as at 31 December 2017. Each of the Raiffeisen Regional Bank is in turn directly and/or indirectly held by the locally operating Raiffeisen Banks (as described below) in its respective federal province of Austria. RBI is the central institution of the Raiffeisen Regional Banks (according to BWG, in particular § 27a BWG), functioning, *inter alia*, as the central liquidity clearing unit of the Raiffeisen Regional Banks, whereas each of the Raiffeisen Regional Banks is the central institution of the

Raiffeisen Banks located in its respective Austrian federal province. RBI, Raiffeisen Regional Banks and Raiffeisen Banks, as well as most of their subsidiaries are jointly often referred to and commonly known as Raiffeisen banking group Austria (*Raiffeisen Bankengruppe Österreich*).

This group does not constitute a group of companies (*Konzern*) pursuant to § 15 of the Austrian Stock Corporation Act (*Aktiengesetz – "AktG"*) nor a credit institution group (*Kreditinstitutsgruppe*) pursuant to § 30 BWG nor a credit institution association (*Kreditinstitute-Verbund*) pursuant to § 30a BWG.

Simplified scheme of RBI's direct and indirect owners

(1) The Raiffeisen Banks are located in each of Austria's federal provinces, are mainly organised as co-operatives, act in their local environment as so-called universal credit institutions (*Universalkreditinstitute*). Each of the Raiffeisen Regional Banks is collectively owned by the Raiffeisen Banks in the respective federal province. For the avoidance of doubt, the Raiffeisen Banks neither belong to RBI Group nor the RBI Regulatory Group.

(2) The Raiffeisen Regional Banks are RAIFFEISEN LANDESBANK NIEDERÖSTERREICH-WIEN AG, Raiffeisen-Landesbank Steiermark AG, Raiffeisen Landesbank Oberösterreich Aktiengesellschaft, Raiffeisen Landesbank Tirol AG, Raiffeisenverband Salzburg eGen, Raiffeisenlandesbank Kärnten - Rechenzentrum und Revisionsverband regGenmbH, Raiffeisenlandesbank Burgenland und Revisionsverband regGenmbH, and Raiffeisenlandesbank Vorarlberg Waren- und Revisionsverband regGenmbH. They operate mainly at a regional level, render central services for the Raiffeisen Banks within their region and also operate as universal credit institutions. For the avoidance of doubt, the Raiffeisen Regional Banks neither belong to RBI Group nor the RBI Regulatory Group.

RBI is the ultimate parent company of RBI Group and pursuant to § 30 BWG also the superordinate credit institution (*übergeordnetes Kreditinstitut*) of the RBI credit institution group (*Kreditinstitutsgruppe*), which comprises all credit institutions, financial institutions, securities companies and enterprises offering banking related support services in which RBI holds an indirect or direct majority interest or exerts a controlling influence. The BWG requires RBI in its function as superordinate credit institution for the RBI credit institution group to control among other things risk management, accounting and control processes as well as the risk strategy for the entire RBI Group.

Due to disparities between certain regulatory and accounting provisions, RBI Group is not fully identical with RBI Regulatory Group. "**RBI Regulatory Group**" means, from time to time, any banking group: (i) to which the Issuer belongs; and (ii) to which the own funds requirements pursuant to Parts Two and Three of the CRR on a consolidated basis due to prudential consolidation in accordance with Part One, Title Two, Chapter Two of the CRR apply. For the avoidance of doubt, the Federal IPS is not such a banking group.

The term RBI Group therefore refers to the scope of consolidation in accordance with IFRS, while the RBI Regulatory Group refers to the scope of prudential consolidation of own funds which does not include all entities included in the RBI Group.

Like the Raiffeisen Banks and the Raiffeisen Regional Banks, RBI belongs to the Raiffeisen banking group Austria. Thus and due to its function as central institution of the Raiffeisen Regional Banks, RBI is a member of several joint institutions of the Raiffeisen banking group Austria, such as a statutory deposit guarantee scheme, a voluntary customer guarantee scheme and an IPS.

3.1.1. *Österreichischer Raiffeisenverband (Austrian Raiffeisen Association) and trademarks*

By virtue of RBIs membership in the Austrian Raiffeisen Association (*Österreichischer Raiffeisenverband* - "ÖRV"), RBI is entitled to use the name "Raiffeisen" and a logo element of the Raiffeisen organization, the so-called Gable Cross (*Giebelkreuz*). These are registered trademarks of the ÖRV. However, the "Raiffeisen Bank International" name and logo is a registered combined trademark of RBI in Austria, and the protection of the name and logo "Raiffeisen Bank International" has been expanded to all relevant countries where relevant units of RBI Group presently operate.

3.1.2. *Österreichische Raiffeisen-Einlagensicherung eGen / Einlagensicherung AUSTRIA Ges.m.b.H. (statutory deposit guarantee scheme)*

Pursuant to the Austrian Deposit Guarantee and Investor Protection Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz* – "ESAEG"), any credit institution which receives deposits or provides securities services requiring protection under applicable Austrian law must join the deposit guarantee and investor compensation scheme of its banking sector. RBI is a member of *Österreichische Raiffeisen-Einlagensicherung eGen* ("ÖRE"), the statutory deposit guarantor and investor compensator of the Raiffeisen banking group Austria. The amount of protected deposits with RBI is small and accordingly RBI's contributions to ÖRE are not substantial. As of 1 January 2019 the deposit guarantee and investor compensation scheme of four (among the five) Austrian banking sectors will be merged and Einlagensicherung AUSTRIA Ges.m.b.H. will take over these tasks from ÖRE.

3.1.3. *Raiffeisen-Kundengarantiegemeinschaft Österreich (voluntary customer guarantee scheme)*

In addition to the statutory deposit guarantee scheme, the nationwide voluntary Raiffeisen Customer Guarantee Scheme Austria (*Raiffeisen-Kundengarantiegemeinschaft Österreich*, "RKÖ") shall provide supplementary protection in the event of bankruptcy of a member institution. RKÖ consists of the provincial Raiffeisen customer guarantee associations open to each of the Austrian Raiffeisen Banks and Raiffeisen Regional Banks as well as RBI. About 82 per cent. of all Raiffeisen Banks are currently members of a customer guarantee association. RBI is also a member of RKÖ.

3.1.4. *Federal Institutional Protection Scheme*

RBI became a member of the Federal IPS and assumed from RZB all rights and obligations under the Federal IPS agreements of RZB in the course of the Merger 2017.

Hence, the Federal IPS currently consists of RBI, all Raiffeisen Regional Banks, Raiffeisen-Holding Niederösterreich Wien, Posojilnica Bank eGen, Raiffeisen Wohnbaubank Aktiengesellschaft and Raiffeisen Bausparkasse Gesellschaft m.b.H.

Pursuant to Article 113(7) CRR an Institutional Protection Scheme is required to ensure the solvency and liquidity of its members. Along with the Federal IPS, within the Raiffeisen banking group Austria

there are six Regional IPS formed by the respective Raiffeisen Regional Bank and its local Raiffeisen Banks as members. There are no Regional IPS in Salzburg and Carinthia. The Raiffeisen Regional Banks and Raiffeisen Banks situated in these federal provinces operate regional voluntary solidarity schemes instead. A Raiffeisen Regional Bank shall be supported in the first instance, by the Regional IPS or solidarity scheme, as the case may be; if support on regional level is insufficient, Federal IPS will step in. Support on regional level may be insufficient, in case support has been granted to local Raiffeisen Banks before.

All IPS of the Raiffeisen banking group Austria are based on and are constituted under civil law agreements. Each member of the Federal IPS may terminate its membership of the Federal IPS with two years' notice by the end of a calendar quarter. However, for a period of three years from the Merger 2017, the Issuer has waived its right to give notice of termination.

The Federal IPS is required by the regulator to set up an *ex ante* fund by contributions of its members. The Federal IPS fund's current target volume is EUR 592 million, to be reached by end of 2022. It is based on the result of an annual stress test or the minimum requirement of 0.5 per cent. of the aggregated RWA set by the regulator. The fund size was EUR 187 million as of 31 December 2016 and was increased to about EUR 262 million as of 31 December 2017. In 2017, contribution of RBI Group members was approximately EUR 46 million.

Under the Federal IPS agreements, ÖRE is mandated to keep the resources of the Federal IPS fund as a trustee and to operate the Federal IPS' risk assessment schemes.

Financial support to members may take various forms including guarantees, liquidity support, loans and/or equity subscriptions. Financial resources for such support are primarily taken from the *ex ante* fund. If necessary, additional resources will be provided by *ex post* contributions going up to 50 per cent. of the average operating income of a member of the last three business years, however limited by the preservation of the respective minimum regulatory capital requirements plus a 10 per cent. buffer. Additional contributions may be requested from members up to 25 per cent. of their remaining capital in excess of its minimum regulatory capital requirement (plus 10 per cent. buffer), if any. Further contributions may be made on a voluntary basis or if required by the regulator.

3.2. Dependencies from other entities within RBI Group

RBI is dependent from valuations of and dividends from its subsidiaries. RBI is further dependent from outsourced operations, in particular in the areas of back-office activities as well as IT.

4. TREND INFORMATION

4.1. Material adverse changes in the prospects of the Issuer since the date of its last published audited financial statements

There have been no material adverse changes in the prospects of RBI since 31 December 2017.

4.2. Information on any known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the Issuer's prospects for at least the current financial year

RBI has identified the following trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on its prospects for at least the current financial year:

- ***Continuing increase in governmental and regulatory requirements.*** Under the SSM, the ECB is given specific tasks related to financial stability and banking supervision, among others empowering the ECB to directly supervise significant banks such as RBI (both, on an individual level as well as on the consolidated level of RBI Regulatory Group). The ECB is, *inter alia*, empowered to require significant credit institutions to comply with additional individual own funds and liquidity adequacy requirements in particular as part of the supervisory review and evaluation process ("**SREP**") (which may exceed regular regulatory requirements) or take early correction measures to address potential problems. The new supervisory regime and the SSM's supervisory new procedures and practices are not yet fully established and/or disclosed and it is

expected that these will be subject to constant scrutiny, change and development. A further pillar of the Banking Union is the SRM which is meant to establish a uniform procedure for the resolution of credit institutions that are subject to the SSM. As a result of a resolution measure under the SRM, a creditor of RBI may already be exposed to the risk of losing part or all of the invested capital prior to the occurrence of insolvency or a liquidation of RBI. These developments may result in negative consequences and charges for RBI (Regulatory) Group and could have a material adverse effect on RBI Group's prospects. Furthermore, full implementation of the capital and liquidity requirements introduced by Basel III (as implemented by the CRD IV and CRR), as well as any stress tests that the ECB may conduct in its capacity as the European banking supervisor, could lead to even more stringent requirements being imposed on RBI and the RBI (Regulatory) Group with regard to capital adequacy and liquidity planning and this in turn may restrict RBI's margin and potential for growth. The implementation of multifaceted regulatory requirements will also put pressure on RBI in the years to come. (See the risk factor "*New governmental or regulatory requirements and changes in perceived levels of adequate capitalisation and leverage could lead to increased capital requirements and reduced profitability for RBI Group.*").

- **General trends regarding the financial industry.** The trends and uncertainties affecting the financial sector in general and consequently also RBI Group continue to include the macroeconomic environment. The financial sector as a whole, but in particular also RBI Group, is affected by the related instability of and increased volatility on the financial markets. RBI Group will not be able to escape the effects of corporate insolvencies, deteriorations in the creditworthiness of borrowers and valuation uncertainties due to the volatile securities market. Likewise, the extraordinarily low interest rate level could affect the behaviour of investors and clients alike, which may lead to weaker provisioning and/or pressure on the interest rate spread. In 2018 and 2019, RBI Group therefore faces a difficult environment once again.

4.3. Profit Forecasts or Estimates

Not applicable. This Base Prospectus does not contain profit forecasts or estimates.

5.2. Administrative, Management and Supervisory bodies' Potential Conflicts of Interest

RBI is not aware of any undisclosed respectively unmanaged conflicts of interest between the obligations of the Supervisory Board members and/or the Management Board members and their private or other interests.

In addition, the Issuer has internal guidelines pursuant to the Austrian Securities Supervision Act 2018 (*Wertpapieraufsichtsgesetz 2018 – WAG 2018*) as well as compliance rules (taking into account respective Austrian legal provisions as well as the EBA Guidelines for internal governance (EBA/GL/2017/11), the Joint ESMA and EBA Guidelines on the assessment of suitability of members of the management body and key function holders (EBA/GL/2017/12), the ECB Guide to fit and proper assessments and the Fit & Proper circular letter from the Austrian Financial Market Authority) in place regulating the management of conflicts of interest and the ongoing application of such guidelines and rules. Their objective is to prevent conflicts of interests which may adversely affect the interests of customers or of the Issuer. If any conflicts of interest are identified with respect to the members of the Management Board, Supervisory Board or the upper management level, procedures will be in place or measures will be taken in order to cope with and in particular to disclose such conflicts of interest:

The guidelines and rules relate to potential or actual conflicts which may affect RBI Group, the employees themselves (including management), their spouses/partners, children or other family

members living in the same household to the extent that these persons have a close relationship with customers or other contractual partners (in particular suppliers) or issuers of financial instruments.

Such close relationship may arise from a contractual relationship exceeding the scope of everyday transactions or from a direct or indirect shareholding equal to or exceeding 1 per cent. of the share capital or representing a value of EUR 100,000 or more (on an accumulated basis in case of an indirect holding), membership of any managing or supervisory body (Managing Director, Management Board or Supervisory Board member, etc.), any other opportunity, as determined by the relevant person, to exert a material influence on management or under a general commercial power of attorney (*Prokura*).

Each member of the Management Board must – according to the Austrian Corporate Governance Code – immediately disclose any conflict of interest to the Supervisory Board and inform the other members of the Management Board of the conflict. Management Board members may hold offices, including supervisory board positions in unrelated companies, subject only to the approval of the Working Committee (*Arbeitsausschuss*) of the Supervisory Board.

The various functions held by the members of the Supervisory Board might cause a potential conflict of interest in specific circumstances. However, the members of the Supervisory Board are required to disclose immediately any conflict of interest to the Chairman of the Supervisory Board, especially if such conflicts may arise as a result of consultancy services or by holding a board position with a business partner. In the event that the Chairman himself should encounter a conflict of interest, he must report this immediately to the Deputy Chairman.

No family ties between the members of the Management Board or Supervisory Board or any senior managers of the Issuer exist, except for Heinrich Schaller and Martin Schaller who are brothers.

No potential conflict of interests exists in respect of any member of the Management Board or Supervisory Board between his duties to the Issuer and his private or other duties. Members of the Management Board or Supervisory Board may enter into business transactions with RBI Group in the ordinary course of business on an arm's length basis.

Individual members of the Management and the Supervisory Board own capital stock of the Issuer or of its subsidiaries.

Members of the Management Board of RBI serving on the management boards or supervisory boards of or performing any similar functions in other companies/foundations (see section 5.1. "*Members of the administrative, management and supervisory bodies of RBI*" above) may in individual cases be confronted with conflicts of interest arising in the context of RBI Group's banking operations if the Issuer maintains active business relations with such other companies.

Conflicts of interest may also arise if Supervisory Board members of RBI are members of the supervisory boards or management boards of companies competing with RBI.

Generally, members of the Issuer's executive bodies serving on management or supervisory boards outside RBI Group, including customers of and investors in RBI Group as well as companies of the Raiffeisen banking group Austria not related on a group level with RBI Group, may, in individual cases, be confronted with potential conflicts of interest if the Issuer maintains active business relations with said companies.

To the extent that members of executive bodies simultaneously serve on the management or supervisory boards of companies outside RBI Group, such companies (including customers of and investors in RBI Group as well as companies of the Raiffeisen banking group Austria not related on a group level with RBI Group) may also compete with RBI.

The auditor's reports dated 28 February 2017 and 27 February 2018, respectively, regarding the German language annual consolidated financial statements of RBI for the fiscal years 2016 and 2017 do not contain any qualifications. RBI is responsible for the non-binding English language convenience translation of its audited annual consolidated financial statements for the financial years ended 31 December 2016 and 2017 and the related audit opinions and (as legal successor of RZB) of RZB's audited consolidated financial statements for the financial year ended 31 December 2016 and the related audit opinions. Furthermore, RBI is responsible for the non-binding English language convenience translation of its reviewed interim consolidated financial statements for the six months ended 30 June 2018 and the related report on the review.

The documents incorporated by reference apart from the reviewed interim consolidated financial statements of RBI for the six months ended 30 June 2018 include the following Alternative Performance Measures ("APM"):

Consolidated return on equity – consolidated profit in relation to average consolidated equity, i.e. the equity attributable to the shareholders of RBI. Average equity is based on month-end figures excluding non-controlling interests and does not include current year profit.

Cost/income ratio is an economic metric and shows the company's costs in relation to its income. The ratio gives a clear view of operational efficiency. Banks use the cost/income ratio as an efficiency measure for steering the bank and for easily comparing its efficiency with other financial institutions. General administrative expenses in relation to operating income are calculated. General administrative expenses comprise staff expenses, other administrative expenses and depreciation/amortization of intangible and tangible fixed assets. Operating income comprises net interest income, net fee and commission income, net trading income and recurring other net operating income (i.e. other net operating income less bank levies, impairments of goodwill, releases of negative goodwill, and profit/loss from banking business due to governmental measures).

Effective tax rate (ETR) gives a good understanding of the tax rate the company faces and simplifies comparison among companies. It will often differ from the company's jurisdictional tax rate due to many accounting factors. The effective tax rate of a company is the average rate at which its pre-tax profits are taxed. It is calculated by dividing total tax expense (income taxes) by profit before tax. Total tax expense includes current income taxes and deferred taxes.

Loan/deposit ratio indicates a bank's ability to refinance its loans by deposits rather than wholesale funding. It is calculated with loans and advances to customers less impairment losses, in relation to deposits from customers (in each case less claims and obligations from (reverse) repurchase agreements and securities lending).

Loan to local stable funding ratio (LLSFR) – This ratio includes a wide range of refinancing options and informs on the extent to which a bank can continue to be stably funded. LLSFR is used as a measure for the prudence of a bank indicating the local refinancing structure of subsidiary banks. It is calculated with the sum of total loans and advances to customers less impairment losses on loans and advances to customers, divided by the sum of deposits from non-banks, funding from supranational institutions, capital from third parties and the total outstanding bonds (with an original maturity of at least one year issued by a subsidiary bank to investors outside the bank's consolidated group).

Net interest margin is used for external comparison with other banks as well as an internal profitability measurement of products and segments. It is calculated with net interest income set in relation to average interest-bearing assets (total assets less trading assets and derivatives, intangible fixed assets, tangible fixed assets, and other assets).

NPE – Non-performing exposure. Non-performing loans according to the applicable definition of the EBA document 'Implementing Technical Standard (ITS) on Supervisory Reporting (Forbearance and non-performing exposures)'.

NPL – Non-performing loans. A loan is classified as non-performing when it is expected that a specific debtor is unlikely to pay its credit obligations to the bank in full, or the debtor is overdue by 90 days or more on any material credit obligation to the bank (RBI has defined twelve default indicators).

NPE ratio is an economic ratio to demonstrate the proportion of non-performing exposure according to the applicable EBA definition in relation to the entire loan portfolio of customers and banks. The ratio reflects the quality of the loan portfolio of the bank and provides an indicator for the performance of the bank's credit risk management.

NPL ratio is an economic ratio to demonstrate the proportion of loans that have been classified as non-performing in relation to the entire loan portfolio of customers. The ratio reflects the quality of the loan portfolio of the bank and provides an indicator for the performance of the bank's credit risk management.

NPE coverage ratio describes to which extent non-performing exposure have been covered by impairments thus expressing also the ability of a bank to absorb losses from its non-performing exposure. It is calculated with individual impairment losses on loans and advances to customers and banks set in relation to non-performing exposure to customers and banks.

NPL coverage ratio describes to which extent non-performing loans have been covered by impairments thus expressing also the ability of a bank to absorb losses from its NPL. It is calculated with impairment losses on loans and advances to customers set in relation to non-performing loans to customers.

Operating result is used to describe the operative performance of a bank for the reporting period. It consists of operating income less general administrative expenses.

Operating income comprises net interest income, net fee and commission income, net trading income and other net operating income (less bank levies, impairments of goodwill, releases of negative goodwill and profit/loss from banking business due to governmental measures).

Other results consists of net income from derivatives and liabilities, net income from financial investments, expenses for bank levies, impairment of goodwill, releases of negative goodwill, net income from disposal of Group assets and profit/loss from banking business due to governmental measures reported under other net operating income.

Provisioning ratio is an indicator for development of risk costs and provisioning policy of an enterprise. It is computed by dividing net provisioning for impairment losses by average loans and advances to customers.

Return on assets (ROA before/after tax) is a profitability ratio and measures how efficiently a company can manage its assets to produce profits during a period. It is computed by dividing profit before tax/after tax by average assets (based on total assets, average means the average of year-end figure and the relevant month's figures).

Return on equity (ROE before/after tax) provides a profitability measure for both management and investors by expressing the net profit for the period as presented in the income statement as a percentage of the respective underlying (either equity related or asset related). Return on equity demonstrates the profitability of the bank on the capital invested by its shareholders and thus the success of their investment. Return

on equity is a useful measure to easily compare the profitability of a bank with other financial institutions. Return on the total equity including non-controlling interests, i.e. profit before tax respectively after tax in relation to average equity on the statement of financial position. Average equity is calculated on month-end figures including non-controlling interests and does not include current year profit.

Return on risk-adjusted capital (RORAC) is a ratio of a risk-adjusted performance management and shows the yield on the risk-adjusted capital (economic capital). The return on risk-adjusted capital is computed by dividing consolidated profit by the risk-adjusted capital (i.e. average economic capital). This capital requirement is calculated within the economic capital model for credit, market and operational risk.

Return on tangible equity (ROTE) is used to measure the rate of return on the tangible common equity. It is computed by dividing consolidated profit less depreciation of intangible assets and less impairment of goodwill by average consolidated equity less intangible assets. Average equity is calculated using month-end figures for the period.

The reviewed interim consolidated financial statements of RBI for the six months ended 30 June 2018 incorporated by reference the following Alternative Performance Measures ("APM"):

Consolidated return on equity – consolidated profit in relation to average consolidated equity, i.e. the equity attributable to the shareholders of RBI. Average equity is based on month-end figures excluding non-controlling interests and does not include current year profit.

Cost/income ratio is an economic metric and shows the company's costs in relation to its income. The ratio gives a clear view of operational efficiency. Banks use the cost/income ratio as an efficiency measure for steering the bank and for easily comparing its efficiency with other financial institutions. General administrative expenses in relation to operating income are calculated for the cost/income ratio. General administrative expenses comprise staff expenses, other administrative expenses and depreciation/amortization of intangible and tangible fixed assets. Operating income comprises net interest income, dividend income, net fee and commission income, net trading income and fair value result, net gains/losses from hedge accounting and other net operating income.

Effective tax rate (ETR) gives a good understanding of the tax rate the company faces and simplifies comparison among companies. It will often differ from the company's jurisdictional tax rate due to many accounting factors. The effective tax rate of a company is the average rate at which its pre-tax profits are taxed. It is calculated by dividing total tax expense (income taxes) by profit before tax. Total tax expense includes current income taxes and deferred taxes.

Loan/deposit ratio indicates a bank's ability to refinance its loans by deposits rather than wholesale funding. It is calculated with loans to non-financial corporations and households in relation to deposits from non-financial corporations and households. Net interest margin is used for external comparison with other banks as well as an internal profitability measurement of products and segments. It is calculated with net interest income set in relation to average interest-bearing assets (total assets less investments in subsidiaries, joint ventures and associates, intangible fixed assets, tangible fixed assets, tax assets and other assets).

NPE – Non-performing exposure. It contains all non-performing loans and bonds according to the applicable definition of the EBA document "Implementing Technical Standards (ITS) on Supervisory Reporting (Forbearance and non-performing exposures)" and comprises all defaulted non-performing loans and bonds and non-defaulted non-performing loans and bonds (loans without grounds for default pursuant to Article 178 CRR).

NPL – Defaulted, non-performing loans. A default and thus a non-performing loan applies if it can be assumed that a customer is unlikely to fulfill all of its credit obligations to the bank, or if the debtor is overdue at least 90 days on any material credit obligation to the bank (RBI has defined twelve default indicators).

NPE ratio is an economic ratio to demonstrate the proportion of non-defaulted and defaulted non-performing loans and bonds according to the applicable EBA definition in relation to the entire loan portfolio of customers and banks. The ratio reflects the quality of the loan portfolio of the bank and provides an indicator for the performance of the bank's credit risk management.

NPL ratio is an economic ratio to demonstrate the proportion of loans that have been classified as defaulted non-performing in relation to the entire customer loan portfolio. The definition of non-performing has been adopted from regulatory standards and guidelines and comprises in general those customers where repayment is doubtful, a realization of collaterals is expected and which thus have been moved to a defaulted customer rating segment. The ratio reflects the quality of the loan portfolio of the bank and provides an indicator for the performance of the bank's credit risk management.

NPE coverage ratio describes to which extent, non-defaulted and defaulted non-performing loans and bonds have been covered by impairments (Individual loan loss provisions) thus expressing also the ability of a bank to absorb losses from its NPE. It is calculated with impairment losses on loans and advances to customers and banks and on bonds set in relation to non-defaulted and defaulted non-performing loans to customers and banks and bonds.

NPL coverage ratio describes to which extent defaulted non-performing loans have been covered by impairments (individual and portfolio-based loan loss provisions) thus expressing also the ability of a bank to absorb losses from its NPL. It is calculated with impairment losses on loans and advances to customers set in relation to defaulted non-performing loans to customers. Operating result is used to describe the operative performance of a bank for the reporting period. It consists of operating income less general administrative expenses.

Operating income – It comprises net interest income, dividend income, net fee and commission income, net trading income and fair value result, net gains/losses from hedge accounting and other net operating income.

Other result – Consists of impairment on investments in subsidiaries, joint ventures and associates, impairment on non-financial assets, negative goodwill recognized in profit or loss, current income from investments in subsidiaries, joint ventures and associates, result from non-current assets and disposal groups classified as held for sale and deconsolidation.

Provisioning ratio is an indicator for development of risk costs and provisioning policy of an enterprise. It is computed by dividing impairment or reversal on financial assets (customer loans) by average loans to customers (categories: financial assets measured at amortized cost and financial assets at fair value through other comprehensive income).

Return on assets (ROA before/after tax) is a profitability ratio and measures how efficiently a company can manage its assets to produce profits during a period. It is computed by dividing profit before tax/after tax by average assets (based on total assets, average means the average of year-end figure and the relevant month's figures).

Return on equity (ROE before/after tax) provides a profitability measure for both management and investors by expressing the net profit for the period as presented in the income statement as a percentage of the respective underlying (either equity related or asset related). Return on equity demonstrates the profitability of the bank on the capital invested by its shareholders and thus the success of their investment. Return on equity is a useful measure to easily compare the profitability of a bank with other financial institutions. Return on the total equity including non-controlling interests, i.e. profit before tax respectively after tax in relation to average equity on the statement of financial position. Average equity is calculated on month-end figures including non-controlling interests and does not include current year profit.

Return on risk-adjusted capital (RORAC) is a ratio of a risk-adjusted performance management and shows the yield on the risk-adjusted capital (economic capital). The return on risk-adjusted capital is computed by dividing consolidated profit by the risk-adjusted capital (i.e. average economic capital). This capital requirement is calculated within the economic capital model for credit, market and operational risk.

8. LEGAL AND ARBITRATION PROCEEDINGS

From time to time, the Issuer and members of the RBI Group are party to certain legal, governmental or arbitration proceedings before various courts and governmental agencies arising in the ordinary course of business involving contractual, labour and other matters. There is also a tendency, in particular in the aftermaths of the financial market and economic crisis, towards a more aggressive behaviour on the part of competitors in the context of legal or other disputes. This also applies to credit institutions with whom an agreement could be reached in the past as well as to credit institutions with whom RBI Group maintains business relationships in connection with syndicated

loan facilities where it acts, *inter alia*, as co-manager or agent.

The following is a description of the most significant proceedings in which RBI Group is currently involved:

8.1. Following the insolvency of Alpine Holding GmbH ("**Alpine**") in 2013, a number of lawsuits were filed by retail investors in Austria against RBI and another credit institution in connection with a bond which had been issued by Alpine in 2012 in an aggregate principal amount of EUR 100 million. The claims against RBI, filed either directly or by investors represented by a "class action association", amount to approximately EUR 10 million. Among others, it is claimed that the banks acted as joint lead managers of the bond issue and were or at least should have been aware of the financial problems of Alpine at the time of the issue. Thus, they should have known that Alpine was not in a position to redeem the bonds as set forth in the terms and conditions of the bonds. It is alleged that the capital market prospectus in relation to the bond issue was misleading and incomplete and that the joint lead managers including RBI, which were also involved in the preparation of the prospectus, were aware of that fact.

8.2. RBI has been a member of two bank consortiums which granted loans to Alpine Bau GmbH in 2009 and 2010. These credit claims are partly secured by payment guarantees issued by the Republic of Austria. After the opening of insolvency proceedings over the borrower the guarantee holders requested payment under the guarantees, but the Republic of Austria refused to pay. Thus, the banks initiated lawsuits against the issuer of the guarantees in August 2013. In these litigations RBI claims payments of the Republic of Austria in the aggregate amount of approximately EUR 20.3 million. The lawsuits are, in different stages, still pending.

8.3. Particularly in connection with its lending activities, RBI Group is from time to time subject to claims from insolvency administrators or similar persons or authorities, seeking to recover assets of insolvent borrowers. In February 2012, a claim was submitted to RZB and RBI in which it was asserted that a repayment under a syndicated loan agreement was made to RZB and/or RBI prior to its agreed maturity date by a borrower who afterwards was declared insolvent. A court action was instigated by the insolvency administrator. The first instance court issued a judgment upholding the claim, but RBI filed an appeal. As at the end of December 2017, the total amount in dispute including accrued interest amounted to approximately EUR 51 million. In March 2018, the relevant Supreme Court judged in favour of RBI and reversed the decision of the first instance, rejecting all claims of borrower. The judgment of the Supreme Court is non-appealable ruling, the decision therefore final.

8.4. In September 2014, the administration of an insolvent counterparty instigated litigation proceedings against RBI in England. The counterparty's administration asserted a claim of approximately EUR 16 million plus interest resulting from incorrect calculation of the termination value of repurchase and securities lending transactions. The judgment issued in March 2017 rejected the asserted claim. The plaintiff has appealed against such judgment. In April 2018 the court of appeal confirmed the rejection of the asserted claim. The decision has become final.

8.5. In March 2018, an administrative fine of EUR 2.7 million (which has been calculated by reference to the annual consolidated turnover of RBI and constitutes 0.06 per cent. of the last available annual consolidated turnover) was imposed on RBI in the course of administrative proceedings based on alleged non-compliance with formal documentation requirements relating to the know-your-customer principle. According to the interpretation of the Austrian Financial Market Authority ("FMA") RBI failed to comply with these administrative obligations in a few individual cases. RBI takes the view that it has duly complied with all due diligence obligations regarding know-your-customer requirements and appealed against the fining order in its entirety. FMA does not state that any money laundering or other crime had occurred, or that there was any suspicion of, or any relation to, any criminal act.

8.6. In August 2018, RBI noted that a corporate customer, which is in default under a loan granted by RBI, filed in Jakarta, Indonesia, a lawsuit against RBI as well as some of its officers and employees (including one board member) in the amount of approximately EUR 85 million. To date, RBI has not been served with the lawsuit or any documentation in this case. Allegedly, the lawsuit

relates to the aforementioned distressed loan in the amount of USD 50 million granted by RBI to the Indonesian claimant. The plaintiff claims that RBI's attempts to recover or sell the loan would have damaged its reputation and deteriorated its funding possibilities, seeking the annulment of the loan agreement and payment of damages. RBI takes the view that the lawsuit is a willful and ill-founded attempt by the plaintiff to evade its obligations under the loan, and it will take such steps as are necessary to protect its interest.

8.7. RBI was served with a lawsuit by the Romanian Ministry of Traffic against RBI and Banca de Export Import a Romaniei Eximbank SA ("**EximBank**") regarding payment of EUR 10 million in May 2017. According to the lawsuit, in the year 2013, RBI issued a letter of credit on the amount of EUR 10 million for the benefit of the Romanian Ministry of Traffic on the request of a Romanian customer of RBI's Romanian Network Bank Raiffeisen Bank S.A., Bucharest. EximBank acted as advising bank of RBI in Romania. The Romanian Ministry of Traffic had sent a payment request under the mentioned letter of credit in March 2014 which had been denied by RBI as having been received after termination date thereof. In April 2018, the lawsuit has been rejected as unfounded by the court of first instance.

8.8. In May 2017, a subsidiary holding company of RBI has been sued for an amount of approximately EUR 12 million in Austria for breach of warranties under a share purchase agreement relating to a real estate company. The claimant, i.e. the purchaser under the share purchase agreement, alleges the breach of a warranty, more precisely it alleges the defendant warranted that the company sold under the share purchase agreement had not waived potential rental payment increases to which it may have been entitled.

8.9. In 2017, a client of an indirect subsidiary of Raiffeisen-Leasing GmbH ("**RL Subsidiary**") launched a claim for damages in the amount of approximately EUR 10.8 million and alleged that damage was caused by RL Subsidiary's breach of duties under a leasing contract. According to the assessment of RL Subsidiary and its lawyers, these claims are not justified in substance and, in addition, already became time-barred in 2011.

8.10. In September 2017, RBI, together with Raiffeisenbank Austria, d.d., Croatia ("**RBHR**"), filed a request for arbitration with the International Centre for Settlement of Investment Disputes in Washington, DC against the Republic of Croatia. The claimants, RBI and RBHR, have initiated this arbitration against Croatia to obtain relief under the Austrian-Croatian investment protection treaty for Croatia's breaches of its obligations under that treaty in connection with legislation concerning the conversion of CHF loans. Among other things the claimants argue that Croatia has failed to afford the claimants fair and equitable treatment and has breached its obligation to treat foreign investors and investments no less favourably than its own national investors and investments.

8.11. In December 2016, a French company filed a law suit at the commercial court in Paris against Raiffeisen Bank Polska S.A. ("**RBPL**") and RBI. The French company claimed damages from both banks in the aggregate amount of EUR 15.3 million alleging that RBPL failed to comply with duties of care when opening an account for a certain customer and executing money transfers through this account, and that RBI acted as a correspondent bank in this context and failed to comply with duties of care when doing so. In the meantime, the lawsuit was withdrawn by the plaintiff for reasons of jurisdiction of court.

In December 2017, a lawsuit of the same content as set out above was filed against RBPL and RBI at the commercial court in Warsaw.

8.12. In June 2012, a client (the "**Slovak Claimant**") of the Issuer's subsidiary in Slovakia, Tatra banka, a.s. ("**Tatra banka**") filed a petition for compensation of damage and lost profits in the amount of approximately EUR 71 million. The lawsuit is connected with certain credit facilities agreements entered into between Tatra banka and the Slovak Claimant. The Slovak Claimant claims that Tatra banka breached its contractual obligations by refusing to execute payment orders from the Slovak Claimant's accounts without cause and by not extending the maturity of facilities despite a previous promise to do so, which led to non-payment of the Slovak Claimant's obligations towards its business partners and the termination of the Slovak Claimant's business activities. In February 2016, the

Slovak Claimant filed a petition for increasing the claimed amount by EUR 50 million but the court refused this petition. A constitutional appeal was filed regarding this court's decision. The constitutional court refused this appeal and rejected the proposed increase of the claimed amount. In December 2017, Tatra banka was delivered a new claim amounting to EUR 50 million, based on the same grounds as the increasing petition from February 2016. This new claim was joined to the original claim. Thus, the Slovak Claimant in this lawsuit demanded compensation of damage and lost profits in the amount of approximately EUR 121 million. In February 2018, the court of first instance rejected the petition in full. The Slovak Claimant, which by law is now the trustee in the Slovak Claimant's bankruptcy proceedings, as the Slovak Claimant has become bankrupt, launched an appeal against the rejection.

Furthermore, a Cypriot company (the "**Cypriot Claimant**") filed a separate action for damages in the amount of approximately EUR 43.1 million. In January 2016, the Cypriot Claimant filed a petition for increasing the claimed amount by EUR 84 million and the court approved this petition. It means that the total claimed amount in this lawsuit is approximately EUR 127 million. This lawsuit is connected with the proceeding of the Slovak Claimant above because the Cypriot Claimant having filed the action had acquired the claim from a shareholder of the holding company of the Slovak Claimant. Subject matter of the claim is the same as in the proceeding above. According to the Cypriot Claimant, this had caused damage to the Slovak Claimant and, thus, also to the shareholder of the holding company in the form of a loss of value of its shares. Subsequently, said shareholder assigned his claim to the Cypriot Claimant. The Cypriot Claimant claims that Tatra banka acted contrary to the good morals as well as contrary to fair business conduct and requires Tatra banka to pay part of its claims corresponding to the loss in value of the holding company's shares. The proceeding was interrupted until the final decision in the EUR 121 million case above is issued.

8.13. Following an assignment of Tatra banka's receivable (approximately EUR 3.5 million) against a corporate customer to an assignee, two lawsuits in the total amount of approximately EUR 18.6 million were filed by the original shareholders of the corporate customer against Tatra banka. Their shares in the corporate customer had been pledged as security for a financing provided by Tatra banka to the corporate customer. The claims are claims for compensation of damages which were incurred by the original shareholders as a consequence of an alleged late notification of the assignment to the original shareholders, the fact that the assignee had realized the pledge over the shares and, thus, the original shareholders ceased to be the shareholders of the corporate customer as well as the fact that the assignee had realized a mortgage over real estates of the corporate customer (which had also been created as a security for the financing provided by Tatra banka to the corporate customer). The original shareholders claimed that the value of the corporate customer was EUR 18.6 million and that this amount would represent the damage incurred by them due to the assignment of Tatra banka's claim against the corporate customer.

Subsequently, the original shareholders assigned their claims under the lawsuits mentioned above to a Panamanian company which is now the plaintiff. The plaintiff claims that Tatra banka had acted in contradiction of good faith principles and that it had breached an obligation arising from the Slovak Civil Code.

8.14. In 2011, a client of Raiffeisenbank Austria, d.d., Croatia ("**RBHR**") launched a claim for damages in the amount of approximately HRK 143.5 million and alleged that damages have been caused by an unjustified termination of the loan. In February 2014, the commercial court in Zagreb issued a judgment by which the claim was declined. The plaintiff launched an appeal against this judgment which is not finally decided.

8.15. In 2015, a former client of RBHR launched a claim for damages in the amount of approximately HRK 181 million based on the allegation that RBHR had acted fraudulently by terminating loans, which had been granted for the financing of the client's hotel business, without justification. In previous court proceedings in respect of the termination of the loans as well as the enforcement over the real estate, all final judgments were in favor of RBHR. Several hearings were held as well as submissions exchanged. So far, no ruling was passed.

8.16. From 2014 onwards, a group of former clients of RBHR launched several claims for damages in the amount of approximately HRK 120.7 million based on the allegation that RBHR had acted fraudulently by terminating and collecting loans. In some of the court proceedings the final court decisions were issued by which the claims (in the amount of approximately HRK 20 million) were declined.

8.17 In spring 2018, Raiffeisen Factoring Ltd. ("**RFHR**"), a subsidiary of RBHR, sued a client for payment of approximately HRK 131.4 million. RFHR claims that the client had factored its trade receivables with RFHR on a recourse factoring basis but failed to pay when its recourse obligation fell due.

8.18. In 2015, various plaintiffs launched two lawsuits against the Issuer's Romanian Network Bank Raiffeisen Bank S.A., Bucharest, claiming damages in the amount of RON 45 million and RON 35 million, respectively, based on the allegation that unfair terms in credit agreements had been used. According to the defendant's assessment, the RON 45 million claim was filed outside legal deadlines. In late 2015, the RON 45 million claim was split into over 180 separate litigations and the RON 35 million claim was also split into over 160 individual cases. A major part of the individual litigations were won by Raiffeisen Bank S.A. on the merits meanwhile, part of them are already finally closed.

8.19. In 2015, a former client of the Issuer's Network Bank in the Czech Republic, Raiffeisenbank a.s. ("**RBCZ**"), launched a lawsuit against RBCZ claiming damages in the amount of approximately CZK 371 million based on the allegation that RBCZ caused damage to him by refusing to provide further financing to him. Owing to the non-payment of court fees by the claimant, a court ruling on dismissal of the lawsuit was issued but has been appealed by the claimant. In the meantime, the court has united two proceedings launched by the claimant against RBCZ and therefore the sued amount has increased to approximately CZK 494 million.

8.20. In May 2017, RBCZ and Raiffeisen - Leasing, s.r.o. have been approached by a Czech leasing company ("**Czech Leasing**") demanding CZK 1,057,114,000 on the basis that RBCZ and Raiffeisen - Leasing, s.r.o. had allegedly: (i) contrived and fundamentally contributed to a mass leaving of Czech Leasing employees; and (ii) organized the setting up of a new company where most of the leaving employees of the Czech Leasing have found a new job; and (iii) had been poaching customers from the Czech Leasing. In June 2017, a lawsuit for such claim in the above-mentioned amount was filed by Czech Leasing against RBCZ and Raiffeisen - Leasing, s.r.o. at the City Court of Prague.

8.21. In March 2017, the liquidation manager in a bankruptcy case in Russia filed a claim for approximately RUB 1.5 billion with the Arbitration court of Moscow against the Issuer's Network Bank in Russia, AO Raiffeisenbank. The claim was based on the liquidation manager's opinion that the transfer of funds by AO Raiffeisenbank as repayment of a loan had been unlawful. According to practice, bankruptcy managers dispute debtors' transactions in order to return the funds to the debtor and thus increase the size of the bankruptcy estate. The disputed transaction in this case was made over one year before bankruptcy and with no signs of insolvency of the client. In August 2017, the arbitration court refused the liquidation manager's claim as unlawful and ungrounded. The liquidation manager filed an appeal against the decision. In January 2018, the court of appeal decided in favour of AO Raiffeisenbank and refused the liquidation manager's appeal. The cassation appeal filed by the liquidation manager to the higher instance court was refused by the court in July 2018.

8.22. In April 2018, Raiffeisen Bank Polska S.A. ("**RBPL**") has obtained the lawsuit filed by a former client claiming an amount of approximately PLN 203 million. According to the plaintiff's complaint, RBPL blocked the client's current overdraft credit financing account for 6 calendar days in 2014 without the formal justification. The plaintiff claims that the blocking of the account resulted in losses and lost profits due to a periodic disruption of the client's financial liquidity, the inability to replace loan-based funding sources with financing streams originating from other sources on the blocked account, a reduction in inventory and merchant credits being made available and generally a resulting deterioration of the client's financial results and business reputation. RBPL contends that the blocking was legally justified and implemented upon the information obtained.

Save as disclosed in this section "8. *Legal and Arbitration Proceedings*" and based on the Issuer's and RBI Group's current assessment of the facts and legal implication, there are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) during the 12 months prior to the date of this Base Prospectus, which may have, or have had in the recent past, significant effects on the financial position or profitability of the Issuer .

8.23 In September 2018, administrative fines of total EUR 13.12 million were imposed on Raiffeisen Bank Polska S.A., a Polish subsidiary of RBI, in the course of administrative proceedings based on alleged non-performance of the duties as the depositary and liquidator of certain investment funds. Raiffeisen Bank Polska S.A. as custodian of investment funds assumed the role as liquidator of certain funds in spring 2018. According to the interpretation of the Polish Financial Supervision Authority ("PFSA") Raiffeisen Bank Polska S.A. failed to comply with certain obligations in its function as depositary bank and liquidator of the funds. Raiffeisen Bank Polska S.A. takes the view that it has duly complied with all its duties and appealed against the fines in its entirety.

9. SIGNIFICANT CHANGE IN THE FINANCIAL POSITION OF THE GROUP

No significant change in the financial position of RBI Group has occurred since 30 June 2018.

10. MATERIAL CONTRACTS

The Raiffeisen Regional Banks and direct and indirect subsidiaries of the Raiffeisen Regional Banks are parties to a syndicate agreement regarding RBI. As a result of the syndicate agreement, the voting rights in relation to shares in RBI (corresponding to approximately 58.8 per cent. of the issued shares) are mutually attributable to the Raiffeisen Regional Banks and their subsidiaries as acting in concert (§ 1(6) Austrian Takeover Act (*Übernahmegesetz* – "**ÜbG**") pursuant to §§ 130, 133(7) of the Austrian Stock Exchange Act 2018 (*Börsengesetz 2018* – "**BörseG 2018**"). A corresponding attribution to the controlling shareholders of individual Raiffeisen Regional Banks pursuant to §§ 130, 133(4) *BörseG 2018* is made.

The terms of the syndicate agreement include a block voting agreement in relation to the agenda of the shareholders' meeting of RBI, preemption rights and a contractual restriction on sales of the RBI shares held by the Raiffeisen Regional Banks (with a few exceptions) for a period of three years from the effective date of the Merger 2017 between RZB and RBI if the sale would directly and/or indirectly reduce the Raiffeisen Regional Banks' aggregate shareholding in RBI to less than 50 per cent. of the share capital plus one share (after expiry of the three-year period, to be reduced to 40 per cent. of RBI's share capital). Further, the Raiffeisen Regional Banks are entitled to nominate nine members of the RBI Supervisory Board.

RBI is a member of an institutional protection scheme ("**IPS**"), the Federal IPS, which besides RBI comprises of the Raiffeisen Regional Banks, Raiffeisen-Holding Niederösterreich Wien, Posojilnica Bank eGen as well as RBI's subsidiaries Raiffeisen Wohnbaubank Aktiengesellschaft and Raiffeisen Bausparkasse Gesellschaft m.b.H. Pursuant to Article 113(7) and Article 49(3) of the CRR an IPS is required to ensure the solvency and liquidity of its members. In 2004, RZB had issued hybrid capital via a special purpose vehicle incorporated in Jersey. The issue proceeds were on-lent in the form of supplementary capital (*Ergänzungskapital*) by the Jersey special purpose vehicle originally to RZB, which - as the superordinated credit institution (*übergeordnetes Kreditinstitut*) of the RZB credit institution group - was entitled to show the hybrid capital in its consolidated accounts. In connection with the Merger 2010, the supplementary capital subscribed by the Jersey special purpose vehicle was transferred to RBI. In connection with the Merger 2017, RBI as RZB's universal successor and new superordinated credit institution (*übergeordnetes Kreditinstitut*) assumed all of RZB's rights and liabilities under the hybrid capital, including RZB's obligations under

the support agreement entered into between RZB and the Jersey special purpose vehicle for the benefit of the holders of the hybrid capital notes. The outstanding aggregate principal amount of the hybrid capital was approximately EUR 90.5 million as of 31 December 2017. In the beginning of July 2017, RBI issued EUR 650 million of perpetual additional tier 1 capital ("AT 1"). A second AT 1 instrument in the amount of EUR 500 million was issued in January 2018.

In the ordinary course of its business, members of RBI Group enter into a variety of contracts with various other entities. Other than set forth above, RBI has not entered into any material contracts outside the ordinary course of its business which could result in any group member being under an obligation or entitlement that has a material adverse impact on RBI's ability to meet its obligations under the Notes.

Choice of Options

The Final Terms shall determine in the first step which of Option I, Option II, Option III or Option IV shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I, Option II, Option III or Option IV contains also certain further sub-options (characterised by indicating the optional provision through instructions and explanatory notes set out in the square brackets within the text of the relevant Option) as well as placeholders (characterised by square brackets which include the relevant items) which, based on the features determined for the concrete issue, will be determined by the Final Terms as follows:

Determination of selections

The Issuer will determine which selections will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the sections of the relevant Option. If the Final Terms do not replicate or refer to an alternative or optional provision the relevant provisions shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant Option will be completed. In case of replication of the applicable provisions the placeholders will be completed at the relevant place in the respective Option. In case the provisions of the Final Terms and the relevant Option, taken together, shall constitute the Conditions the relevant Option shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

In that case, all instructions and explanatory notes and text set out in square brackets and not chosen in the relevant Option and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

Deletion of Options and Placeholders in the Final Terms

When preparing the Final Terms the Issuer may, in the case that the Final Terms together with the relevant Option represent the Conditions, delete not chosen or filled in placeholders or, as the case may be, provisions that are not applicable for reasons of readability.

2. Programme Amount

The actual aggregate principal amount (or, (i) in the case of Notes issued at a discount, their Amortised Face Amount or (ii) in the case of Notes issued without denomination the relevant Issue Price multiplied with the aggregate number of Notes of the Series) of all Notes issued and from time to time outstanding (including the Notes outstanding which have been issued under this Base Prospectus dated 12 October 2018, or any preceding prospectus, relating to the EUR 25,000,000,000 Debt Issuance Programme, of the Issuer will not exceed EUR 25,000,000,000 (or the equivalent in other currencies at the date of issue). Notes will be issued in such denominations as may be agreed and specified in the relevant Final Terms, save that the minimum denomination of the Notes will be EUR 1,000 or, if in any currency other than Euro, in an amount in such other currency equal to or exceeding the equivalent of EUR 1,000 at the time of the trade date of the Notes. The Notes may be / will be issued on a continuous basis, either directly by the Issuer to the investors or to one or more of the Dealers which expression shall, where used in the Base Prospectus, include any additional Dealer(s) appointed under this Programme from time to time.

The Issuer will have the option at any time to increase the amount of the Programme, subject to the provisions of a dealer agreement of even date herewith (the "**Dealer Agreement**") (including the preparation of a supplement to this Base Prospectus or a new Base Prospectus) as the Dealers, the relevant Competent Authority or the relevant Stock Exchange may reasonably request.

3. Distribution of Notes

Notes may be distributed by way of public or non-public offer and in each case on a non-syndicated or a syndicated basis. The method of distribution of each Tranche will be stated in the relevant Final Terms. With respect to the categories of potential investors (investor categories) the Notes are not subject to any restrictions except for the selling restrictions mentioned in section *Subscription and Sale*; the Notes can be intended for sale to qualified investors and/or retail investors.

4. Listing and Admission to Trading of Notes

In relation to Notes intended to be listed and issued under this Programme, application (i) has been made to the Luxembourg Stock Exchange to list the Programme and such Notes on the Official List (*Cote Officielle*) of the Luxembourg Stock Exchange and to admit to trading on the Regulated Market of the Luxembourg Stock Exchange (*Bourse de Luxembourg*) and (ii) will be made to the Vienna Stock Exchange for the Programme as a whole and for such Notes intended to be listed and traded on a regulated market (*Amtlicher Handel*). Application may be made additionally to any other or further stock exchange to admit such Notes to trading on any other or further Regulated Market or other market segment of such other or further stock exchange. In this Base Prospectus, references to "Listed Notes" (and all related references) shall mean, in relation to Notes issued under the Programme, that such Notes are listed on the Official List of the Luxembourg Stock Exchange or on the regulated market of the Vienna Stock Exchange (*Amtlicher Handel*) or any other or further stock exchange, as the case may be.

The Programme allows for Notes to be listed on such other or further stock exchange(s) or traded on other market segments (e.g. unregulated market (*Freiverkehr*)) as may be agreed between the Issuer and the relevant Dealer(s) or as determined by the Issuer. Notes not listed on any stock exchange may also be issued.

The issue specific details applicable to the respective Notes are determined in the relevant Final Terms.

5. Clearing Systems

Either the Notes have been accepted for clearance through Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking, S. A., Luxembourg ("**CBL**") and/or may be accepted for clearance through OeKB CSD GmbH ("**OeKB**") and/or SIX SIS AG (or its legal successors as the case may be), or Global Certificates may be deposited in the safe of the Issuer (without being accepted for clearance outside Raiffeisen banking group Austria).

6. Security Code

The Common Code, International Securities Identification Number ("**ISIN**") and the German Security Code Number (if any) for each Series of Notes or any other security code will be set out in the relevant Final Terms.

7. Index Linked Notes

Inflation linked Notes (the "**Inflation Linked Notes**") provide for interest and/or principal payments ("**Redemption Inflation Linked Notes**") which depend on the performance of the inflation index "Harmonised Index of Consumer Prices (excluding tobacco)" ("**HICP**") which measures the changes over time in the prices of consumer goods and services acquired by households. The HICP gives comparable measures of inflation in the euro-zone, the EU, the European Economic Area and for other countries including accession and candidate countries. The index is calculated by the statistical office of the European Union (EUROSTAT). Generally, an inflation index measures the rate of inflation with regard to an economy and/or certain goods. Information relating to the HICP may be obtained on the following website: <http://epp.eurostat.ec.europa.eu> and on Bloomberg page: CPTFEMU Index.

In the case of Redemption Inflation Linked Notes, the final redemption amount of such Notes depends on the performance of the HICP over a predetermined term. Redemption Inflation Linked Notes will be redeemed at an amount which may not be less than 100 per cent of the principal amount of the Redemption Inflation Linked Notes. Any amount exceeding the specified denomination depends on a positive or negative performance of the HICP during the determined term, dependent on the applicable formula for redemption payments.

The yield of Inflation Linked Notes depends on interest payments, if any, and the redemption amount under such Notes, both of which may be linked to the performance of the HICP during the predetermined term of the Inflation Linked Notes. In dependence of the applicable formula for interest, a positive or negative performance of the HICP will increase the yield of Inflation Linked Notes or a positive or negative performance of the HICP will decrease the yield of Inflation Linked Notes.

The Issuer does not intend to provide any post-issuance information, except if required by any applicable laws and regulations or pursuant to the Terms and Conditions of Inflation Linked Notes.

Vorausgesetzt die Nachfolge-Bildschirmseite ist der Berechnungsstelle zugänglich, gilt jegliche Bezugnahme auf die Bildschirmseite in diesem Dokument ab dem Datum der Festlegung eines Nachfolge-Referenzsatzes als Bezugnahme auf die Nachfolge-Bildschirmseite und die Regelungen dieses Absatzes gelten entsprechend. Der Unabhängige Berater wird die Emittentin über solche Festlegungen informieren. Anschließend wird die Emittentin die Gläubiger gemäß § 14 informieren.

Jedem Gläubiger steht im Umfang seiner Forderungen gegen die Emittentin ein sachenrechtlicher Miteigentumsanteil an der Dauerglobalurkunde zu, wobei, solange die Dauerglobalurkunde bei der Verwahrungsstelle hinterlegt ist, dieser Miteigentumsanteil suspendiert ist und über die Schuldverschreibungen nur durch Gutschrift der zu übertragenden Schuldverschreibungen in einem Effektenkonto des Empfängers gemäß den Bestimmungen des schweizerischen Bucheffektengesetzes über die Übertragung von Bucheffekten verfügt werden kann.

(b) *Einzelurkunden und Zinsscheine.* Die Dauerglobalurkunde wird nicht nach Wahl der Gläubiger, sondern ausschließlich auf Verlangen der Schweizer Hauptzahlstelle vollständig und nicht teilweise gegen Einzelurkunden ausgetauscht, wenn die Schweizer Hauptzahlstelle einen solchen Austausch für notwendig oder nützlich hält oder wenn dies nach schweizerischem oder einem anderen Recht im Zusammenhang mit der gerichtlichen Geltendmachung von Rechten aus den Schuldverschreibungen erforderlich wird. In einem solchen Fall werden die Einzelurkunden und Zinsscheine die faksimilierten Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin tragen, von der Schweizer Hauptzahlstelle oder in deren Namen mit einer Kontrollunterschrift versehen, und gemäß den Vorschriften der SIX SIS AG kostenfrei für die Gläubiger gedruckt.

(3) *Verwahrung – Clearing System.* Die die Schuldverschreibungen verbriefende Globalurkunde wird von dem oder im Namen des Clearing Systems verwahrt. "Clearing System" bedeutet im Sinne [dieses Paragraphen] [dieser Bedingungen] SIX SIS AG und jeden Funktionsnachfolger.]

Für diesen Zweck wird die Berechnungsstelle am betreffenden Referenzwert-Feststellungstag von den Referenzbanken (wie nachstehend definiert) verbindliche Quotierungen für den Referenz-Wechselkurs erfragen.

Sofern mindestens vier Quotierungen mitgeteilt werden, ist der Referenz-Wechselkurs für das jeweilige Datum das arithmetische Mittel der mitgeteilten Quotierungen, ohne dabei die Quotierung mit dem höchsten und dem niedrigsten Wert zu berücksichtigen. Für diesen Zweck gilt, sofern mehr als eine Quotierung denselben höchsten oder niedrigsten Wert aufweist, dass nur eine dieser Quotierungen unberücksichtigt bleiben soll.

Sofern zwei oder drei Quotierungen mitgeteilt werden, ist der Referenz-Wechselkurs für das jeweilige Datum das arithmetische Mittel der mitgeteilten Quotierungen.

Sofern weniger als zwei Quotierungen mitgeteilt werden, wird der Referenz-Wechselkurs von der Berechnungsstelle in alleinigem Ermessen unter Beachtung von üblichen Marktregelungen in Bezug auf OTC Devisengeschäfte (FX Transaktionen) und unter Berücksichtigung des Grundsatzes von Treu und Glauben handelnd bestimmt.

For that purpose, on the relevant Reference Rate Determination Day, the Calculation Agent shall request the Reference Banks (as defined below) to quote binding offers for the Reference Exchange Rate.

If at least four quotations are provided, the rate of the Reference Exchange Rate for the relevant date will be the arithmetic mean of the quotations provided, without regard to the quotations having the highest and lowest value. For this purpose, if more than one quotation has the same highest value or lowest value, then only one of such quotations shall be disregarded.

If two or three quotations are provided, the rate of the Reference Exchange Rate for the relevant date will be the arithmetic mean of the quotations provided.

If fewer than two quotations are provided, the Reference Exchange Rate shall be determined by the Calculation Agent in its sole discretion by taking into consideration market practice in relation to OTC foreign exchange transactions (FX transactions) and by acting in good faith.

"HVPI" oder "Index" ist der unrevidierte Harmonisierte Verbraucherpreisindex (ohne Tabak) für die Euro-Zone (wie nachstehend definiert), der monatlich vom Statistischen Amt der Europäischen Gemeinschaft (nachfolgend "EUROSTAT" oder "Indexsponsor" genannt) berechnet wird, und welcher auf der Bildschirmseite am Zinsfestlegungstag (wie nachstehend definiert) veröffentlicht wird.

Falls die Bildschirmseite nicht länger existiert und keine offizielle Nachfolgeseite bekannt gegeben wird, wird die Berechnungsstelle eine alternative Referenz für den Index festlegen.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen Person, Gesellschaft oder Institution, die die Berechnungsstelle für geeignet hält (der "Nachfolgesponsor") berechnet und veröffentlicht, so wird der anwendbare Zinssatz auf der Grundlage des vom Nachfolgesponsor berechneten und veröffentlichten Index berechnet. Jede hier enthaltene Bezugnahme auf den Indexsponsor gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgesponsor.

Wird der Index zu irgendeiner Zeit aufgehoben und/oder durch einen anderen Index ersetzt, legt die Berechnungsstelle nach billigem Ermessen fest, welcher Index künftig für die Berechnung des anwendbaren Zinssatzes zugrunde zu legen ist (der "Nachfolgeindex"). Der Nachfolgeindex sowie der Zeitpunkt seiner erstmaligen Anwendung werden so bald wie möglich jedoch keinesfalls später als am Zinsfestlegungstag bekannt gemacht. Jede hier enthaltene Bezugnahme auf den Index gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgeindex.

Ist nach Ansicht der Berechnungsstelle (i) die Festlegung eines Nachfolgeindex aus welchen Gründen auch immer nicht möglich, oder (ii) nimmt der Indexsponsor eine wesentliche Veränderung hinsichtlich der Berechnungsmethode zur Bestimmung des Index vor oder verändert der Indexsponsor den Index auf irgendeine andere Weise wesentlich, wird die Berechnungsstelle die Weiterrechnung und Veröffentlichung des Indexstandes unter Berücksichtigung des Grundsatzes von Treu und Glauben und in wirtschaftlich vernünftiger Art und Weise durchführen.

"HICP" or "Index" is the unrevised Harmonised Index of Consumer Prices (excluding Tobacco) for the Euro-Zone (as defined below), which is calculated on a monthly basis by the statistical office of the European Union (the "EUROSTAT" or the "Index Sponsor") and published on the Screen Page on the Interest Determination Date (as defined below).

If the Screen Page ceases to exist and no official successor page is announced, the Calculation Agent will determine other reference with respect to the Index.

In case of any amendment of the published index level 24 hours after the first publication, the index level published first shall, in any case, be applicable to the calculation.

If the Index is not calculated and published by the Index Sponsor any more but by another person, corporation or institution, which the Calculation Agent considers suitable (the "Successor Sponsor"), the applicable Interest Rate shall be calculated on the basis of the Index calculated and published by the Successor Sponsor. Any reference to Index Sponsor contained herein, shall, in this context, be deemed to refer to the Successor Sponsor.

If at any time the Index is cancelled and/or replaced by any other index, the Calculation Agent shall, at its reasonable discretion, determine the Index which the following calculation of the applicable Interest Rate will be based on (the "Successor Index"). The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Interest Determination Date. Any reference to the Index contained herein, shall, in this context, be deemed to refer to the Successor Index.

If according to the Calculation Agent's opinion (i) the determination of the Successor Index is, for whatever reason, not possible, or (ii) the Index Sponsor significantly changes the method of calculating the Index or the Index Sponsor significantly changes the Index in any other way, the Calculation Agent shall make further calculations and publications of the index level acting in good faith and in a commercially reasonable manner.

In the event that the Calculation Agent in its sole discretion by taking into consideration market practice in relation to OTC foreign exchange transactions (FX transactions) and by acting in good faith determines that a Disruption Event (as defined below) has occurred and is continuing on any Reference Rate Determination Date, then the Reference Exchange Rate will be determined by the Calculation Agent in good faith and in a commercially reasonable manner; if possible, by using the arithmetic mean of the firm quotes received for the conversion of the Relevant Currency.

For that purpose, on the relevant Reference Rate Determination Day, the Calculation Agent shall request the Reference Banks (as defined below) to

Für diesen Zweck gilt, sofern mehr als eine Quotierung denselben höchsten oder niedrigsten Wert aufweist, dass nur eine dieser Quotierungen unberücksichtigt bleiben soll.

Sofern zwei oder drei Quotierungen mitgeteilt werden, ist der Referenz-Wechselkurs für das jeweilige Datum das arithmetische Mittel der mitgeteilten Quotierungen.

Sofern weniger als zwei Quotierungen mitgeteilt werden, wird der Referenz-Wechselkurs von der Berechnungsstelle in alleinigem Ermessen unter Beachtung von üblichen Marktregelungen in Bezug auf OTC Devisengeschäfte (FX Transaktionen) und unter Berücksichtigung des Grundsatzes von Treu und Glauben handelnd bestimmt.

If two or three quotations are provided, the rate of the Reference Exchange Rate for the relevant date will be the arithmetic mean of the quotations provided.

If fewer than two quotations are provided, the Reference Exchange Rate shall be determined by the Calculation Agent in its sole discretion by taking into consideration market practice in relation to OTC foreign exchange transactions (FX transactions) and by acting in good faith.

"HICP" or "Index" is the unrevised Harmonised Index of Consumer Prices (excluding Tobacco) for the Euro-Zone (as defined below), which is calculated on a monthly basis by the statistical office of the European Union (the "EUROSTAT" or the "Index Sponsor") and published on the Screen Page on the Interest Determination Date (as defined below).

If the Screen Page ceases to exist and no official successor page is announced, the Calculation Agent will determine other reference with respect to the Index.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen Person, Gesellschaft oder Institution, die die Berechnungsstelle für geeignet hält (der "Nachfolgesponsor") berechnet und veröffentlicht, so wird der anwendbare Zinssatz auf der Grundlage des vom Nachfolgesponsor berechneten und veröffentlichten Index berechnet. Jede hier enthaltene Bezugnahme auf den Indexsponsor gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgesponsor.

Wird der Index zu irgendeiner Zeit aufgehoben und/oder durch einen anderen Index ersetzt, legt die Berechnungsstelle nach billigem Ermessen fest, welcher Index künftig für die Berechnung des anwendbaren Zinssatzes zugrunde zu legen ist (der "Nachfolgeindex"). Der Nachfolgeindex sowie der Zeitpunkt seiner erstmaligen Anwendung werden so bald wie möglich jedoch keinesfalls später als am Zinsfestlegungstag bekannt gemacht. Jede hier enthaltene Bezugnahme auf den Index gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgeindex.

Ist nach Ansicht der Berechnungsstelle (i) die Festlegung eines Nachfolgeindex aus welchen Gründen auch immer nicht möglich, oder (ii) nimmt der Indexsponsor [] eine wesentliche Veränderung hinsichtlich der Berechnungsmethode zur Bestimmung des Index vor oder verändert der Indexsponsor den Index auf irgendeine andere Weise wesentlich, wird die Berechnungsstelle die Weiterrechnung und Veröffentlichung des Indexstandes unter Berücksichtigung des Grundsatzes von Treu und Glauben und in wirtschaftlich vernünftiger Art und Weise durchführen.

In case of any amendment of the published index level 24 hours after the first publication, the index level published first shall, in any case, be applicable to the calculation.

If the Index is not calculated and published by the Index Sponsor anymore but by another person, corporation or institution, which the Calculation Agent considers suitable (the "Successor Sponsor"), the applicable Interest Rate shall be calculated on the basis of the Index calculated and published by the Successor Sponsor. Any reference to Index Sponsor contained herein, shall, in this context, be deemed to refer to the Successor Sponsor.

If at any time the Index is cancelled and/or replaced by any other index, the Calculation Agent shall, in the reasonable discretion, determine the Index which the following calculation of the applicable Interest Rate will be based on (the "Successor Index"). The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Interest Determination Date. Interest on the Notes shall be payable on [each][the] Floating Interest Payment Date. Floating Interest Payment Date means such Business Day, on which the floating interest is in fact due and payable. This may fall on the Floating Coupon Date or may shift to the appropriated Business Day – if the Floating Coupon Date falls on a day which is not a Business Day – based on the application of the adjustment

"HVPI" oder "Index" ist der unrevidierte Harmonisierte Verbraucherpreisindex (ohne Tabak) für die Euro-Zone (wie nachstehend definiert), der monatlich vom Statistischen Amt der Europäischen Gemeinschaft (nachfolgend "EUROSTAT" oder "Indexsponsor" genannt) berechnet wird, und welcher auf der Bildschirmseite am Zinsfestlegungstag (wie nachstehend definiert) veröffentlicht wird.

Falls die Bildschirmseite nicht länger existiert und keine offizielle Nachfolgeseite bekannt gegeben wird, wird die Berechnungsstelle eine alternative Referenz für den Index festlegen.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen Person, Gesellschaft oder Institution, die die Berechnungsstelle für geeignet hält (der "Nachfolgesponsor") berechnet und veröffentlicht, so wird der anwendbare Zinssatz auf der Grundlage des vom Nachfolgesponsor berechneten und veröffentlichten Index berechnet. Jede hier enthaltene Bezugnahme auf den Indexsponsor gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgesponsor.

Wird der Index zu irgendeiner Zeit aufgehoben und/oder durch einen anderen Index ersetzt, legt die Berechnungsstelle nach billigem Ermessen fest, welcher Index künftig für die Berechnung des anwendbaren Zinssatzes zugrunde zu legen ist (der "Nachfolgeindex"). Der Nachfolgeindex sowie der Zeitpunkt seiner erstmaligen Anwendung werden so bald wie möglich jedoch keinesfalls später als am Zinsfestlegungstag bekannt gemacht. Jede hier enthaltene Bezugnahme auf den Index gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgeindex.

Ist nach Ansicht der Berechnungsstelle (i) die Festlegung eines Nachfolgeindex aus welchen Gründen auch immer nicht möglich, oder (ii) nimmt der Indexsponsor eine wesentliche Veränderung hinsichtlich der Berechnungsmethode zur Bestimmung des Index vor oder verändert der Indexsponsor den Index auf irgendeine andere Weise wesentlich, wird die Berechnungsstelle die Weiterrechnung und Veröffentlichung des Indexstandes unter Berücksichtigung des Grundsatzes von Treu und Glauben und in wirtschaftlich vernünftiger Art und Weise durchführen.

["Margin" means a defined [number][number of percentage points] and has been determined as [●].]

"HICP" or "Index" is the unrevised Harmonised Index of Consumer Prices (excluding Tobacco) for the Euro-Zone (as defined below), which is calculated on a monthly basis by the statistical office of the European Union (the "EUROSTAT" or the "Index Sponsor") and published on the Screen Page on the Interest Determination Date (as defined below).

If the Screen Page ceases to exist and no official successor page is announced, the Calculation Agent will determine other reference with respect to the Index.

In case of any amendment of the published index level 24 hours after the first publication, the index level published first shall, in any case, be applicable to the calculation.

If the Index is not calculated and published by the Index Sponsor anymore but by another person, corporation or institution, which the Calculation Agent considers suitable (the "Successor Sponsor"), the applicable Interest Rate shall be calculated on the basis of the Index calculated and published by the Successor Sponsor. Any reference to Index Sponsor contained herein, shall, in this context, be deemed to refer to the Successor Sponsor.

If at any time the Index is cancelled and/or replaced by any other index, the Calculation Agent shall, in the reasonable discretion, determine the Index which the following calculation of the applicable Interest Rate will be based on (the "Successor Index"). The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Interest Determination Date. Any reference to the Index contained herein, shall, in this context, be deemed to refer to the Successor Index.

If according to the Calculation Agent's opinion (i) the determination of the Successor Index is, for whatever reason, not possible, or (ii) the Index Sponsor significantly changes the method of calculating the Index or the Index Sponsor significantly changes the Index in any other way, the Calculation Agent shall make further calculations and publications of the index level acting in good faith and in a commercially reasonable manner.

The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Redemption Determination Date. Any reference to the Index contained herein, shall, in this context, be deemed to refer to the Successor Index.

Im Falle, dass die Berechnungsstelle nach alleinigem Ermessen unter Beachtung von üblichen Marktregelungen in Bezug auf OTC Devisengeschäfte (FX Transaktionen) und unter Berücksichtigung des Grundsatzes von Treu und Glauben feststellt, dass an einem Beobachtungstermin ein Störungsereignis (wie nachstehend definiert) auftritt und fortbesteht, wird der Auto-Referenz-Wechselkurs von der Berechnungsstelle unter Berücksichtigung des Grundsatzes von Treu und Glauben und unter Beachtung von bester Marktpraxis bestimmt; nach Möglichkeit unter Verwendung des arithmetischen Mittels der erhaltenen verbindlichen Kurs-Quotierungen für die Umrechnung der Maßgeblichen Währung.

Für diesen Zweck wird die Berechnungsstelle am betreffenden Beobachtungstag von den Auto-Referenzbanken (wie nachstehend definiert) verbindliche Quotierungen für den Auto-Referenzwechselkurs erfragen.

Sofern mindestens vier Quotierungen mitgeteilt werden, ist der Auto-Referenz-Wechselkurs für das jeweilige Datum das arithmetische Mittel der mitgeteilten Quotierungen, ohne dabei die Quotierung mit dem höchsten und dem niedrigsten Wert zu berücksichtigen. Für diesen Zweck gilt, sofern mehr als eine Quotierung denselben höchsten oder niedrigsten Wert aufweist, dass nur eine dieser Quotierungen unberücksichtigt bleiben soll.

Sofern zwei oder drei Quotierungen mitgeteilt werden, ist der Auto-Referenz-Wechselkurs für das jeweilige Datum das arithmetische Mittel der mitgeteilten Quotierungen.

In the event that the Calculation Agent in its sole discretion by taking into consideration market practice in relation to OTC foreign exchange transactions (FX transactions) and by acting in good faith determines that a Disruption Event (as defined below) has occurred and is continuing on any Observation Date, then the Auto-Reference Exchange Rate will be determined by the Calculation Agent in good faith and in a commercially reasonable manner; if possible, by using the arithmetic mean of the firm quotes received for the conversion of the Relevant Currency.

For that purpose, on the relevant Observation Day, the Calculation Agent shall request the Auto-Reference Banks (as defined below) to quote binding offers for the Auto-Reference Exchange Rate.

If at least four quotations are provided, the rate of the Auto-Reference Exchange Rate for the relevant date will be the arithmetic mean of the quotations provided, without regard to the quotations having the highest and lowest value. For this purpose, if more than one quotation has the same highest value or lowest value, then only one of such quotations shall be disregarded.

If two or three quotations are provided, the rate of the Auto-Reference Exchange Rate for the relevant date will be the arithmetic mean of the quotations provided.

If fewer than two quotations are provided, the Auto-Reference Exchange Rate shall be determined by the Calculation Agent in its sole discretion by taking into consideration market practice in relation to OTC foreign exchange transactions (FX transactions) and by acting in good faith.

"**Disruption Event**", in respect of the Ordinary Senior Notes, means the occurrence of any of the following events:

GEMEINSAMER VERTRETER

(1) *Änderung der Bedingungen.* Die Gläubiger können entsprechend den Bestimmungen des Gesetzes über Schuldverschreibungen aus Gesamtemissionen (Schuldverschreibungsgesetz – "SchVG") durch einen Beschluss mit der in Absatz 2 bestimmten Mehrheit über einen im SchVG zugelassenen Gegenstand eine Änderung der Bedingungen mit der Emittentin vereinbaren. Die Mehrheitsbeschlüsse der Gläubiger sind für alle Gläubiger gleichermaßen verbindlich. Ein Mehrheitsbeschluss der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn, die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

(2) *Mehrheitserfordernisse.* Die Gläubiger entscheiden mit einer Mehrheit von 75% der an der Abstimmung teilnehmenden Stimmrechte. (3) *Abstimmung ohne Versammlung.* Alle Abstimmungen werden ausschließlich im Wege der Abstimmung ohne Versammlung durchgeführt. Eine Gläubigerversammlung und eine Übernahme der Kosten für eine solche Versammlung durch die Emittentin findet ausschließlich im Fall des § 18 Absatz 4 Satz 2 SchVG statt.

(4) *Leitung der Abstimmung.* Die Abstimmung wird von einem von der Emittentin beauftragten Notar oder, falls der gemeinsame Vertreter zur Abstimmung aufgefordert hat, vom gemeinsamen Vertreter geleitet.

(5) *Stimmrecht.* An Abstimmungen der Gläubiger nimmt jeder Gläubiger nach Maßgabe des Nennbetrags oder des rechnerischen Anteils seiner Berechtigung an den ausstehenden Schuldverschreibungen teil.

§ 12
AMENDMENT OF THE CONDITIONS,
HOLDERS' REPRESENTATIVE

(1) *Amendment of the Conditions.* In accordance with the German Act on Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen – "SchVG"*) the Holders may agree with the Issuer on amendments of the Conditions with regard to matters permitted by the SchVG by resolution with the majority specified in subparagraph (2) Majority resolutions shall be binding on all Holders. Resolutions which do not provide for identical conditions for all Holders are void, unless Holders who are disadvantaged have expressly consented to their being treated disadvantageously.

(2) *Majority.* Resolutions shall be passed by a majority of not less than 75 per cent of the votes cast. Resolutions relating to amendments of the Conditions which are not material and which do not relate to the matters listed in § 5 paragraph 3, Nos. 1 to 8 of the SchVG require a simple majority of the votes cast.

(3) *Vote without a Meeting.* All votes will be taken exclusively by vote taken without a meeting. A meeting of Holders and the assumption of the fees by the Issuer for such a meeting will only take place in the circumstances of § 18 paragraph 4 sentence 2 of the SchVG.

(4) *Chair of the Vote.* The vote will be chaired by a notary appointed by the Issuer or, if the Holders' Representative has convened the vote, by the Holders' Representative.

(5) *Voting Rights.* Each Holder participating in any vote shall cast votes in accordance with the principal amount or the notional share of its entitlement to the outstanding Notes.

(6) *Holdings' Representative.*

[If no Holders' Representative is designated in the Conditions: The Holders may by majority resolution appoint a common representative (the "Holdings' Representative") to exercise the Holders' rights on behalf of each Holder.]

Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn, der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

(7) *Ausschluss der Anwendbarkeit des österreichischen Kuratorengesetzes.* Die Anwendbarkeit der Bestimmungen des österreichischen Kuratorengesetzes und des österreichischen Kuratorenergänzungsgesetzes wird ausdrücklich hinsichtlich der Schuldverschreibungen ausgeschlossen.

§ 13 BEGEBUNG WEITERER SCHULDVERSCHREIBUNGEN, RÜCKKAUF UND ENTWERTUNG

(1) *Begebung weiterer Schuldverschreibungen.* Die Emittentin ist berechtigt, jederzeit ohne Zustimmung der Gläubiger weitere Schuldverschreibungen mit gleichen Bedingungen (gegebenenfalls mit Ausnahme des Tages der Begebung, des Verzinsungsbeginns und/oder des Ausgabepreises) in der Weise zu begeben, dass sie mit diesen Schuldverschreibungen eine einheitliche Serie bilden.

(2) *Rückkauf.* Die Emittentin ist berechtigt, Schuldverschreibungen im Markt oder anderweitig zu jedem beliebigen Preis zurückzukaufen. Die von der Emittentin zurückgekauften Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder [entwertet werden] [bei der [Emissionsstelle][Schweizer Hauptzahlstelle] zwecks Entwertung eingereicht werden].

The Holders' Representative shall have the duties and powers provided by law or granted by majority resolution of the Holders. The Holders' Representative shall comply with the instructions of the Holders. To the extent that the Holders' Representative has been authorised to assert certain rights of the Holders, the Holders shall not be entitled to assert such rights themselves, unless explicitly provided for in the relevant majority resolution. The Holders' Representative shall provide reports to the Holders on its activities. The regulations of the SchVG apply with regard to the recall and the other rights and obligations of the Holders' Representative.

(7) *Exclusion of the Applicability of the Austrian Notes Trustee Act.* The applicability of the provisions of the Austrian Notes Trustee Act (*Kuratorengesetz*) and the Austrian Notes Trustee Supplementation Act (*Kuratorenergänzungsgesetz*) is explicitly excluded in relation to the Notes.

§ 13 FURTHER ISSUES, REPURCHASES AND CANCELLATION

(1) *Further Issues.* The Issuer may from time to time, without the consent of the Holders, issue further Notes having the same Conditions as the Notes in all respects (or in all respects except for the issue date, interest commencement date and/or issue price) so as to form a single Series with the Notes.

(2) *Repurchases.* The Issuer may at any time repurchase Notes in any market or otherwise and at any price. Notes repurchased by the Issuer may, at the option of the Issuer, be held, resold or [cancelled] [surrendered to the [Fiscal Agent] [Swiss Principal Paying Agent] for cancellation].]

"HVPI" oder "Index" ist der unrevidierte Harmonisierte Verbraucherpreisindex (ohne Tabak) für die Euro-Zone (wie nachstehend definiert), der monatlich vom Statistischen Amt der Europäischen Gemeinschaft (nachfolgend "EUROSTAT" oder "Indexsponsor" genannt) berechnet wird, und welcher auf der Bildschirmseite am Zinsfestlegungstag (wie nachstehend definiert) veröffentlicht wird.

Falls die Bildschirmseite nicht länger existiert und keine offizielle Nachfolgeseite bekannt gegeben wird, wird die Berechnungsstelle eine alternative Referenz für den Index festlegen.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen Person, Gesellschaft oder Institution, die die Berechnungsstelle für geeignet hält (der "Nachfolgesponsor") berechnet und veröffentlicht, so wird der anwendbare Zinssatz auf der Grundlage des vom Nachfolgesponsor berechneten und veröffentlichten Index berechnet. Jede hier enthaltene Bezugnahme auf den Indexsponsor gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgesponsor.

Wird der Index zu irgendeiner Zeit aufgehoben und/oder durch einen anderen Index ersetzt, legt die Berechnungsstelle nach billigem Ermessen fest, welcher Index künftig für die Berechnung des anwendbaren Zinssatzes zugrunde zu legen ist (der "Nachfolgeindex"). Der Nachfolgeindex sowie der Zeitpunkt seiner erstmaligen Anwendung werden so bald wie möglich jedoch keinesfalls später als am Zinsfestlegungstag bekannt gemacht. Jede hier enthaltene Bezugnahme auf den Index gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den

"HICP" or "Index" is the unrevised Harmonised Index of Consumer Prices (excluding Tobacco) for the Euro-Zone (as defined below), which is calculated on a monthly basis by the statistical office of the European Union (the "EUROSTAT" or the "Index Sponsor") and published on the Screen Page on the Interest Determination Date (as defined below).

If the Screen Page ceases to exist and no official successor page is announced, the Calculation Agent will determine other reference with respect to the Index.

In case of any amendment of the published index level 24 hours after the first publication, the index level published first shall, in any case, be applicable to the calculation.

If the Index is not calculated and published by the Index Sponsor anymore but by another person, corporation or institution, which the Calculation Agent considers suitable (the "Successor Sponsor"), the applicable Interest Rate shall be calculated on the basis of the Index calculated and published by the Successor Sponsor. Any reference to Index Sponsor contained herein, shall, in this context, be deemed to refer to the Successor Sponsor.

If at any time the Index is cancelled and/or replaced by any other index, the Calculation Agent shall, in the reasonable discretion, determine the Index which the following calculation of the applicable Interest Rate will be based on (the "Successor Index"). The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Interest Determination Date. Any reference to the Index contained herein, shall, in this context, be deemed to refer to the Successor Index.

"HVPI" oder "Index" ist der unrevidierte Harmonisierte Verbraucherpreisindex (ohne Tabak) für die Euro-Zone (wie nachstehend definiert), der monatlich vom Statistischen Amt der Europäischen Gemeinschaft (nachfolgend "EUROSTAT" oder "Indexsponsor" genannt) berechnet wird, und welcher auf der Bildschirmseite am Rückzahlungsfestlegungstag veröffentlicht wird.

Falls die Bildschirmseite nicht länger existiert und keine offizielle Nachfolgeseite bekannt gegeben wird, wird die Berechnungsstelle eine alternative Referenz für den Index festlegen.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen Person, Gesellschaft oder Institution, die die Berechnungsstelle für geeignet hält (der "Nachfolgesponsor") berechnet und veröffentlicht, so wird der anwendbare Zinssatz auf der Grundlage des vom Nachfolgesponsor berechneten und veröffentlichten Index berechnet. Jede hier enthaltene Bezugnahme auf den Indexsponsor gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgesponsor.

Wird der Index zu irgendeiner Zeit aufgehoben und/oder durch einen anderen Index ersetzt, legt die Berechnungsstelle nach billigem Ermessen fest, welcher Index künftig für die Berechnung des anwendbaren Endgültigen Rückzahlungskurses zugrunde zu legen ist (der "Nachfolgeindex"). Der Nachfolgeindex sowie der Zeitpunkt seiner erstmaligen Anwendung werden so bald wie möglich jedoch keinesfalls später als am Rückzahlungsfestlegungstag bekannt gemacht. If the Screen Page ceases to exist and no official successor page is announced, the Calculation Agent will determine other reference with respect to the Index.

In case of any amendment of the published index level 24 hours after the first publication, the index level published first shall, in any case, be applicable to the calculation.

If the Index is not calculated and published by the Index Sponsor anymore but by another person, corporation or institution, which the Calculation Agent considers suitable (the "Successor Sponsor"), the applicable Final Redemption Rate shall be calculated on the basis of the Index calculated and published by the Successor Sponsor. Any reference to Index Sponsor contained herein, shall, in this context, be deemed to refer to the Successor Sponsor.

If at any time the Index is cancelled and/or replaced by any other index, the Calculation Agent shall, in the reasonable discretion, determine the Index which the following calculation of the applicable Final Redemption Rate will be based on (the "Successor Index"). The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Redemption Determination Date. [(5)][(6)] *Early Redemption for Regulatory Reasons.*

The Issuer may call the Subordinated Notes for redemption at any time, in whole but not in part, upon giving not more than [60] **[insert other number]** [Business Days'] [days'] nor less than [30] **[insert other number]** [Business Days'] [days'] prior notice in accordance with § 6[(7)][(8)] early and redeem the Subordinated Notes at their [Final Redemption Amount] [Early Redemption Amount], [together with interest (if any) accrued to but excluding the date fixed for Early Redemption] on the date fixed for Early Redemption, subject to Articles 77 *et seq.* CRR, if there is a change in the regulatory classification of the Subordinated Notes that would be likely to result in their exclusion from own funds [in full] or reclassification as a lower quality form of own funds and provided that the conditions laid down in § 6[(6)][(7)] (Conditions to Early Redemption and Repurchase) are met.

[(6)][(7)] *Conditions to Early Redemption and Repurchase.* Any Early Redemption pursuant to this § 6 and any repurchase pursuant to § 13(2) are subject to:

- (i) entweder die Emittentin die Nachrangigen Schuldverschreibungen durch Eigenmittelinstrumente zumindest gleicher Qualität zu Bedingungen ersetzt, die im Hinblick auf die Ertragsmöglichkeiten der Emittentin nachhaltig sind; oder
 - (ii) die Emittentin der Zuständigen Behörde hinreichend nachgewiesen hat, dass die Eigenmittel der Emittentin nach der Rückzahlung oder nach dem Rückkauf die Mindestanforderungen (einschließlich aller Kapitalpufferanforderungen) um eine Spanne übertreffen, die die Zuständige Behörde zu diesem Zeitpunkt für erforderlich hält; und
- (b) im Fall einer Rückzahlung vor fünf Jahren nach dem Ausgabetag der Nachrangigen Schuldverschreibungen:
- (i) aus steuerlichen Gründen gemäß § 6(4), die Emittentin der Zuständigen Behörde hinreichend nachgewiesen hat, dass die geltende Änderung der steuerlichen Behandlung wesentlich ist und zum Ausgabetag der Nachrangigen Schuldverschreibungen nicht vorherzusehen war; oder
 - (ii) aus aufsichtsrechtlichen Gründen gemäß § 6[(5)][(6)], die Zuständige Behörde diese Änderung für ausreichend sicher hält und die Emittentin der Zuständigen Behörde hinreichend nachgewiesen hat, dass die maßgebliche Änderung der aufsichtsrechtlichen Neueinstufung der Schuldverschreibungen zum Ausgabetag der Schuldverschreibungen nicht vorherzusehen war.

Ungeachtet der oben stehenden Bedingungen, falls zum Zeitpunkt einer Vorzeitigen Rückzahlung oder eines Rückkaufs die für die Emittentin geltenden anwendbaren Aufsichtsvorschriften die Vorzeitige Rückzahlung oder den Rückkauf nur nach Einhaltung von einer oder mehreren alternativen oder zusätzlichen Voraussetzungen zu den oben angegebenen erlaubt ist, wird die Emittentin diese (etwaigen) anderen und/oder, falls anwendbar, zusätzlichen Voraussetzungen erfüllen.

- (b) in the case of any redemption prior to the fifth anniversary of the date of issuance of the Subordinated Notes:
- (i) for reasons of taxation pursuant to § 6(4), the Issuer has demonstrated to the satisfaction of the Competent Authority that the applicable change in tax treatment is material and was not reasonably foreseeable as at the date of issuance of the Subordinated Notes; or
 - (ii) for regulatory reasons pursuant to § 6[(5)][(6)], the Competent Authority considers such change to be sufficiently certain and the Issuer has demonstrated to the satisfaction of the Competent Authority that the relevant change in the regulatory classification of the Subordinated Notes was not reasonably foreseeable as at the date of issuance of the Subordinated Notes.

Notwithstanding the above conditions, if, at the time of any Early Redemption or repurchase, the prevailing supervisory regulations applicable to the Issuer permit the Early Redemption or repurchase only after compliance with one or more alternative or additional pre-conditions to those set out above, the Issuer shall comply with such other and/or, as appropriate, additional pre-conditions, if any.

For the avoidance of doubt, any refusal of the

If such withholding or deduction is required by law, the Issuer will pay such additional amounts as will be necessary in order that the net amounts received by the Holders after such withholding or deduction will equal the respective amounts which would otherwise have been receivable in respect of the Subordinated Notes in the absence of such withholding or deduction (the "**Additional Amounts**"). However, no such Additional Amounts will be payable on account of any Taxes which:

(a) are payable by any person (including the Issuer) acting as custodian bank or collecting agent on behalf of a Holder, or by the Issuer if no custodian bank or collecting agent is appointed or otherwise in any manner which does not constitute a withholding or deduction by the Issuer from payments of principal or distributions made by it; or

(2) *FATCA Withholding.* The Issuer will be permitted to withhold or deduct any amounts required by the rules of U.S. Internal Revenue Code Sections 1471 through 1474 (or any amended or successor provisions), pursuant to any inter-governmental agreement, or implementing legislation adopted by another jurisdiction in connection with these provisions, or pursuant to any agreement with the U.S. Internal Revenue Service ("**FATCA Withholding**"). The Issuer will have no obligation to pay additional amounts or otherwise indemnify a Holder, beneficial owner or other intermediary for any such FATCA Withholding deducted or withheld by the Issuer, the paying agent or any other party.

Majority resolutions shall be binding on all Holders. Resolutions which do not provide for identical conditions for all Holders are void, unless Holders who are disadvantaged have expressly consented to their being treated disadvantageously. There will be no amendment of the Conditions without the Issuer's consent.

(2) *Majority.* Resolutions shall be passed by a majority of not less than 75 per cent of the votes cast. Resolutions relating to amendments of the Conditions which are not material and which do not relate to the matters listed in § 5 paragraph 3, Nos. 1 to 8 of the SchVG require a simple majority of the votes cast.

(3) *Vote without a Meeting.* All votes will be taken exclusively by vote taken without a meeting. A meeting of Holders and the assumption of the fees by the Issuer for such a meeting will only take place in the circumstances of § 18 paragraph 4 sentence 2 of

Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn, der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

To the extent that the Holders' Representative has been authorised to assert certain rights of the Holders, the Holders shall not be entitled to assert such rights themselves, unless explicitly provided for in the relevant majority resolution. The Holders' Representative shall provide reports to the Holders on its activities. The regulations of the SchVG apply with regard to the recall and the other rights and obligations of the Holders' Representative.

(7) *Exclusion of the Applicability of the Austrian Notes Trustee Act.* The applicability of the provisions of the Austrian Notes Trustee Act (*Kuratorengesetz*) and the Austrian Notes Trustee Supplementation Act (*Kuratorenergänzungsgesetz*) is explicitly excluded in relation to the Notes.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen Person, Gesellschaft oder Institution, die die Berechnungsstelle für geeignet hält (der "Nachfolgesponsor") berechnet und veröffentlicht, so wird der anwendbare Zinssatz auf der Grundlage des vom Nachfolgesponsor berechneten und veröffentlichten Index berechnet. If the Screen Page ceases to exist and no official successor page is announced, the Calculation Agent will determine other reference with respect to the Index.

In case of any amendment of the published index level 24 hours after the first publication, the index level published first shall, in any case, be applicable to the calculation.

If the Index is not calculated and published by the Index Sponsor anymore but by another person, corporation or institution, which the Calculation Agent considers suitable (the "Successor Sponsor"), the applicable Interest Rate shall be calculated on the basis of the Index calculated and published by the Successor Sponsor. Any reference to Index Sponsor contained herein, shall, in this context, be deemed to refer to the Successor Sponsor.

If at any time the Index is cancelled and/or replaced by any other index, the Calculation Agent shall, in the reasonable discretion, determine the Index which the following calculation of the applicable Interest Rate will be based on (the "Successor Index"). The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Interest Determination Date. Any reference to the Index contained herein, shall, in this context, be deemed to refer to the Successor Index.

If according to the Calculation Agent's opinion (i) the determination of the Successor Index is, for whatever reason, not possible, or (ii) the Index Sponsor significantly changes the method of calculating the Index [] or the Index Sponsor significantly changes the Index in any other way, the Calculation Agent shall make further calculations and publications of the index level acting in good faith and in a commercially reasonable manner.

Once the Permanent Global Note is deposited with the Intermediary and entered into the accounts of one or more participants of the Intermediary, the Notes will constitute intermediated securities (*Bucheffekten*) ("Intermediated Securities") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*). The records of the Intermediary will determine the number of Notes held through each participant in that Intermediary.

Each Holder shall have a proportionate co-ownership interest in the Permanent Global Note to the extent of his claim against the Issuer, provided that for so long as the Permanent Global Note remains deposited with the Intermediary the co-ownership interest shall be suspended and the Notes may only be transferred by the entry of the transferred Notes in a securities account of the transferee, as set out in the provisions of the Swiss Federal Intermediated Securities Act regarding the transfer of Intermediated Securities.

$$Ian(t) = [\text{Min} \{ \ }] [\text{Max} \{ \ }] (HICP(t) - HICP(t-1)) / HICP(t-1) [*100] [* Factor] [+][-] [Surcharge] [Reduction] [; Value }] [+][-] [Margin]$$

"HICP" or "Index" is the unrevised Harmonised Index of Consumer Prices (excluding Tobacco) for the Euro-Zone (as defined below), which is calculated on a monthly basis by the statistical office of the European Union (the "EUROSTAT" or the "Index Sponsor") and published on the Screen Page on the Interest Determination Date (as defined below).

If the Screen Page ceases to exist and no official successor page is announced, the Calculation Agent will determine other reference with respect to the Index.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen Person, Gesellschaft oder Institution, die die Berechnungsstelle für geeignet hält (der "Nachfolgesponsor") berechnet und veröffentlicht, so wird der anwendbare Zinssatz auf der Grundlage des vom Nachfolgesponsor berechneten und veröffentlichten Index berechnet. Jede hier enthaltene Bezugnahme auf den Indexsponsor gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgesponsor.

Wird der Index zu irgendeiner Zeit aufgehoben und/oder durch einen anderen Index ersetzt, legt die Berechnungsstelle nach billigem Ermessen fest, welcher Index künftig für die Berechnung des anwendbaren Zinssatzes zugrunde zu legen ist (der "Nachfolgeindex"). Der Nachfolgeindex sowie der Zeitpunkt seiner erstmaligen Anwendung werden so bald wie möglich jedoch keinesfalls später als am Zinsfestlegungstag bekannt gemacht. Jede hier enthaltene Bezugnahme auf den Index gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgeindex.

Ist nach Ansicht der Berechnungsstelle (i) die Festlegung eines Nachfolgeindex aus welchen Gründen auch immer nicht möglich, oder (ii) nimmt der Indexsponsor eine wesentliche Veränderung hinsichtlich der Berechnungsmethode zur Bestimmung des Index vor oder verändert der Indexsponsor den Index auf irgendeine andere Weise wesentlich, wird die Berechnungsstelle die Weiterrechnung und Veröffentlichung des Indexstandes unter Berücksichtigung des Grundsatzes von Treu und Glauben und in wirtschaftlich vernünftiger Art und Weise durchführen.

Oktober 1997, in seiner jeweiligen Fassung, eine einheitliche Währung eingeführt haben oder jeweils eingeführt haben werden.]]

[(3)] [Im Fall, dass ein Mindestzinssatz gilt, einfügen: Mindestzinssatz. Wenn der gemäß den obigen Bestimmungen für [die erste] [die [●]] [eine] Zinslaufperiode ermittelte Zinssatz niedriger ist

In case of any amendment of the published index level 24 hours after the first publication, the index level published first shall, in any case, be applicable to the calculation.

If the Index is not calculated and published by the Index Sponsor any more but by another person, corporation or institution, which the Calculation Agent considers suitable (the "Successor Sponsor"), the applicable Interest Rate shall be calculated on the basis of the Index calculated and published by the Successor Sponsor. Any reference to Index Sponsor contained herein, shall, in this context, be deemed to refer to the Successor Sponsor.

If at any time the Index is cancelled and/or replaced by any other index, the Calculation Agent shall, at its reasonable discretion, determine the Index which the following calculation of the applicable Interest Rate will be based on (the "Successor Index"). The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Interest Determination Date. Any reference to the Index contained herein, shall, in this context, be deemed to refer to the Successor Index.

If according to the Calculation Agent's opinion (i) the determination of the Successor Index is, for whatever reason, not possible, or (ii) the Index Sponsor significantly changes the method of calculating the Index or the Index Sponsor significantly changes the Index in any other way, the Calculation Agent shall make further calculations and publications of the index level acting in good faith and in a commercially reasonable manner.

Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Schuldverschreibungen zahlbaren Zinsenbetrag (der "Zinsenbetrag") für die entsprechende Zinsenlaufperiode berechnen. Der maßgebliche Zinsenbetrag wird ermittelt, indem der Zinssatz und der Zinsentscheidungsquotient (wie nachstehend definiert) auf [den ausstehenden Gesamtnennbetrag der Schuldverschreibungen][die festgelegte Stückelung] angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

The Calculation Agent will, on or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest and calculate the amount of interest (the "Interest Amount") payable on the Notes for the relevant Interest Period. The relevant Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to [the outstanding aggregate principal amount of the Notes] [the Specified Denomination] and rounding the resultant figure to the nearest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.

(c) *Variable[r] Zinsenzahlungstag[e]*.

Variable Zinsen auf die Schuldverschreibungen sind [an jedem][am] Variablen Zinsenzahlungstag zahlbar.

Variabler Zinsenzahlungstag bezeichnet jenen Geschäftstag, an welchem die Variablen Zinsen tatsächlich fällig und zahlbar sind. Dieser kann mit dem Variablen Kupontermin zusammenfallen, oder verschiebt sich – sollte der Variable Kupontermin auf einen Tag fallen, der kein Geschäftstag ist, aufgrund der zur Anwendung kommenden Anpassungsregel, wie in § 5[(4)][(5)][(6)] (Geschäftstageskonvention) bestimmt, auf den entsprechenden Geschäftstag.

(c) *Floating Interest Payment Date[s]*.

Interest on the Notes shall be payable on [each][the] Floating Interest Payment Date.

Floating Interest Payment Date means such Business Day, on which the floating interest is in fact due and payable. This may fall on the Floating Coupon Date or may shift to the appropriated Business Day – if the Floating Coupon Date falls on a day which is not a Business Day based on the application of the adjustment provision as set out in § 5[(4)][(5)][(6)] (Business Day Convention).

[In the case of [short] [long] Floating Interest Periods insert: [The [first] [last] Floating Interest Period is [shortened] [extended]; [first Floating Coupon Date is: **[insert first Floating Coupon Date]** [(("First Coupon Date"))]] [last Floating Coupon Date is: **[insert last Floating Coupon Date]** [(("Last Coupon Date"))]].]

"HVPI" oder "Index" ist der unrevidierte Harmonisierte Verbraucherpreisindex (ohne Tabak) für die Euro-Zone (wie nachstehend definiert), der monatlich vom Statistischen Amt der Europäischen Gemeinschaft (nachfolgend "EUROSTAT" oder "Indexsponsor" genannt) berechnet wird, und welcher auf der Bildschirmseite am Zinsfestlegungstag (wie nachstehend definiert) veröffentlicht wird.

Falls die Bildschirmseite nicht länger existiert und keine offizielle Nachfolgeseite bekannt gegeben wird, wird die Berechnungsstelle eine alternative Referenz für den Index festlegen.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen Person, Gesellschaft oder Institution, die die Berechnungsstelle für geeignet hält (der "Nachfolgesponsor") berechnet und veröffentlicht, so wird der anwendbare Zinssatz auf der Grundlage des vom Nachfolgesponsor berechneten und veröffentlichten Index berechnet. Jede hier enthaltene Bezugnahme auf den Indexsponsor gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgesponsor.

Wird der Index zu irgendeiner Zeit aufgehoben und/oder durch einen anderen Index ersetzt, legt die Berechnungsstelle nach billigem Ermessen fest, welcher Index künftig für die Berechnung des anwendbaren Zinssatzes zugrunde zu legen ist (der "Nachfolgeindex"). Der Nachfolgeindex sowie der Zeitpunkt seiner erstmaligen Anwendung werden so bald wie möglich jedoch keinesfalls später als am Zinsfestlegungstag bekannt gemacht. Jede hier enthaltene Bezugnahme auf den Index gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgeindex.

Ist nach Ansicht der Berechnungsstelle (i) die Festlegung eines Nachfolgeindex aus welchen Gründen auch immer nicht möglich, oder (ii) nimmt der Indexsponsor eine wesentliche Veränderung hinsichtlich der Berechnungsmethode zur Bestimmung des Index vor oder verändert der Indexsponsor den Index auf irgendeine andere Weise wesentlich, wird die Berechnungsstelle die Weiterrechnung und Veröffentlichung des Indexstandes unter Berücksichtigung des Grundsatzes von Treu und Glauben und in wirtschaftlich vernünftiger Art und Weise durchführen.

"HICP" or "Index" is the unrevised Harmonised Index of Consumer Prices (excluding Tobacco) for the Euro-Zone (as defined below), which is calculated on a monthly basis by the statistical office of the European Union (the "EUROSTAT" or the "Index Sponsor") and published on the Screen Page on the Interest Determination Date (as defined below).

If the Screen Page ceases to exist and no official successor page is announced, the Calculation Agent will determine other reference with respect to the Index.

In case of any amendment of the published index level 24 hours after the first publication, the index level published first shall, in any case, be applicable to the calculation.

If the Index is not calculated and published by the Index Sponsor anymore but by another person, corporation or institution, which the Calculation Agent considers suitable (the "Successor Sponsor"), the applicable Interest Rate shall be calculated on the basis of the Index calculated and published by the Successor Sponsor. Any reference to Index Sponsor contained herein, shall, in this context, be deemed to refer to the Successor Sponsor.

If at any time the Index is cancelled and/or replaced by any other index, the Calculation Agent shall, in the reasonable discretion, determine the Index which the following calculation of the applicable Interest Rate will be based on (the "Successor Index"). The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Interest Determination Date. Any reference to the Index contained herein, shall, in this context, be deemed to refer to the Successor Index.

If according to the Calculation Agent's opinion (i) the determination of the Successor Index is, for whatever reason, not possible, or (ii) the Index Sponsor significantly changes the method of calculating the Index or the Index Sponsor significantly changes the Index in any other way, the Calculation Agent shall make further calculations and publications of the index level acting in good faith and in a commercially reasonable manner.

"HVPI" oder "Index" ist der unrevidierte Harmonisierte Verbraucherpreisindex (ohne Tabak) für die Euro-Zone (wie nachstehend definiert), der monatlich vom Statistischen Amt der Europäischen Gemeinschaft (nachfolgend "EUROSTAT" oder "Indexsponsor" genannt) berechnet wird, und welcher auf der Bildschirmseite am Zinsfestlegungstag (wie nachstehend definiert) veröffentlicht wird.

Falls die Bildschirmseite nicht länger existiert und keine offizielle Nachfolgeseite bekannt gegeben wird, wird die Berechnungsstelle eine alternative Referenz für den Index festlegen.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Wird der Index nicht mehr vom Indexsponsor, sondern von einer anderen Person, Gesellschaft oder Institution, die die Berechnungsstelle für geeignet hält (der "Nachfolgesponsor") berechnet und veröffentlicht, so wird der anwendbare Zinssatz auf der Grundlage des vom Nachfolgesponsor berechneten und veröffentlichten Index berechnet. Jede hier enthaltene Bezugnahme auf den Indexsponsor gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgesponsor.

Wird der Index zu irgendeiner Zeit aufgehoben und/oder durch einen anderen Index ersetzt, legt die Berechnungsstelle nach billigem Ermessen fest, welcher Index künftig für die Berechnung des anwendbaren Zinssatzes zugrunde zu legen ist (der "Nachfolgeindex"). Der Nachfolgeindex sowie der Zeitpunkt seiner erstmaligen Anwendung werden so bald wie möglich jedoch keinesfalls später als am Zinsfestlegungstag bekannt gemacht. Jede hier enthaltene Bezugnahme auf den Index gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgeindex.

Ist nach Ansicht der Berechnungsstelle (i) die Festlegung eines Nachfolgeindex aus welchen Gründen auch immer nicht möglich, oder (ii) nimmt der Indexsponsor eine wesentliche Veränderung hinsichtlich der Berechnungsmethode zur Bestimmung des Index vor oder verändert der Indexsponsor den Index auf irgendeine andere Weise wesentlich, wird die Berechnungsstelle die Weiterrechnung und Veröffentlichung des Indexstandes unter Berücksichtigung des Grundsatzes von Treu und Glauben und in wirtschaftlich vernünftiger Art und Weise durchführen.

"HICP" or "Index" is the unrevised Harmonised Index of Consumer Prices (excluding Tobacco) for the Euro-Zone (as defined below), which is calculated on a monthly basis by the statistical office of the European Union (the "EUROSTAT" or the "Index Sponsor") and published on the Screen Page on the Interest Determination Date (as defined below).

If the Screen Page ceases to exist and no official successor page is announced, the Calculation Agent will determine other reference with respect to the Index.

In case of any amendment of the published index level 24 hours after the first publication, the index level published first shall, in any case, be applicable to the calculation.

If the Index is not calculated and published by the Index Sponsor anymore but by another person, corporation or institution, which the Calculation Agent considers suitable (the "Successor Sponsor"), the applicable Interest Rate shall be calculated on the basis of the Index calculated and published by the Successor Sponsor. Any reference to Index Sponsor contained herein, shall, in this context, be deemed to refer to the Successor Sponsor.

If at any time the Index is cancelled and/or replaced by any other index, the Calculation Agent shall, in the reasonable discretion, determine the Index which the following calculation of the applicable Interest Rate will be based on (the "Successor Index"). The Successor Index and the time of its first application will be announced as soon as possible but not later than on the Interest Determination Date. Any reference to the Index contained herein, shall, in this context, be deemed to refer to the Successor Index.

If according to the Calculation Agent's opinion (i) the determination of the Successor Index is, for whatever reason, not possible, or (ii) the Index Sponsor significantly changes the method of calculating the Index or the Index Sponsor significantly changes the Index in any other way, the Calculation Agent shall make further calculations and publications of the index level acting in good faith and in a commercially reasonable manner.

Falls die Bildschirmseite nicht länger existiert und keine offizielle Nachfolgeseite bekannt gegeben wird, wird die Berechnungsstelle eine alternative Referenz für den Index festlegen.

Im Fall einer Änderung eines veröffentlichten Indexstandes, der nach mehr als 24 Stunden nach der ersten Veröffentlichung erfolgt, soll in jedem Fall der zunächst ursprünglich veröffentlichte Indexstand zur Berechnung maßgeblich sein.

Jede hier enthaltene Bezugnahme auf den Indexsponsor gilt, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolgesponsor.

Wird der Index zu irgendeiner Zeit aufgehoben und/oder durch einen anderen Index ersetzt, legt die Berechnungsstelle nach billigem Ermessen fest, welcher Index künftig für die Berechnung des anwendbaren Endgültigen Rückzahlungskurses zugrunde zu legen ist (der "Nachfolgeindex"). Der Nachfolgeindex sowie der Zeitpunkt seiner erstmaligen Anwendung werden so bald wie möglich jedoch keinesfalls später als am Rückzahlungsfestlegungstag bekannt gemacht. However, no such Additional Amounts will be payable on account of any Taxes which:

The Issuer will have no obligation to pay additional amounts or otherwise indemnify a Holder, beneficial owner or other intermediary for any such FATCA Withholding deducted or withheld by the Issuer, the paying agent or any other party.

There will be no amendment of the Conditions without the Issuer's consent.

(2) *Majority.* Resolutions shall be passed by a majority of not less than 75 per cent of the votes cast. Resolutions relating to amendments of the Conditions which are not material and which do not relate to the matters listed in § 5 paragraph 3, Nos. 1 to 8 of the

Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn, der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

The Holder's Representative shall have the duties and powers provided by law or granted by majority resolution of the Holders. The Holder's Representative shall comply with the instructions of the Holders. To the extent that the Holder's Representative has been authorised to assert certain rights of the Holders, the Holders shall not be entitled to assert such rights themselves, unless explicitly provided for in the relevant majority resolution. The Holder's Representative shall provide reports to the Holders on its activities. The regulations of the SchVG apply with regard to the recall and the other rights and obligations of the Holder's Representative.

[In the case of Notes listed on the official list of the Luxembourg Stock Exchange or publicly offered in the Grand Duchy of Luxembourg, the Final Terms will be displayed on the website of the Luxembourg Stock Exchange (www.bourse.lu).]

[MiFID II PRODUCT GOVERNANCE / [PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES [ONLY] TARGET MARKET] [RETAIL INVESTORS TARGET MARKET] – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties[,] [and] professional clients [and retail clients][only], each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); and (ii) [all channels][insert as appropriate] for distribution of the Notes [is][are] appropriate [including investment advice, portfolio management, non-advised sales and pure execution services]. [Consider any negative target market] Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.][Insert further details on target market, client categories etc.]

MiFID II PRODUKTÜBERWACHUNGSPFLICHTEN / [ZIELMARKT PROFESSIONELLE INVESTOREN UND GEEIGNETE GEGENPARTEIEN] [ZIELMARKT KLEINANLEGER] – Die Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen hat – ausschließlich für den Zweck des Produktgenehmigungsverfahrens [des/jedes] Konzepteurs – zu dem Ergebnis geführt, dass (i) der Zielmarkt für die Schuldverschreibungen [ausschließlich] geeignete Gegenparteien[,] [und] professionelle Kunden [und Kleinanleger], jeweils im Sinne der Richtlinie 2014/65/EU (in der jeweils gültigen Fassung, "**MiFID II**"), umfasst; und (ii) [alle Kanäle][zutreffendes ergänzen] für den Vertrieb der Schuldverschreibungen angemessen [ist][sind] [einschließlich Anlageberatung, Portfolio-Management, Verkäufe ohne Beratung und reine Ausführungsdienstleistungen]. [Negativen Zielmarkt berücksichtigen] Jede Person, die in der Folge die Schuldverschreibungen anbietet, verkauft oder empfiehlt (ein "Vertriebsunternehmen") soll die Beurteilung des Zielmarkts [des/der] Konzepteur[s/e] berücksichtigen; ein Vertriebsunternehmen, welches MiFID II unterliegt, ist indes dafür verantwortlich, seine eigene Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen durchzuführen (entweder durch die Übernahme oder durch die Präzisierung der Zielmarktbestimmung [des/der] Konzepteur[s/e]) und angemessene Vertriebskanäle[nach Maßgabe der Pflichten des Vertriebsunternehmens unter MiFID II im Hinblick Geeignetheit bzw. Angemessenheit], zu bestimmen.][Weitere Details bezüglich Zielmarkt, Kundenkategorie etc. einfügen]]

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS] – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC ("**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.]

[VERTRIEBSVERBOT AN KLEINANLEGER IM EWR] – Die Schuldverschreibungen sind nicht dazu bestimmt, dass sie Kleinanleger im Europäischen Wirtschaftsraum ("**EWR**") angeboten, verkauft oder auf anderem Wege zur Verfügung gestellt werden und sollen dementsprechend an Kleinanleger im EWR nicht angeboten, verkauft oder auf anderem Wege zur Verfügung gestellt werden. Ein Kleinanleger im Sinne dieser Vorschrift ist eine Person, die mindestens einer der folgenden

*Kategorien zuzuordnen ist: (i) ein Kleinanleger im Sinne von Artikel 4 Absatz 1 Nummer 11 von Richtlinie 2014/65/EU ("**MiFID II**") ; oder (ii) ein Kunde im Sinne von Richtlinie 2002/92/EG ("**IMD**"), der nicht als professioneller Kunde im Sinne von Artikel 4 Absatz 1 Nummer 10 MiFID II einzustufen ist. Folglich wurde kein Informationsdokument, wie nach Verordnung (EU) Nr. 1286/2014 ("**PRIIPS Verordnung**") für Angebote, Vertrieb und die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger erforderlich, erstellt und dementsprechend könnte das Angebot, der Vertrieb oder die sonstige Zurverfügungstellung von Schuldverschreibungen an Kleinanleger nach der PRIIPS-Verordnung unzulässig sein.]*

38. Note that the designation "yes" simply means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper (and registered in the name of a nominee of one of the ICSDs acting as common safekeeper) or in any other way admissible pursuant to the Eurosystem eligibility criteria, and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met. **[Include this text if "yes" is selected in which case the Notes must be issued in NGN form or in any other form admissible pursuant to ECB eligibility criteria.]**

Whilst the designation is specified as "no" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them, the Notes may then be deposited with one of the ICSDs as common safekeeper (and registered in the name of a nominee of one of the ICSDs acting as common safekeeper) or in any other way admissible pursuant to Eurosystem eligibility criteria. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

Es ist zu beachten, dass die Bestimmung "Ja" lediglich bedeutet, dass beabsichtigt ist, die Schuldverschreibungen bei Begebung bei einer der ICSDs als gemeinsamer Verwahrer zu hinterlegen (und auf den Namen eines Nominees von einem der ICSDs als gemeinsamer Verwahrer einzutragen) oder in einer anderen nach den Eurosystemfähigkeitskriterien zulässigen Weise zu hinterlegen, und es bedeutet nicht notwendigerweise, dass die Schuldverschreibungen als geeignete Sicherheit im Sinne der Währungspolitik des Eurosystems und der taggleichen Überziehungen (intra-day credit operations) des Eurosystems bei Begebung oder zu irgendeinem Zeitpunkt während ihrer Existenz anerkannt werden. Eine solche Anerkennung wird vom Urteil der EZB abhängen, dass die Eurosystemfähigkeitskriterien erfüllt sind. [Text einfügen, wenn "Ja" gewählt wurde, in diesem Fall müssen die Schuldverschreibungen als NGN oder in einer anderen nach den Eurosystemfähigkeitskriterien zulässigen Form emittiert werden.]

Zwar ist die Bestimmung am Tag dieser Endgültigen Bedingungen mit "Nein" festgelegt worden, doch sollten die Eurosystemfähigkeitskriterien in der Zukunft derart geändert werden, dass die Schuldverschreibungen fähig sind diese einzuhalten, dann könnten die Schuldverschreibungen bei einer der ICSDs als gemeinsamer Verwahrer hinterlegt (und auf den Namen eines Nominees von einem der ICSDs als gemeinsamer Verwahrer eingetragen) oder in einer anderen nach den Eurosystemfähigkeitskriterien zulässigen Weise hinterlegt werden. Es ist zu beachten, dass dies nicht notwendigerweise bedeutet, dass die Schuldverschreibungen dann als geeignete Sicherheit im Sinne der Währungspolitik des Eurosystems und der taggleichen Überziehungen (intra-day credit operations) des Eurosystems zu irgendeinem Zeitpunkt während ihrer Existenz anerkannt werden. Eine solche Anerkennung wird vom Urteil der EZB abhängen, dass die Eurosystemfähigkeitskriterien erfüllt sind.

**DESCRIPTION OF COVERED BANK BONDS ACCORDING TO THE AUSTRIAN ACT ON
COVERED BANK BONDS
(GESETZ BETREFFEND FUNDIERTE BANKSCHULDVERSCHREIBUNGEN)**

Covered Bank Bonds (*Fundierte Bankschuldverschreibungen*) are notes issued according to the Austrian Act on Covered Bank Bonds, as amended ("*Gesetz betreffend fundierte Bankschuldverschreibungen*", "**FBSchVG**"). The following description of Covered Bank Bonds is based on the FBSchVG currently in effect, which is subject to change. In particular, there may be a change in the types of assets that are eligible for the cover pool. As a result, the Issuer could be entitled and/or obliged to adapt the composition of the cover pool accordingly.

Covered Bank Bonds may not be issued without the cover stipulated in the FBSchVG.

The Issuer is obliged to designate appropriate assets which thereafter constitute the cover pool (*Kautio* or *Deckungsstock*) for the Covered Bank Bonds and whose purpose is to create a distinct pool of assets to satisfy the claims of the Holders of Covered Bank Bonds and – in particular in case of insolvency of the Issuer – to preferentially satisfy the claims arising out of Covered Bank Bonds (as described below). The cover pool must at any time cover at least the redemption amount and interest of the outstanding Covered Bank Bonds as well as the administration costs which are expected to arise in case of insolvency of the Issuer. The articles of association of the Issuer may specify that the fair value (*Verkehrswert*) of the assets must cover at least the discounted present value (*Barwert*) of the Covered Bank Bonds outstanding plus an additional safety margin which has to be determined with due regard to market risks, and which shall amount to at least 2 per cent.

Assets which qualify for the cover pool include (i) claims and securities that are suitable for the investment of assets of minors, (ii) claims and securities which are secured by a pledge that is registered with a public register, (iii) claims against or guaranteed by the Republic of Austria, Austrian provinces or municipalities, a Member State of the European Economic Area, Switzerland and certain of their respective regional governments or local communities if, pursuant to Article 43(1)(b)(5) of Directive 2000/12/EC the competent authorities have assigned to them a risk weighting not exceeding 20 per cent, and (iv) securities issued or guaranteed by any of the aforementioned entities. A separate cover pool may be formed for Covered Bank Bonds covered by assets pursuant to items (iii) and (iv), and for other Covered Bank Bonds.

Further, the Cover Pool may include hedging (derivative) transactions if they serve to hedge future interest rate, foreign exchange or debtor default risks with respect to the relation of the cover pool assets to the Covered Bank Bonds, including in the case of the Issuer's insolvency.

Assets or parts of assets of another credit institution allocated to the cover pool are equivalent to assets of which the Issuer is the creditor, if it has been agreed in writing that they shall be held in trust by such other credit institution for the Issuer and it is ascertained that they comply with the provisions of the FBSchVG.

If the required coverage is not fully available, for instance in the case of repayment of an asset of the cover pool, or for any other reason, such shortfall shall be met by assets of the Issuer arising out of deposits maintained at a central bank of, or credit institution in, a Member State of the European Economic Area or member state of the OECD (other than states who have applied to restructure, or have during the past five years restructured, their external debt) or by cash (any and all, the Substitute Coverage). The Substitute Coverage must not exceed 15 per cent. of the aggregate amount of the outstanding Covered Bank Bonds.

The FBSchVG provides that any set-off against assets which belong to the cover pool is prohibited (other than the set-off as between claims arising under one and the same hedging agreement where the entire agreement pertains to the pool).

A Government Commissioner (*Regierungskommissär*) must be appointed who performs the duties provided in the FBSchVG. The Issuer may dispose of any asset of the cover pool only with the consent of the Government Commissioner.

In the event of insolvency proceedings against the Issuer the insolvency court will appoint a joint attorney (*Kurator*) for the purpose of representing the Holders of Covered Bank Bonds, as well as a Special Administrator for the administration of the cover pool. The entire cover pool is to be sold in accordance with the procedure set out in § 3 FBSchVG to an appropriate credit institution which then assumes all obligations under the Covered Bank Bonds, under the continued joint liability of the Issuer. Furthermore, the BaSAG implementing the BRRD defines secured liabilities (*besicherte Verbindlichkeiten*) as liabilities for which a security was provided, in particular, among others, Covered Bank Bonds under the FBSchVG to the extent that they are covered by the value of the security. In accordance with the BaSAG, such secured liabilities are deemed non-Eligible Notes for purposes of writing-down or converting Eligible Notes pursuant to the provisions of the BaSAG (so-called "bail-in tool"). Accordingly, Covered Bank Bonds shall not be subject to "bail-in" pursuant to the BaSAG as, and to the extent, the cover pool serves as collateral for the principal amount of the Covered Bank Bonds.

Should it be impossible to sell the entire cover pool and should the cover pool not be sufficient to satisfy all Holders of Covered Bank Bonds then the cover pool shall be liquidated (with the consent of the bankruptcy court). In such case all claims under the Covered Bank Bonds shall be deemed due. The claims of the Holders of Covered Bank Bonds shall be satisfied from the proceeds on a pro rata basis. Furthermore, Holders of Covered Bank Bonds would also have recourse to any assets of the Issuer outside the cover pool to the extent that their claims arising out of the Covered Bank Bonds are not satisfied. As regards these assets, Holders of Covered Bank Bonds would rank equally with other unsecured and unsubordinated creditors of the Issuer (and eventually also with other secured creditors in respect of any shortfall of such other creditor's security).

DESCRIPTION OF RULES REGARDING RESOLUTIONS OF HOLDERS

The Issuer may choose at its discretion to apply the provisions relating to resolutions of Holders under the German Act on Debt Securities (*Schuldverschreibungsgesetz* – "SchVG") for certain issues of Notes. In case the rules relating to resolutions of Holders are applicable, the Holders can agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed by taking votes without a meeting. Any such resolution duly adopted by resolution of the Holders shall be binding on each Holder of the respective issue of Notes, irrespective of whether such Holder took part in the vote and whether such Holder voted in favour or against such resolution.

The rules of the SchVG are, if applied by the Issuer, largely mandatory, although they permit in limited circumstances supplementary provisions set out in the Terms and Conditions.

The following is a brief overview of some of the statutory rules regarding the taking of votes without meetings and the convening and conduct of meetings of Holders, the passing and publication of resolutions as well as their implementation and challenge before German courts.

Specific Rules regarding Votes without Meeting

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) where a common representative of the Holders (the "**Holders' Representative**") has been appointed, the Holders' Representative if the vote was solicited by the Holders' Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Holders' votes shall set out the period within which votes may be cast. During such voting period, the Holders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Holder's entitlement to cast a vote based on evidence provided by such Holder and shall prepare a list of the Holders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Holders. Within one year following the end of the voting period, each Holder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Holder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, the person presiding over the taking of votes shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Holder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

Rules regarding Holders' Meetings applicable to Votes without Meeting

In addition, the statutory rules applicable to the convening and conduct of Holders' meetings will apply mutatis mutandis to any vote without a meeting. The following summarises some of such rules.

Meetings of Holders may be convened by the Issuer or the Holders' Representative, if any. Meetings of Holders must be convened if one or more Holders holding five per cent or more of the outstanding Notes so require for specified reasons permitted by statute.

The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Holder may be represented by proxy. A quorum exists if Holders' representing by value not less than 50 per cent of the outstanding Notes. If the quorum is not reached, a second meeting may be called at which no quorum will be required, provided that where a resolution may only be adopted by

a qualified majority, a quorum requires the presence of at least 25 per cent of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. In the case of Notes represented by one or more Global Notes, resolutions which amend or supplement the Terms and Conditions have to be implemented by supplementing or amending the relevant Global Note(s).

In insolvency proceedings instituted in Germany against an Issuer, a Holders' Representative, if appointed, is obliged and exclusively entitled to assert the Holders' rights under the Notes. Any resolutions passed by the Holders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of the statute or the Conditions, Holders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

Selling Restrictions

1. General

Each Dealer has agreed and each New Dealer appointed under the Programme will be required to represent and agree that it will comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes the Prospectus and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer and any other Dealer shall have any responsibility therefor. Neither the Issuer nor any of the Dealers has represented that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

With regard to each Tranche, the relevant Dealer(s) will be required to comply with such other additional restrictions as the Issuer and the relevant Dealer(s) shall agree and as shall be set out in the applicable Final Terms.

2. Public Offer Selling Restriction under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), each Dealer has represented and agreed, and each New Dealer appointed under the Programme will be required to represent and agree that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (i) if the Final Terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3 (2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the Competent Authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the Competent Authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purposes of that Non-exempt Offer;
- (ii) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (iii) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (iv) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (ii) to (iv) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication to persons in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State.

3. Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Notes specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each New Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. - (c) if such Dealer is a United States person, it represents that it is acquiring the Notes in bearer form for purposes of resale in connection with their original issuance and if such Dealer retains Notes in bearer form for its own account, it will only do so in accordance with the requirements of provisions identical to those described in the United States Treasury Regulation § 1.163-5(c)(2)(i)(D)(6);
- (d) it acknowledges that an offer or sale will be considered to be made in the United States or its possessions if it has an address within the United States or its possessions for the offeree or purchaser of a Note subject to such offer or sale; and

Each Dealer has represented and agreed that it has not offered, sold or delivered and will not offer, sell or deliver, directly or indirectly, Notes in bearer form within the United States or its possessions in connection with their original issuance. Further, each Dealer has represented and agreed in connection with the original issuance of Notes in bearer form, that it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if either such Dealer or purchaser is within the United States or its possessions and will not otherwise involve its U.S. office in the offer or sale of Notes in bearer form. Each Dealer has further represented that it has not advertised or promoted, and will not advertise or promote, directly or indirectly, any Notes in bearer form from or within the United States or its possessions or to prospective purchasers in the United States or its possessions. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the TEFRA C Rules.

Each issue of index, commodity- or currency-linked Notes shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer(s) may agree as a term of the issue and purchase of such Notes, which additional selling restrictions shall be set out in the Final Terms. Each Dealer has agreed that it shall offer, sell and deliver such Notes only in compliance with such additional U. S. selling restrictions.

6. Selling Restrictions Addressing Additional Netherlands Securities Laws

Each Dealer has represented and agreed, and each New Dealer appointed under the Programme will be required to represent and agree, that it will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in the Netherlands unless such offer of Notes is made in reliance on Article 3(2) of the Prospectus Directive and provided (i) such offer is made exclusively to persons or entities which are qualified investors (*gekwalificeerde beleggers*) as defined in Article 1:1 of the Dutch Financial

Supervision Act (*Wet op het financieel toezicht*, the "DFSA"), or (ii) standard exemption logo and wording are disclosed as required by Article 5:20(5) of the DFSA, or (iii) such offer is otherwise made in circumstances in which article 5:20(5) of the DFSA is not applicable; and in each case provided that no such offer of Notes shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each Dealer has represented and agreed, and each New Dealer appointed under the Programme will be required to represent and agree, that Zero Coupon Notes (as defined below) in definitive form of the Issuer may only be transferred and accepted, directly or indirectly, within, from or into the Netherlands through the mediation of either the Issuer or a member firm of Euronext Amsterdam N.V., with due observance of the Dutch Savings Certificates Act (*Wet inzake spaarbewijzen*) of 21 May 1985 (as amended) and its implementing regulations.

No such mediation is required in respect of: (a) the transfer and acceptance of rights representing an interest in a Zero Coupon Note in global form, or (b) the initial issue of Zero Coupon Notes in definitive form to the first holders thereof, or (c) the transfer and acceptance of Zero Coupon Notes in definitive form between individuals not acting in the conduct of a business or profession, or (d) the issue and trading of such Zero Coupon Notes within, from or into the Netherlands if all Zero Coupon Notes (either in definitive form or as rights representing an interest in the Zero Coupon Note in global form) of any particular Series are issued outside the Netherlands and are not distributed into the Netherlands in the course of their initial distribution or immediately thereafter.

In the event that the Dutch Savings Certificates Act applies, certain identification requirements in relation to the issue and transfer of, and payments on, Zero Coupon Notes have to be complied with and, in addition thereto, if such Zero Coupon Notes in definitive form do not qualify as commercial paper traded between professional borrowers and lenders within the meaning of the agreement of 2 February 1987, attached to the Royal Decree of 11 March 1987, (*Staatsblad 129*) (as amended), each transfer and acceptance should be recorded in a transaction note, including the name and address of each party to the transaction, the nature of the transaction and the details and serial numbers of such Zero Coupon Notes. For purposes of this paragraph "**Zero Coupon Notes**" means notes that are in bearer form and that constitute a claim for a fixed sum against the Issuer and on which interest does not become due during their tenor or on which no interest is due whatsoever.

- (a) if the Final Terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to article 3(2) of the Prospectus Directive as transposed by article 16 (3) of law No. 24/2017 on issuers of financial instruments and market operations (“**Law No. 24/2017**”) and article 18 (1) of the Financial Supervisory Regulation No. 5/2018 on issuers and operations with securities, following the date of publication of a prospectus in relation to such Notes which has been approved by the Competent Authority in Romania or, where appropriate, approved in another Member State and notified to the Romanian Financial Supervisory Authority, provided that any such prospectus has subsequently been completed by the final terms contemplating such offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of that offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive as transposed by article 2 para 21 of Law No. 24/2017 and article 2 para (2) letter o) of the Financial Supervisory Regulation No. 5/2018 on issuers and operations with securities;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive as transposed by article 2 para 21 of Law No. 24/2017 and article 2 para (2) letter o) of the Financial Supervisory Regulation No. 5/2018 on issuers and operations with securities), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time on the basis of any other exemptions from the obligation to prepare and publish a prospectus provided by article 3(2) of the Prospectus Directive as transposed by Article 16 (3) of Law No. 24/2017 and article 18 (1) of the Financial Supervisory Regulation No. 5/2018 on issuers and operations with securities,

provided that no such offer of Notes referred to in (a) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive as transposed by article 16 of Law No. 24/2017 on issuers of financial instruments and market operations, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive as transposed by article 12 of Law No. 24/2017 on issuers of financial instruments and market operations.

Any subsequent sale of the Notes in Romania, which were previously offered in the cases referred to in (b) to (d) above must be made in compliance with the public offer and the prospectus requirement rules and a new assessment of the application of any exemption from the requirement to prepare and publish a prospectus must be made.

For the purpose of this provision, the expression "public offer" in relation to any of the Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

TAXATION

The following is a general discussion of certain German, Luxembourg, Austrian, US American, Czech, Hungarian, Polish, Romanian, Slovakian and Swiss tax consequences of the acquisition, ownership and disposition of Notes. This discussion does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes. As each Tranche of Notes may be subject to a different tax treatment due to the specific terms of such Tranche of Notes as set out in the respective Final Terms, the following section only provides some very general information on the possible tax treatment. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This overview is based on the laws of Germany, the Grand Duchy of Luxembourg, Austria, the United States of America, the Czech Republic, the Slovak Republic, Switzerland, Poland, Hungary and Romania currently in force and as applied on the date of this document, which are subject to change, possibly with retroactive or retrospective effect. The information contained within this section are limited to taxation issues, and prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS OF GERMANY, THE GRAND DUCHY OF LUXEMBOURG, AUSTRIA, UNITED STATES OF AMERICA, THE CZECH REPUBLIC, SLOVAKIA, SWITZERLAND, POLAND, HUNGARY AND ROMANIA AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS.

1. Taxation in Germany

The following is a general discussion of certain German tax consequences of the acquisition, ownership and the sale, assignment or redemption of Notes and the receipt of interest thereon. It does not purport to be a comprehensive description of all tax considerations, which may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This overview is based on the laws of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

With regard to certain types of Notes, neither official statements of the tax authorities nor court decisions exist, and it is not clear how these Notes will be treated. Furthermore, there is often no consistent view in legal literature about the tax treatment of instruments like certain types of Notes, and it is neither intended nor possible to mention all different views in the following overview. Where reference is made to statements of the tax authorities, it should be noted that the tax authorities may change their view even with retroactive effect and that the tax courts are not bound by circulars of the tax authorities and, therefore, may take a different view. Even if court decisions exist with regard to certain types of Notes, it is not certain that the same reasoning will apply to the Notes due to certain peculiarities of such Notes. Furthermore, the tax authorities may restrict the application of judgements of tax courts to the individual case with regard to which the judgement was rendered.

As under this Programme different types of Notes may be issued, the tax treatment of such Notes can be different due to their specific terms. The following overview only provides some very generic information on the possible tax treatment of the Notes and has to be read in conjunction with the more specific information on the taxation as provided in the relevant Final Terms of each tranche of Notes. Furthermore, the taxation of the different types of Notes may differ from each other. The following overview only describes the tax treatment of Notes in general and certain particularities with respect to individual types of Notes.

It should also be noted that the following overview does not provide for information with respect to the tax treatment of any underlying (e.g. bonds, shares, funds) received upon a physical delivery under the Notes unless otherwise explicitly referred to. If in particular cases certain Notes should

qualify as equity or equity-like instruments from a German tax perspective different taxation rules than those as described in the following overview may apply to such Notes.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the German tax consequences of the acquisition, ownership and the sale, assignment or redemption of Notes and the receipt of interest thereon, including the effect of any state or local taxes, under the tax laws of Germany and each country of which they are residents or citizens or may otherwise be liable to tax. Only these advisers will be able to take into account appropriately the details relevant to the taxation of the respective holders of the Notes.

1.1 Tax Residents

Persons (individuals and corporate entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to income taxation (income tax or corporate income tax, as the case may be, plus solidarity surcharge thereon plus church tax and/or trade tax, if applicable) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Notes) and, in general, capital gains.

1.1.1 Private Investors

(a) Interest and Capital Gains

Interest payable on the Notes, if any, to persons holding the Notes as private assets ("**Private Investors**") who are tax residents of Germany (i.e. persons whose residence or habitual abode is located in Germany) qualifies as investment income (*Einkünfte aus Kapitalvermögen*) according to sec. 20 para. 1 of the German Income Tax Act (*Einkommensteuergesetz*) and is generally taxed at a separate tax rate of 25 per cent (*Abgeltungsteuer*, in the following also referred to as "**flat tax**"), plus 5.5 per cent solidarity surcharge thereon and, if applicable, church tax. Please note that the German government intends to abolish the 25% flat tax regime for interest income so that the respective income would be taxed with the personal progressive income tax rate of up to 45 per cent. (plus 5.5 per cent. solidarity surcharge thereon and church tax, if applicable). It is further intended to cancel the solidarity surcharge for smaller and average income as of 2021.

Capital gains from the sale, assignment or redemption of the Notes, including the original issue discount and interest having accrued up to the disposition of Notes and credited separately ("**Accrued Interest**", *Stückzinsen*), if any, qualify – irrespective of any holding period – as investment income pursuant to sec. 20 para. 2 of the German Income Tax Act and are also generally taxed at the flat tax rate of 25 per cent, plus 5.5 per cent solidarity surcharge thereon and, if applicable, church tax. If the Notes are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale.

Capital gains are determined by taking the difference between the sale, assignment or redemption price (after the deduction of expenses directly and factually related to the sale, assignment or redemption) and the issue or acquisition price of the Notes. Where the Notes are issued in a currency other than EUR the sale, assignment or redemption price and the acquisition costs have to be converted into EUR on the basis of the foreign exchange rates prevailing on the issue or acquisition date and the sale, assignment or redemption date respectively.

Expenses (other than such expenses directly and factually related to the sale, assignment or redemption) related to interest payments or capital gains under the Notes are – except for a standard lump sum (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for jointly assessed holders) – not deductible. "Negative interest" with respect to the Notes, if any, will be treated by the German tax authorities as non-deductible expenses.

According to the flat tax regime losses from the sale, assignment or redemption of the Notes can only be set-off against other investment income including capital gains. If the set-off is not possible in the assessment period in which the losses have been realised, such losses can only be carried forward into

future assessment periods and can be set-off against investment income including capital gains generated in these future assessment periods.

If a so-called other capital claim (*sonstige Kapitalforderung*) in the meaning of sec. 20 para. 1 no. 7 of the German Income Tax Act is not repaid in cash at the maturity date but the holder of such claim receives securities (*Wertpapiere*) instead of a repayment, sec. 20 para 4a sentence 3 of the German Income Tax Act construes the consideration for the acquisition of the other capital claim as its sales price. At the same time the consideration for the acquisition of the other capital claim is qualified as acquisition cost of the securities received, i.e. no taxable capital gain would be triggered due to the conversion. Sec. 20 para. 4a sentence 3 of the German Income Tax Act applies in particular to so-called full risk certificates (*Vollrisikozertifikate*), i.e. certain index or share basket etc. linked securities which do not provide for a guaranteed repayment or any capital yield, with a put offer (*Andienungsrecht*).

Further particularities apply with respect to full risk certificates with several payment dates. According to the decree of the German Federal Ministry of Finance (*Bundesfinanzministerium*) dated 18 January 2016 (IV C 1 – S 2252/08/10004:017) (as amended) all payments to the investor under such certificates that are made prior to the final maturity date shall qualify as taxable income from so-called other capital claim pursuant to sec. 20 para. 1 no. 7 German Income Tax Act, unless the offering terms and conditions stipulate that such payments shall be redemption payments. If there is no final redemption payment, the final maturity date shall not constitute a sale-like event in the meaning of sec. 20 para. 2 German Income Tax Act. Therefore, capital losses, if any, shall not be deductible. The same applies with respect to so-called knock-out and other certificates if the investor does not receive any payment at the final maturity date or the certificate will be prematurely cancelled according to its terms and conditions because the underlying reaches or breaks any knock-out threshold or barrier prior to the final maturity date. Although this decree only refers to certain types of certificates, it cannot be excluded that the tax authorities may apply the above described principles to other kinds of securities (such as the Notes) as well. However, according to the decrees dated 23 January 2017 (IV C 1 – S 2252/08/10004 :018) and 12 April 2018 (IV C 1 – S 2252/08/10004 :021) the German Federal Ministry of Finance now accepts losses in connection with the expiration of option rights (including options with knock out character) and respective warrants as well as certain derivative transactions which may also affect other financial instruments.

Further, the German Federal Ministry of Finance in its decree dated 18 January 2016 (IV C 1 – S 2252/08/10004:017) (as amended) has taken the position that a bad debt loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*) shall, in general, not be treated as a sale, so that losses suffered upon such bad debt loss or waiver shall not be deductible for tax purposes. Moreover, according to the decree dated 18 January 2016 (IV C 1 – S 2252/08/10004:017) (as amended) the German Federal Ministry of Finance holds the view that a disposal (*Veräußerung*) (and, as a consequence, a tax loss resulting from such disposal) shall not be recognised if (i) the sales price does not exceed the actual transaction cost or (ii) the level of transaction costs is restricted because of a mutual agreement that the transaction costs are calculated by subtracting a certain amount from the sales price. This view has however been challenged in 2014 by a final judgement of a German lower fiscal court. Furthermore, the German Federal Fiscal Court (BFH VIII R 13/15 of October 24, 2017) recently decided that a finally suffered bad debt loss (due to insolvency) is tax deductible; the court did not decide whether this also applies in case of debt waiver. The new ruling has not been officially published in the Federal Tax Gazette (*Bundessteuerblatt*) as this requires the coordination of the supreme tax authorities of the federation and the German states. As this has not taken place yet, the ruling should therefore not be applied apart from the specific case decided by the court (regional finance office North Rhine-Westphalia, information note (income tax) no. 01/2018 dated 23 January 2018).

If the Issuer exercises the right to substitute the debtor of the Notes, the substitution might, for German tax purposes, be treated as an exchange of the Notes for new notes issued by the new debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors.

(b) *Withholding*

If the Notes are held in custody with or administrated by a German credit institution, financial services institution (including a German permanent establishment of such foreign institution), securities trading company or securities trading bank (the "Disbursing Agent"), the flat tax at a rate of 25 per cent (plus 5.5 per cent solidarity surcharge thereon and, if applicable, church tax) will be withheld by the Disbursing Agent on interest payments and the excess of the proceeds from the sale, assignment or redemption (after the deduction of expenses directly and factually related to the sale, assignment or redemption) over the issue or acquisition costs for the Notes (if applicable converted into EUR terms on the basis of the foreign exchange rates as of the issue or acquisition date and the sale, assignment or redemption date respectively). Church tax is collected by way of withholding as a standard procedure unless the Private Investor filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

The Disbursing Agent will provide for the set-off of losses with current investment income including capital gains from other securities. If, in the absence of sufficient current investment income derived through the same Disbursing Agent, a set-off is not possible, the holder of the Notes may – instead of having a loss carried forward into the following year – file an application with the Disbursing Agent until 15 December of the current fiscal year for a certification of losses in order to set-off such losses with investment income derived through other institutions in the holder's personal income tax return.

If custody has changed since the acquisition and the acquisition data is not proved as required by sec. 43a para. 2 German Income Tax Act or not relevant, the flat tax rate of 25 per cent (plus 5.5 per cent solidarity surcharge thereon and, if applicable, church tax) will be imposed on an amount equal to 30 per cent of the proceeds from the sale, assignment or redemption of the Notes.

In the course of the tax withholding provided for by the Disbursing Agent foreign taxes may be credited in accordance with an applicable double taxation treaty and the German Income Tax Act.

If the Notes are not kept in a custodial account with a Disbursing Agent, the flat tax will – by way of withholding – apply on interest paid by a Disbursing Agent upon presentation of a coupon (whether or not presented with the Note to which it appertains) to a holder of such coupon (other than a non-German bank or financial services institution) (*Tafelgeschäft*), if any. In this case proceeds from the sale, assignment or redemption of the Notes will also be subject to the withholding of the flat tax.

In general, no flat tax will be levied if the holder of the Notes has filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent (in the maximum amount of the standard lump sum of EUR 801 (EUR 1,602 for jointly assessed holders)) to the extent the income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no flat tax will be deducted if the holder of the Notes has submitted to the Disbursing Agent a valid certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the competent local tax office.

For Private Investors the flat tax withheld is, in general, definitive. Exceptions apply e.g., if and to the extent the actual investment income exceeds the amount which was determined as the basis for the withholding of the flat tax by the Disbursing Agent. In such case, the exceeding amount of investment income must be included in the Private Investor's income tax return and will be subject to the flat tax in the course of the assessment procedure. According to the decree of the German Federal Ministry of Finance dated 18 January 2016 (IV C 1 – S 2252/08/10004:017) (as amended), however, any exceeding amount of not more than EUR 500 per assessment period may not be claimed on grounds of equity, provided that no other reasons for an assessment according to sec. 32d para. 3 of the German Income Tax Act exist. According to sec. 32d para. 2 no. 1 of the German Income Tax Act the flat tax rate is also not available in situations where an abuse of the flat tax rate is assumed (e.g. "back-to-back" financing). Further, Private Investors may request that their total investment income, together with their other income, be subject to taxation at their personal, progressive income tax rate rather than the flat tax rate, if this results in a lower tax liability. In order to prove such capital

investment income and the withheld flat tax thereon the investor may request a respective certificate in the officially required form from the Disbursing Agent.

Investment income not subject to the withholding flat tax (e.g. since there is no Disbursing Agent) must be included in the personal income tax return and will be subject to the flat tax rate of 25 per cent (plus 5.5 per cent solidarity surcharge thereon and, if applicable, church tax), unless the investor requests the investment income to be subject to taxation at lower personal, progressive income tax rate. Foreign taxes may be credited in accordance with an applicable double taxation treaty and the German Income Tax Act.

Under current German tax law, there is generally no source withholding tax (*Quellensteuer*) to be withheld by the Issuer. The flat tax (*Abgeltungsteuer*) which is withheld by the Disbursing Agent is not deemed to be such source withholding tax. On this basis, the Issuer is, in general, not obliged to levy the flat tax in respect of payments on the Notes.

1.1.2 Business Investors

Interest payable on the Notes to persons holding the Notes as business assets ("**Business Investors**") who are tax residents of Germany (i.e. Business Investors whose residence, habitual abode, statutory seat or place of effective management and control is located in Germany) and capital gains, including the original issue discount and Accrued Interest, if any, from the sale, assignment or redemption of the Notes are subject to corporate income tax or income tax, as the case may be, (each plus solidarity surcharge thereon, and, if applicable, church tax) in the hands of a Business Investor at the investor's personal tax rate and also have to be considered for trade tax purposes. Losses from the sale, assignment or redemption of the Notes, are generally recognised for tax purposes (this may be different, if certain (e.g. index linked) Notes would have to be qualified as derivative transactions).

If instead of a cash-settlement at maturity of Notes, the holder of such Notes receives securities, such delivery would be regarded as a taxable sale of the Notes and the corresponding capital gain will be taxable.

The withholding tax, if any, including a solidarity surcharge thereon, is credited as a prepayment against the Business Investors' corporate or personal income tax liability and the solidarity surcharge in the course of the tax assessment procedure, i.e. the withholding tax is not definitive. Any potential surplus will be refunded. However, in general and subject to further requirements, no withholding deduction will apply on capital gains from the sale, assignment or redemption of the Notes and in the case of derivative transactions if (i) the Notes are held by a corporation, association or estate in terms of sec. 43 para. 2 sentence 3 no. 1 of the German Income Tax Act or (ii) the proceeds from the Notes qualify as income of a domestic business and the investor notifies this to the Disbursing Agent by use of the required official form according to sec. 43 para. 2 sentence 3 no. 2 of the German Income Tax Act (*Erklärung zur Freistellung vom Kapitalertragsteuerabzug*).

Foreign taxes may be credited in accordance with an applicable double taxation treaty and the German Income Tax Act. Alternatively, foreign taxes may also be deducted from the tax base for German income tax purposes.

1.2 Non-residents

Interest payable on the Notes and capital gains, including Accrued Interest, if any, are not subject to German taxation, unless (i) the Notes form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the holder of the Notes; (ii) the interest income otherwise constitutes German-source income; or (iii) the Notes are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the sale, assignment or redemption of the Notes are paid by a Disbursing Agent upon presentation of a coupon to a holder of such coupon (other than a non-German bank or financial services institution) (*Tafelgeschäft*), if any. In the cases (i), (ii) and (iii) a tax regime similar to that explained above under "Tax Residents" applies.

Non-residents of Germany are, as a rule, exempt from German withholding tax on interest and the solidarity surcharge thereon, even if the Notes are held in custody with a Disbursing Agent. However, where the interest income is subject to German taxation as set forth in the preceding paragraph and the Notes are held in a custodial account with a Disbursing Agent or in case of a Tafelgeschäft, withholding flat tax is levied as explained above under "Tax Residents".

The withholding tax may be refunded based upon an applicable double taxation treaty or German national tax law.

For derivative transactions, similar rules apply as described in the preceding paragraphs. In this respect, it should be noted that according to the decree dated 23 January 2017 (IV C 1 – S 2252/08/10004 :018) the German Federal Ministry of Finance now accepts losses in connection with the expiration of option rights (including options with knock out character) and respective warrants as well as certain derivative transactions which may also affect other financial instruments.

1.3 Inheritance and Gift Tax

No inheritance or gift taxes with respect to the Notes will arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Notes are not attributable to a German trade or business for which a permanent establishment is maintained or a permanent representative has been appointed in Germany. Exceptions from this rule apply to certain German expatriates.

1.4 Other Taxes

No stamp, issue, registration or similar taxes or duties are payable in Germany in connection with the issuance, delivery, execution or conversion of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany. It is intended to introduce a financial transaction tax, but the timing and form are not yet clear.

2. Taxation in Luxembourg

The following is a general description of certain Luxembourg withholding tax considerations relating to the Notes. It does not address any other Luxembourg tax aspects of acquiring, holding or disposing of the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in Luxembourg or elsewhere. It is included herein solely for preliminary information purposes and is not intended to be, nor should it construed to be, legal or tax advice. Prospective purchasers of the Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of the Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of Luxembourg.

This overview is based upon the Luxembourg law and regulations as in effect and as interpreted by the Luxembourg tax authorities on the date of this Base Prospectus and is subject to any amendments in law (or in interpretation) later introduced, whether or not on a retroactive basis. The information contained within this section is limited to withholding taxation issues, and prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature refers to Luxembourg tax law and/or concepts only.

The Issuer, in its capacity as debtor, is not responsible for the withholding of the tax levied in Luxembourg, if any, and therefore assumes no responsibility for the withholding of taxes at the source.

2.1 Tax residency

A holder of the Notes will not become resident, nor be deemed to be resident, in Luxembourg solely by virtue of holding and/or disposing of Notes or the execution, performance, delivery and/or enforcement of his/her rights thereunder.

2.2 Non-resident holders of the Notes

Under Luxembourg tax laws currently in force, all payments of interest (including accrued but unpaid interest) and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Notes are free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law.

2.3 Resident individual holders of the Notes

Under the amended law of 23 December 2005 (the "**Relibi Law**"), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is resident in Luxembourg will be subject to a withholding tax. This withholding tax also applies on accrued interest received upon disposal, redemption or repurchase of the Notes. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Payments of interest under the Notes coming within the scope of the Relibi Law would be subject to withholding tax of 20 per cent.

Further, pursuant to the Relibi Law, Luxembourg resident individuals who are the beneficial owners of interest payments and other similar income made by a paying agent established outside Luxembourg, in a Member State of either the European Union or the European Economic Area, can opt to self declare and pay a 20 per cent levy. In such case, the 20 per cent levy is calculated on the same amounts as for the payments made by Luxembourg resident paying agents. The option for the 20 per cent levy must cover all interest payments made by the paying agent to the Luxembourg resident beneficial owner during the entire civil year.

In each case described above, responsibility for the withholding tax is assumed by the Luxembourg paying agent and not by the Issuer.

3. Taxation in Austria

This section on taxation contains a brief summary of the Issuer's understanding with regard to certain important principles which are of significance in connection with the purchase, holding or sale of the Notes in Austria. This summary does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal or tax advice. This summary is based on the currently applicable tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation, all of which may be amended from time to time. Such amendments may possibly also be effected with retroactive effect and may negatively impact on the tax consequences described. It is recommended that potential investors in the Notes consult with their legal and tax advisors as to the tax consequences of the purchase, holding or sale of the Notes. Tax risks resulting from the Notes (in particular from a potential qualification as equity for tax purposes instead of debt) shall in any case be borne by the investor. For the purposes of the following it is assumed that the Notes are legally and factually offered to an indefinite number of persons.

General remarks

Individuals having a domicile (*Wohnsitz*) and/or their habitual abode (*gewöhnlicher Aufenthalt*), both as defined in § 26 of the Austrian Federal Fiscal Procedures Act (*Bundesabgabenordnung*), in Austria

are subject to income tax (*Einkommensteuer*) in Austria on their worldwide income (unlimited income tax liability; *unbeschränkte Einkommensteuerpflicht*). Individuals having neither a domicile nor their habitual abode in Austria are subject to income tax only on income from certain Austrian sources (limited income tax liability; *beschränkte Einkommensteuerpflicht*).

Corporations having their place of management (*Ort der Geschäftsleitung*) and/or their legal seat (*Sitz*), both as defined in § 27 of the Austrian Federal Fiscal Procedures Act, in Austria are subject to corporate income tax (*Körperschaftsteuer*) in Austria on their worldwide income (unlimited corporate income tax liability; *unbeschränkte Körperschaftsteuerpflicht*). Corporations having neither their place of management nor their legal seat in Austria are subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability; *beschränkte Körperschaftsteuerpflicht*).

Both in case of unlimited and limited (corporate) income tax liability Austria's right to tax may be restricted by double taxation treaties.

Income taxation

Pursuant to § 27(1) of the Austrian Income Tax Act (*Einkommensteuergesetz*), the term investment income (*Einkünfte aus Kapitalvermögen*) comprises:

- income from the letting of capital (*Einkünfte aus der Überlassung von Kapital*) pursuant to § 27(2) of the Austrian Income Tax Act, including dividends and interest; the tax basis is the amount of the earnings received (§ 27a(3)(1) of the Austrian Income Tax Act);
- income from realised increases in value (*Einkünfte aus realisierten Wertsteigerungen*) pursuant to § 27(3) of the Austrian Income Tax Act, including gains from the alienation, redemption and other realisation of assets that lead to income from the letting of capital (including zero coupon bonds); the tax basis amounts to the sales proceeds or the redemption amount minus the acquisition costs, in each case including accrued interest (§ 27a(3)(2)(a) of the Austrian Income Tax Act); and
- income from derivatives (*Einkünfte aus Derivaten*) pursuant to § 27(4) of the Austrian Income Tax Act, including cash settlements, option premiums received and income from the sale or other realisation of forward contracts like options, futures and swaps and other derivatives such as index certificates (the mere exercise of an option does not trigger tax liability); e.g., in the case of index certificates, the tax basis amounts to the sales proceeds or the redemption amount minus the acquisition costs (§ 27a(3)(3)(c) of the Austrian Income Tax Act).

Also the withdrawal of the Notes from a securities account (*Depotentnahme*) and circumstances leading to a restriction of Austria's taxation right regarding the Notes *vis-à-vis* other countries, e.g. a relocation from Austria (*Wegzug*), are in general deemed to constitute a sale (*cf.* § 27(6)(1) and (2) of the Austrian Income Tax Act). The tax basis amounts to the fair market value minus the acquisition costs (§ 27a(3)(2)(b) of the Austrian Income Tax Act).

Individuals subject to unlimited income tax liability in Austria holding the Notes as non-business assets are subject to income tax on all resulting investment income pursuant to § 27(1) of the Austrian Income Tax Act. Investment income from the Notes with an Austrian nexus (*inländische Einkünfte aus Kapitalvermögen*), basically meaning income paid by an Austrian paying agent (*auszahlende Stelle*) or an Austrian custodian agent (*depotführende Stelle*), is subject to withholding tax (*Kapitalertragsteuer*) at a flat rate of 27.5 per cent; no additional income tax is levied over and above the amount of tax withheld (final taxation pursuant to § 97(1) of the Austrian Income Tax Act). Investment income from the Notes without an Austrian nexus must be included in the investor's income tax return and is subject to income tax at the flat rate of 27.5 per cent. In both cases upon application the option exists to tax all income subject to income tax at a flat rate pursuant to § 27a(1) of the Austrian Income Tax Act at the (lower) progressive income tax rate (option to regular taxation

pursuant to § 27a(5) of the Austrian Income Tax Act). The acquisition costs must not include ancillary acquisition costs (*Anschaffungsnebenkosten*; § 27a(4)(2) of the Austrian Income Tax Act). Expenses such as bank charges and custody fees must not be deducted (§ 20(2) of the Austrian Income Tax Act); this also applies if the option to regular taxation is exercised. § 27(8) of the Austrian Income Tax Act, *inter alia*, provides for the following restrictions on the offsetting of losses: negative income from realised increases in value and from derivatives may be neither offset against interest from bank accounts and other non-securitized claims *vis-à-vis* credit institutions (except for cash settlements and lending fees) nor against income from private foundations, foreign private law foundations and other comparable legal estates (*Privatstiftungen, ausländische Stiftungen oder sonstige Vermögensmassen, die mit einer Privatstiftung vergleichbar sind*); income subject to income tax at a flat rate pursuant to § 27a(1) of the Austrian Income Tax Act may not be offset against income subject to the progressive income tax rate (this equally applies in case of an exercise of the option to regular taxation); negative investment income not already offset against positive investment income may not be offset against other types of income. Losses must not be carried forward to subsequent years. The Austrian custodian agent has to effect the offsetting of losses by taking into account all of a taxpayer's securities accounts with the custodian agent, in line with § 93(6) of the Austrian Income Tax Act, and to issue a written confirmation to the taxpayer to this effect.

Individuals subject to unlimited income tax liability in Austria holding the Notes as business assets are subject to income tax on all resulting investment income pursuant to § 27(1) of the Austrian Income Tax Act. Investment income from the Notes with an Austrian nexus is subject to withholding tax at a flat rate of 27.5 per cent. While withholding tax has the effect of final taxation for income from the letting of capital, income from realised increases in value and income from derivatives must be included in the investor's income tax return (nevertheless income tax at the flat rate of 27.5 per cent). Investment income from the Notes without an Austrian nexus must always be included in the investor's income tax return and is subject to income tax at the flat rate of 27.5 per cent. In both cases upon application the option exists to tax all income subject to income tax at a flat rate pursuant to § 27a(1) of the Austrian Income Tax Act at the (lower) progressive income tax rate (option to regular taxation pursuant to § 27a(5) of the Austrian Income Tax Act). Expenses such as bank charges and custody fees must not be deducted (§ 20(2) of the Austrian Income Tax Act); this also applies if the option to regular taxation is exercised. Pursuant to § 6(2)(c) of the Austrian Income Tax Act, depreciations to the lower fair market value and losses from the alienation, redemption and other realisation of financial assets and derivatives in the sense of § 27(3) and (4) of the Austrian Income Tax Act, which are subject to income tax at the flat rate of 27.5 per cent, are primarily to be offset against income from realised increases in value of such financial assets and derivatives and with appreciations in value of such assets within the same business unit (*Wirtschaftsgüter desselben Betriebes*); only 55 per cent of the remaining negative difference may be offset against other types of income. The flat tax rate does not apply to income from realised increases in value and income from derivatives if realizing these types of income constitutes a key area of the respective investor's business activity (§ 27a(6) of the Austrian Income Tax Act).

Pursuant to § 7(2) of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*), corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on income in the sense of § 27(1) of the Austrian Income Tax Act from the Notes at a rate of 25 per cent (§ 22(1) of the Austrian Corporate Income Tax Act). Income in the sense of § 27(1) of the Austrian Income Tax Act from the Notes with an Austrian nexus is generally subject to withholding tax at a flat rate of 27.5 per cent. However, pursuant to § 93(1a) of the Austrian Income Tax Act, the withholding agent may apply a 25 per cent. rate if the debtor of the withholding tax is a corporation. Such withholding tax can be credited against the corporate income tax liability. Under the conditions set forth in § 94(5) of the Austrian Income Tax Act withholding tax is not levied in the first place. Losses from the alienation of the Notes can be offset against other income.

Pursuant to § 13(3)(1) in connection with § 22(2) of the Austrian Corporate Income Tax Act, private foundations (*Privatstiftungen*) pursuant to the Austrian Private Foundations Act (*Privatstiftungsgesetz*) fulfilling the prerequisites contained in § 13(3) and (6) of the Austrian Corporate Income Tax Act and holding the Notes as non-business assets are subject to interim

taxation at a rate of 25 per cent on interest income, income from realised increases in value and income from derivatives (*inter alia*, if the latter are in the form of securities). Pursuant to the Austrian tax authorities' view, the acquisition costs must not include ancillary acquisition costs. Expenses such as bank charges and custody fees must not be deducted (§ 12(2) of the Austrian Corporate Income Tax Act). Interim tax is generally not triggered insofar as distributions subject to withholding tax are made to beneficiaries in the same tax period. Investment income from the Notes with an Austrian nexus is generally subject to withholding tax at a flat rate of 27.5 per cent. However, pursuant to § 93(1a) of the Austrian Income Tax Act, the withholding agent may apply a 25 per cent rate if the debtor of the withholding tax is a corporation. Such withholding tax can be credited against the tax triggered. Under the conditions set forth in § 94(12) of the Austrian Income Tax Act withholding tax is not levied.

Individuals and corporations subject to limited (corporate) income tax liability in Austria are taxable on income from the Notes if they have a permanent establishment (*Betriebsstätte*) in Austria and the Notes are attributable to such permanent establishment (*cf.* § 98(1)(3) of the Austrian Income Tax Act, § 21(1)(1) of the Austrian Corporate Income Tax Act). In addition, individuals subject to limited income tax liability in Austria are also taxable on interest in the sense of § 27(2)(2) of the Austrian Income Tax Act and accrued interest (including from zero coupon bonds) in the sense of § 27(6)(5) of the Austrian Income Tax Act from the Notes if the (accrued) interest has an Austrian nexus and if withholding tax is levied on such (accrued) interest. This does not apply to individuals being resident in a state with which automatic exchange of information exists (in this case however, the individual has to prove the tax residency in such state by providing a certificate of residence). Interest with an Austrian nexus is interest the debtor of which has its place of management and/or its legal seat in Austria or is an Austrian branch of a non-Austrian credit institution; accrued interest with an Austrian nexus is accrued interest from securities issued by an Austrian issuer (§ 98(1)(5)(b) of the Austrian Income Tax Act). Under applicable double taxation treaties, relief from Austrian income tax might be available. However, Austrian credit institutions must not provide for such relief at source; instead, the investor may file an application for repayment of tax with the competent Austrian tax office.

Inheritance and gift taxation

Austria does not levy inheritance or gift tax.

Certain gratuitous transfers of assets to private law foundations and comparable legal estates (*privatrechtliche Stiftungen und damit vergleichbare Vermögensmassen*) are subject to foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Austrian Foundation Transfer Tax Act (*Stiftungseingangssteuergesetz*) if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat and/or their place of management in Austria. Certain exemptions apply in cases of transfers *mortis causa* of financial assets within the meaning of § 27(3) and (4) of the Austrian Income Tax Act (except for participations in corporations) if income from such financial assets is subject to income tax at a flat rate pursuant to § 27a(1) of the Austrian Income Tax Act. The tax basis is the fair market value of the assets transferred minus any debts, calculated at the time of transfer. The tax rate generally is 2.5 per cent, with higher rates applying in special cases.

In addition, there is a special notification obligation for gifts of money, receivables, shares in corporations, participations in partnerships, businesses, movable tangible assets and intangibles if the donor and/or the donee have a domicile, their habitual abode, their legal seat and/or their place of management in Austria. Not all gifts are covered by the notification obligation: In case of gifts to certain related parties, a threshold of EUR 50,000 per year applies; in all other cases, a notification is obligatory if the value of gifts made exceeds an amount of EUR 15,000 during a period of five years. Furthermore, gratuitous transfers to foundations falling under the Austrian Foundation Transfer Tax Act described above are also exempt from the notification obligation. Intentional violation of the notification obligation may trigger fines of up to 10 per cent of the fair market value of the assets transferred.

Further, gratuitous transfers of the Notes may trigger income tax at the level of the transferor pursuant to § 27(6)(1) and (2) of the Austrian Income Tax Act (see above).

6. U.S. Withholding Tax under FATCA

Sections 1471 through 1474 of the U.S. Internal Revenue Code (commonly referred to as FATCA) imposes certain tax information reporting and withholding regime for payments made or received by U.S. withholding agents, multinational companies, certain Foreign Financial Institutions (FFIs) and other foreign persons. A participating financial institution is required under FATCA to:

- Classify clients and counterparts according to a specific FATCA typology
- Report accounts held by U.S. persons, U.S. taxpayers, certain non-financial foreign entities owned by U.S. persons
- Withhold tax in certain circumstances, on withholdable payments paid to non-consenting parties (FATCA non-compliant clients / counterparts)

The Issuer is committed to being and remaining fully FATCA compliant. Accordingly, the Issuer may need to report information about account holders who do not provide the required documentation and may also be required to withhold on or in respect of FATCA at the rate of 30 per cent. on certain U.S. source payments, if the client has not returned the correct documentation. U.S. source income that is fixed or determinable, annual or periodical (FDAP) income (starting 1 July 2014) and gross proceeds (starting 1 January 2019) from the sale or other disposition (including redemption) of property that can produce U.S. source interest or dividend income are payments subject to 30 per cent withholding. Therefore, among others, custody business with U.S. securities (equities, bonds, notes, shares of investment funds, or other interest-bearing obligations issued by U.S. residents or U.S. corporations or the United States) may be impacted by FATCA withholding.

A withholding agent must withhold 30 per cent of any withholdable payment made after 30 June 2014, unless the payment is made under a **grandfathered obligation** or constitutes gross proceeds from the disposition of such an obligation. The term grandfathered obligation includes debt instruments outstanding on 1 July 2014 with a fixed maturity other than demand deposits

Solely for purposes of a **foreign passthru payment**, the term grandfathered obligation also includes any obligation ("**Grandfathered Passthru Obligations**") that is outstanding on or before the date that is six months after the date on which U.S. final regulations defining the term foreign passthru payment are filed with the U.S. Federal Register (the "**Grandfather Date**").

However, a participating FFI is **not required to deduct and withhold tax** on a **foreign passthru payment** made by such participating FFI to an account held by a recalcitrant account holder or to a nonparticipating FFI before the later of **1 January 2019**, or the date of publication in the U.S. Federal Register of final regulations defining the term foreign passthru payment. As of the date hereof, such term remains undefined.

The Issuer and financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of up to 30 per cent on all, or a portion of, payments in respect of the Notes made after 31 December 2018. This withholding tax does not apply to payments on Notes that are Grandfathered Passthru Obligations unless: (x) such Notes are "materially modified" after that date, (y) such Notes are characterised as equity for U.S. federal income tax purposes, or (z) the Issuer issues further Notes on or after the Grandfather Date that form part of the same series as the existing Notes, other than pursuant to a "qualified reopening" for U.S. tax purposes.

The Issuer as an Austrian Financial Institution has registered with the U.S. IRS as a "Participating Financial Institution not covered by an IGA; or Reporting Financial Institution under a Model 2 IGA (**Reporting Model 2 FFI**)". Its Global Intermediary Identification Number (**GIIN**) is "**28CWN4.00000.LE.040**". The issuer, therefore, may be required to provide certain information about investors. Under such an FFI agreement, withholding may be triggered if: (a) an investor does

not provide information sufficient for the relevant party to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States Account" of the Issuer, (b) an investor does not consent, where necessary, to have its information disclosed to the U.S. Internal Revenue Service (IRS) or (c) any investor or person through which payment on the Notes is made is not otherwise able to receive payments free of withholding under FATCA.

Austria negotiated an Intergovernmental Agreement (IGA Model 2) with the United States (the "U.S.-Austrian IGA") which entered into force on 9 December 2014 in order to facilitate the implementation of FATCA for Austrian financial institutions (i.e. custodial institutions, depository institutions, investment entities or specified insurance companies) and to allow reporting of specific customer information to the IRS on accounts held by Non Participating FFIs and certain U.S. persons. If an Austrian financial institution should fail to comply with the requirements set out by FATCA and the U.S.-Austria IGA, it may ultimately lose its FATCA compliant status and thus become subject to FATCA withholding as described above. It is presently unclear if and when the United States and Austria might address withholding on "foreign passthru payments" (which may include payments on the Notes) or if such withholding will be required at all.

7. Taxation in the Czech Republic

*The following is a general description of certain tax aspects of Czech laws regarding the acquisition, ownership, disposition and retirement of the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in the relevant countries or elsewhere. This summary does not take into account or discuss the tax laws of any country other than the Czech Republic nor does it take into account specific double taxation treaties, credit of foreign taxes, individual circumstances, status and financial situation or investment objectives of an investor. The tax position of certain categories of holders of the Notes (" **Holders** ") who are subject to special rules such as, for example, dealers in securities, insurance companies and collective investment schemes, and Holders who have (or are deemed to have) acquired their Notes by virtue of an office or employment, is not considered.*

*The following relates to certain tax aspects of Czech laws and does not specifically comment on or take into account the impact of the U.S. Foreign Account Tax Compliance Act ("**FATCA**"), European Union financial transaction tax or any of their aspects. The following is based upon the tax laws of the Czech Republic as in effect on the date of this document and is subject to any change in law that may take effect after such date. It is recommended that parties interested in acquiring the Notes consult their legal and tax advisors with regard to the tax, foreign exchange and legal consequences of acquiring, holding and disposing of the Notes and receiving payments under the tax and foreign exchange legislation in effect in the Czech Republic and the countries where such parties reside, as well as countries in which proceeds from holding or selling the Notes could be taxed.*

The following assumes that the Issuer is not resident in, and has no permanent establishment in the Czech Republic.

7.1 Taxation of Interest Income

Interest income (which may include also the difference between the selling price of the Notes and their issue price if the Notes are sold to the Issuer) from the Notes realized generally on a cash basis by (a) an individual Holder resident in the Czech Republic for tax purposes ("**Czech Individual Holder**") or by (b) an individual Holder not resident in the Czech Republic for tax purposes ("**Non-Czech Individual Holder**") holding the Notes through a permanent establishment in the Czech Republic, is taxed in the general tax base and subject to personal income tax of 15 per cent (without taking deductibles from tax base or from tax into account).

Interest income recognized generally on an accrual basis by (a) a corporate Holder resident in the Czech Republic for tax purposes ("**Czech Corporate Holder**") or (b) a corporate Holder not resident in the Czech Republic for tax purposes ("**Non-Czech Corporate Holder**") holding the Notes through

a permanent establishment in the Czech Republic, is generally subject to Czech corporate income tax of 19 per cent (without taking deductibles from tax base or from tax into account).

All Holders that are subject to tax in the Czech Republic are generally obliged to declare such interest income in their annual tax returns on a self-assessment basis.

Interest income of certain taxpayers (e.g. foundations, Securities Traders Guarantee Fund, investment funds) may be tax exempt under certain conditions or subject to a lower rate of tax.

Interest income of Non-Czech Individual Holders and Non-Czech Corporate Holders other than those holding the Notes through a permanent establishment in the Czech Republic is not subject tax in the Czech Republic.

7.2 Taxation of Capital Gains and Losses

With the exception of capital gains from the sale of the Notes by an individual Holder to the Issuer, which are treated as interest income for Czech individual income tax purposes, all other capital gains (and losses) are included in the "other income" partial tax base for Czech income tax purposes, unless exempt from tax.

Income realized by a non-Czech Holder, not holding the Notes through a permanent establishment in the Czech Republic, from the sale of the Notes to another non-Czech Holder, not acquiring the Notes through a permanent establishment in the Czech Republic, will not be subject to Czech income tax.

Income realized by a non-Czech Holder, holding the Notes through a permanent establishment in the Czech Republic, from the sale of the Notes will be, unless exempt, subject to taxation in the Czech Republic.

Income realized by a non-Czech Holder, not holding the Notes through a permanent establishment in the Czech Republic, from the sale of the Notes to (a) a Czech Holder or (b) a non-Czech Holder acquiring the Notes through a permanent establishment in the Czech Republic, will be subject to taxation in the Czech Republic unless (i) the non-Czech Holder realizing that income is resident in a country having in force a double taxation treaty with the Czech Republic, pursuant to the terms of which the right to tax that income is conferred exclusively to the former country, or (ii) in the case of a selling Non-Czech Individual Holder, such income is exempt from tax.

If income realized by a non-Czech Holder from the sale of the Notes is subject to taxation in the Czech Republic (as discussed in the foregoing paragraphs), a Czech Holder or a permanent establishment in the Czech Republic of a non-Czech Holder paying the income will be obliged to withhold tax security of 1 per cent on a gross basis, unless the non-Czech Holder is tax resident in a European Union or European Economic Area member state, or unless such obligation is waived pursuant to a prior decision by the Czech tax authorities. This tax security could be, subsequently, credited against the final Czech tax liability of the non-Czech Holder.

Income realized by a Czech Holder and income realized by a Non-Czech Holder from the sale of the Notes which is subject to taxation in the Czech Republic as described above is, unless exempt, generally subject to Czech corporate income tax of 19 per cent or personal income tax of 15 per cent. In the specific case of (a) a Czech Individual Holder who holds the Notes as part of their business property or (b) a Non-Czech Individual Holder holding the Notes through a permanent establishment in the Czech Republic who holds the Notes as part of their business property, income in excess of 48-times the average wage (CZK 1,438,992 for 2018) is additionally subject to a solidarity surcharge tax of 7 per cent and potentially also to other social security and health insurance levies.

All Holders subject to tax in the Czech Republic are generally obliged to declare such taxable income in their annual tax returns on a self-assessment basis.

Income realized by a Czech Individual Holder or a Non-Czech Individual Holder from the sale of the Notes acquired on or after 1 January 2014 is exempt from Czech personal income tax provided that

the holding period of the Notes exceeded three years and the Notes have not been held as part of business property of such individual, or, if so, the Notes will not be sold prior to the expiry of a three year period following the termination of that individual's business activities. Furthermore, income from the sale of the Notes realized by individual Holders is exempt from taxation, if the aggregate (worldwide) income of that individual in the given calendar year from the sale of all securities (including the Notes) does not exceed the amount of CZK 100,000, assuming the Notes have never been held as part of business property of such individual.

A Holder who is an individual is obliged to report income from the Notes to the Czech tax authorities if that income is exempt from taxation under the above rules and exceeds, in each individual case, CZK 5,000,000. Non-compliance with that reporting obligation may be penalized by a sanction of up to 15% of the gross amount of that income.

For Czech Holders and permanent establishments of non-Czech Holders, who keep books and hold the Notes as part of their business property losses upon a sale of the Notes will generally be tax deductible. By contrast, losses incurred by Czech Individual Holders and Non-Czech Individual Holders other than those mentioned in the previous sentence are generally non-deductible, although losses, where the income from the sale of the Notes is not exempt, could be deducted from other taxable capital gains realized on the Notes or arguably also other securities within the same calendar year.

Czech Holders and permanent establishments of non-Czech Holders who are subject to Czech accounting standards for entrepreneurs or to Czech accounting standards for financial institutions may be required to revalue the Notes to fair value for accounting purposes, whereby the unrealized gains and losses would be accounted for as revenue or expense, respectively. Such revenue is generally taxable and the corresponding expense is generally tax deductible for Czech tax purposes.

8. Taxation in the Slovak Republic

The following is a general description of certain tax aspects of Slovak laws regarding the acquisition, ownership, disposition and retirement of the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in the relevant countries or elsewhere. This summary does not take into account or discuss the tax laws of any country other than the Slovak Republic nor does it take into account specific double taxation treaties, credit of foreign taxes, individual circumstances, status and financial situation or investment objectives of an investor. The tax position of certain categories of holders of the Notes ("Holders") who are subject to special rules such as, for example, non-for-profit organizations, is not considered.

The following relates to certain tax aspects of Slovak laws and does not specifically comment on or take into account the impact of the FATCA, European Union financial transaction tax or any of their aspects. The following is based upon the tax laws of the Slovak Republic as in effect on the date of this document and is subject to any change in law that may take effect after such date. It is recommended that parties interested in acquiring the Notes consult their legal and tax advisors with regard to the tax, foreign exchange and legal consequences of acquiring, holding and disposing of the Notes and receiving payments under the tax and foreign exchange legislation in effect in the Slovak Republic and the countries where such parties reside, as well as countries in which proceeds from holding or selling the Notes could be taxed.

The following assumes that the Notes are issued outside of the Slovak Republic, that the Issuer is not treated as a resident of the Slovak Republic for tax purposes and has no permanent establishment in the Slovak Republic.

8.1 Slovak Individuals

Interest income on the Notes paid to (i) an individual who is treated as a Slovak tax resident and (ii) an individual who is not treated as a Slovak tax resident but who holds the Notes through its permanent establishment in the Slovak Republic ("**Slovak Individual**") is subject to taxation in the

Slovak Republic on cash basis and shall be included in his/her personal income tax base and taxed in his/her personal income tax return. Similarly, capital gain (i.e. the difference between (i) the sale price and (ii) the acquisition price of the Notes, increased by related costs connected with the acquisition and sale of the Notes) realised by a Slovak Individual upon the sale of the Notes is subject to taxation in the Slovak Republic on cash basis and shall be included in his/her personal income tax base and taxed in his/her personal income tax return.

The personal income of the Slovak Individual is subject to progressive taxation with the rates of 19 per cent or, for annual income exceeding approx. EUR 36,000, 25 per cent. Depending on the Slovak Individual's overall tax position, he/she may be entitled to a tax exemption up to the amount of EUR 500 from income realised from the sale of the Notes in one tax period. Moreover, as of January 1, 2016, income realized from the sale of the Notes is exempt from taxation if (i) the Notes are traded on a regulated market and (ii) the Holder holds the Notes for more than a year; however, the exemption does not apply if the Holder holds the Notes as part of his/her business assets. In general, any loss realised by a Slovak Individual is tax non-deductible with some specific exemptions defined in the Slovak tax law.

8.2 Slovak Corporations

Interest income on the Notes paid to (i) a corporation which is treated as a Slovak tax resident and (ii) a corporation which is not treated as a Slovak tax resident but which holds the Notes through its permanent establishment in the Slovak Republic ("**Slovak Business**") is subject to taxation in the Slovak Republic on accrual basis and shall be included in its corporate income tax base and taxed in its corporate income tax return. Similarly, capital gain (i.e. the difference between (i) the sale price and (ii) the accounting value of the Notes) realised by a Slovak Business upon the sale of the Notes is subject to taxation in the Slovak Republic on accrual basis and shall be included in its corporate income tax base and taxed in its corporate income tax return.

In general, income derived from the Notes would be included in the tax base of a Slovak Business and taxed at a corporate income tax rate of 21 per cent. Any loss incurred by the Slovak Business upon the sale of the Notes should generally be tax non-deductible, with some exceptions, for example (i) the loss up to the amount of the income from the Note already included in the tax base, or (ii) if the Slovak Business is a professional security trader.

8.3 Non-Slovak Tax Residents

Interest payments made by the Issuer under the Notes to other Slovak tax non-resident than set out above is not subject to Slovak taxation. Capital gain realised by such Slovak tax non-resident upon the sale of the Notes is not subject to Slovak taxation.

8.4 Withholding Tax

Interest payments made under the Notes by the Issuer are not subject to Slovak withholding tax.

8.5 Gift, Estate or Inheritance Taxes

No gift or inheritance taxes apply in the Slovak Republic. No estate tax applies in the Slovak Republic with respect to the Notes.

8.6 Other applicable taxes

No Slovak stamp duty, registration, transfer or similar taxes are payable in connection with the acquisition, ownership, sale or disposal of the Notes by Slovak tax residents.

9. Taxation in Switzerland

The following is a general description of certain tax aspects of Swiss laws. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in Switzerland or elsewhere.

The following is based upon the tax laws of Switzerland and administrative practice as in effect on the date of this document and is subject to any change in law that may take effect after such date. It is strongly recommended that parties interested in acquiring the Notes consult their legal and tax advisors with regard to the tax, foreign exchange and legal consequences of acquiring, holding and disposing of the Notes and receiving payments under the tax legislation in effect in Switzerland and the countries where such parties reside, as well as countries in which proceeds from holding or selling the Notes could be taxed.

9.1 Swiss Withholding Tax

Payments of interest (be it periodic, as original issue discount or premium upon redemption) in respect of the Notes by the Issuer are not subject to Swiss Withholding Tax (*Verrechnungssteuer*), provided that the Issuer is at all times resident and managed outside of Switzerland for Swiss tax purposes.

On 4 November 2015, the Swiss Federal Council announced a mandate to the Swiss Federal Finance Department to institute a group of experts tasked with the preparation of a new proposal for a reform of the Swiss withholding tax system. The new proposal is expected to include in respect of interest payments the replacement of the existing debtor-based regime by a paying agent-based regime for Swiss withholding tax. Under such a new paying agent-based regime, if enacted, a paying agent in Switzerland may be required to deduct Swiss withholding tax on any payments or any securing of payments of interest in respect of a Note for the benefit of the beneficial owner of the payment.

9.2 Automatic Exchange of Information in Tax Matters

On October 29, 2014, Switzerland signed the Multilateral Competent Authority Agreement (the MCAA). The MCAA is based on article 6 of the OECD/Council of Europe administrative assistance convention and is intended to ensure the uniform implementation of Automatic Exchange of Information (the AEOI). The Federal Act on the International Automatic Exchange of Information in Tax Matters (the AEOI Act) entered into force on January 1, 2017. The AEOI Act is the legal basis for the implementation of the AEOI standard in Switzerland.

The AEOI is being introduced in Switzerland through bilateral agreements or multilateral agreements. The agreements have been, and will be, concluded on the basis of guaranteed reciprocity, compliance with the principle of speciality (i.e. the information exchanged may only be used to assess and levy taxes (and for criminal tax proceedings)) and adequate data protection.

Switzerland has concluded a multilateral AEOI agreement with the EU (replacing the EU savings tax agreement) and has concluded bilateral AEOI agreements with several non-EU countries.

Based on such multilateral agreements and bilateral agreements and the implementing laws of Switzerland, Switzerland has begun to collect data in respect of financial assets, including, as the case may be, Notes, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in a EU member state or in a treaty state from, depending on the effectiveness date of the agreement, 2017 or 2018, as the case may be, and begins to exchange it from 2018 or 2019.

10. Taxation in Poland

The following is a general description of certain tax aspects of Polish laws regarding the acquisition, ownership, disposition and retirement of the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in the relevant countries or elsewhere. This summary does not take into account or discuss the tax laws of any country other than Poland nor does it take into account specific double taxation treaties, credit of foreign taxes, individual circumstances, status and financial situation or investment objectives of an investor. The tax position of certain categories of holders of the Notes ("Holders") who are subject to special rules is not considered.

The following relates to certain tax aspects of Polish laws and does not comment on or take into account the impact of the FATCA, European Union financial transaction tax or any of their aspects. The following is based upon the tax laws and their interpretation in effect as of the date of this document which may be subject to changes. Such changes may also be retroactive and may negatively affect the tax treatment as described below. It is recommended that parties interested in acquiring the Notes consult their legal and tax advisors with regard to the tax, foreign exchange and legal consequences of acquiring, holding and disposing of the Notes and receiving payments under the tax and foreign exchange legislation in effect in Poland and the countries where such parties reside, as well as countries in which proceeds from holding or selling the Notes could be taxed. The reference to "interest" as well as to any other terms in the paragraphs below means "interest" or any other term, respectively, as understood in Polish tax law.

The following assumes that the Notes are issued outside of Poland, that the Issuer is not treated as a tax resident of Poland for tax purposes and has no permanent establishment in Poland as well as that Notes are not listed at Warsaw Stock Exchange

10.1 Taxation of Polish tax resident individuals (natural persons)

Natural persons are subject to tax on their worldwide income (revenues) regardless of the location of the source of such revenues (unlimited tax liability) if they have their place of residence in the territory of the Republic of Poland. A resident in Poland is a natural person who: 1) has the center of personal or economic interests (center of life interests) within the territory of Poland; or 2) is present in the territory of Poland for more than 183 days in a given tax year. This rule may be overridden by the provisions of the applicable double tax treaty concluded by Poland.

Interest income

Interest income, including discounts, derived by a Polish tax resident individual, does not cumulate with general income subject to the progressive tax rate but is subject to 19 percent flat-rate tax.

The interest payer, other than an individual not acting within the scope of his/her business activity, should withhold the 19 percent Polish tax upon any interest payment.

The entities operating securities accounts for the individuals, acting as tax remitters, should withhold this interest income if such interest income (revenue) has been earned in the territory of Poland and is connected with securities registered in the said accounts, and the interest payment to the individual (the taxpayer) is made through said entities. There are no regulations on where interest income is earned. In practice, unless specific circumstances indicate otherwise, it should be considered that interest income is earned at the jurisdiction of the debtor (with respect to the Notes – in the Republic of Austria).

With respect to income (revenue) from interest or discount transferred to taxpayers holding rights attached to securities (including Notes) registered in omnibus accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 19 percent flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the omnibus account holder. The tax is withheld on the date when an interest or discount payment is released to the omnibus account.

If Polish income tax is not withheld by payer or remitter, the individual is obliged to settle the tax himself/herself by 30 April of the following year, with the application of self-assessment method.

In principle, withholding tax incurred outside Poland, up to an amount equal to the tax paid abroad, but not higher than 19 percent tax on the interest amount, could be deducted from the Polish tax liability. Double tax treaties can provide other methods of withholding tax settlements.

Other income

Income other than interest or discount derived by a Polish tax resident individual from Notes held as non-business assets, qualify as capital income. This income does not cumulate with the general income subject to the progressive tax scale but is subject to a 19 percent flat rate tax. The costs of acquiring the Notes are recognised at the time the corresponding revenue is achieved. In principle, this income should be settled by the taxpayer by 30 April of the year following the year in which the income was earned, with the application of self-assessment method. No tax or tax advances are withheld by the person making the payments.

Notes hold as a business asset

If a Polish tax resident individual holds the Notes as a business asset, in principle, interest and capital gains income should be subject to income tax in the same way as other business income. The tax, at 19 percent flat rate or the 18 percent to 32 percent progressive tax rate depending on the choice and meeting of certain conditions by the individual should be settled by the individual himself/herself with the application of self-assessment method.

10.2 Taxation of a Polish tax resident corporate income taxpayer

A Polish tax resident, i.e., corporate income taxpayer having its registered office or place of management in Poland should be subject to 19 percent (or 15 percent for so called “small taxpayers”) income tax on the Notes (both on any capital gain and on interest/discount), following the same principles as those which apply to any other income received from applicable source of income. As a rule, for Polish income tax purposes, interest is recognized as taxable revenue on a cash basis, that is when it is received and not when it has accrued. In respect of capital gains, the cost of acquiring the Notes should be recognized at the time the revenue is achieved. The taxpayer independently (without the involvement of the tax remitter) settles tax on interest (discount) or capital gains on Notes, which is aggregated with other income derived from business operations conducted by the taxpayer.

In principle, income of corporate income taxpayer from a source of revenues is a surplus of the sum of revenues from this source of revenues over deductible costs, produced in the tax year. If the deductible costs exceed total revenues, the difference is a loss from the source of revenues. The income obtained from particular source of revenues may be reduced with the amount of the loss incurred on this source of revenues in the next subsequent five tax years, provided that the amount of reduction in every such year may not exceed 50% of the amount of such loss.

If the price without any justified economic reasons significantly differ from the market value of such things, rights or services, the tax authority shall determine such revenues at their market value. Tax-deductible costs shall constitute expenses pertaining to purchase of or subscription for Notes when the respective revenues from the disposal of Notes earns. Although no Polish withholding tax should apply on interest payable to Polish corporate income taxpayers, under specific rules applying to interest income on securities held on Omnibus Accounts, under Article 26.2a of the Polish Corporate Income tax Act, with respect to, among others, income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 20 per cent flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. There are also specific remitter obligations in respect of some payments to an entity with its registered office or management board in the country or territory regarded under specific tax regulations as the country or territory using harmful tax competition.

In principle, withholding tax incurred outside Poland, up to an amount equal to the tax paid abroad, but not higher than 19 percent tax on the interest amount, could be deducted from the Polish tax liability. Double tax treaties can provide other methods of withholding tax settlements.

10.3 Notes held by a non-Polish tax resident individual or corporate

Non-Polish tax residents are: 1) natural persons if they do not have their place of residence in the territory of the Republic of Poland; 2) corporate income taxpayers if they do not have its registered office or place of management in Poland. These rules apply without prejudice to double taxation conventions signed by the Republic of Poland.

Non-Polish residents are subject to Polish income tax only on their income earned in Poland. If a foreign recipient of income acts through a permanent establishment in Poland, to which the interest is related, as a matter of principle it should be treated in the same manner as a Polish tax resident, with the application of the same tax principles.

Under Article 3.3 of the CIT Act, income (revenues) earned in the Republic of Poland by non-residents includes in particular income (revenues) from: (i) all types of activity pursued in the Republic of Poland, including through a foreign establishment located in the Republic of Poland; (ii) immovable property located in the Republic of Poland or rights to such property, including from its disposal in whole or in part, or from the disposal of any rights to such property; (iii) securities and derivatives not being securities admitted to public trading in the Republic of Poland as part of the regulated stock exchange market, including income obtained from their disposal, or the exercise of rights resulting from them; (iv) the transfer of ownership of shares in a company, all the rights and duties in a partnership or ownership titles in an investment fund, a collective investment institution or another legal person or on account of the receivables being a result of holding of those shares, all the rights and duties or ownership titles, if immovable properties located in the territory of the Republic of Poland or rights to such immovable properties constitute at least 50 per cent of the value of the assets of such a company, partnership, investment fund, a collective investment institution or a legal person; (v) the receivables settled, including receivables made available, paid out or deducted, by natural persons, legal persons, or organizational units without legal personality, having their place of residence, registered office, or management board in the Republic of Poland, irrespective of the place of concluding or performing the agreement.

Similar provisions are included in Article 3.2b of the PIT Act, i.e. are applicable to individuals.

The above list of income (revenues) gained in Poland, as provided in Article 3.3. of the CIT Act and Article 3.2b of the PIT Act, is not exhaustive; therefore, other income (revenues) may also be considered as earned in Poland.

As a rule, non-residents (both natural persons and corporate income taxpayers) have the same tax obligations as Polish residents with respect to income (revenue) earned in the territory of Poland. However, some explicit tax exemptions may result from the relevant double tax treaties or from domestic Polish tax law.

If the Notes are issued by a foreign entity and are not listed at Warsaw Stock Exchange, in principle, subject to the above mentioned tax regulations, interest should not be considered as having been earned in Poland. In such circumstances, capital gains should also not be considered as arising in Poland. On the other hand, most of the tax treaties concluded by Poland provide for Polish tax exemption on capital gains earned in Poland by a foreign tax resident. In order to benefit from a tax treaty, a foreign investor should present a relevant certificate of its tax residency.

Interest income

In principle, income from interest or discount earned on covered bonds by non-Polish tax resident individual or corporate is exempt from Polish income tax. It is not entirely clear whether Covered Bank Bonds are subject to this exemption, in particular it can be argued that only covered bonds (in Polish: *listy zastawne*) issued under the Polish Covered Bond Act (*ustawa o listach zastawnych i bankach hipotecznych*) can benefit from this exemption. Non-Polish tax resident individual or corporate holding covered bonds which were not issued under the Polish Covered Bond Act should seek individual tax advice in order to benefit from this exemption.

Although no Polish withholding tax should apply on interest payable to non-Polish tax residents (natural persons or corporate income taxpayers), under specific rules applying to interest income on securities held on Omnibus Accounts or payable to the entities with its registered office or management board in the country or territory regarded as countries or territories using harmless competition (listed in the applicable list of countries and territories), there is a risk that such tax would be withheld. Under Article 26.2a of the Polish Corporate Income Tax Act, with respect to income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 20 per cent flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. Under Article 30a.2a of the Polish Personal Income Tax Act, with respect to income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 19 per cent flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. If such tax is withheld with respect to non-Polish tax resident taxpayer, with respect to refund of such tax, the entity should contact its tax advisor.

Other income

As indicated above, non-Polish tax resident individuals and corporate income taxpayers are subject to Polish income tax only with respect to their income earned in Poland. With respect to capital gains, in certain circumstances, based on Article 3.3 of the CIT Act and Article 3.2b of the PIT Act, such income may be treated as derived in Poland. However, most of the tax treaties concluded by Poland provide for a Polish income tax exemption on capital gains derived from Poland by a foreign tax resident.

To benefit from a tax treaty, a foreign investor should present the relevant certificate of its tax residency. Moreover, many tax treaties provide protection only for beneficial owners.

Specific rules will apply if a foreign recipient of income acts through a permanent establishment in Poland to which income is related. In principle, it should be treated in the same manner as a Polish tax resident.

10.4 Civil Law Activities Tax

Agreements for sale or exchange of assets or proprietary rights are subject to tax on civil law transactions ("CTT"). Such transactions are taxable if their subjects are: 1) assets located in Poland or proprietary rights exercisable in Poland; 2) assets located abroad or proprietary rights exercisable abroad if the acquirer's place of residence or registered office is located in Poland and the civil law transaction was carried out in Poland.

Although this is not regulated by the law, in practice, in principle Notes being issued by a non-Polish entity should be considered as rights not exercisable in Poland.

Neither an issuance of Notes nor their redemption is subject to CTT as it is not sale or exchange agreement. CTT on the sale or exchange of Notes is 1 per cent of their market value, payable within 14 days after the sale or exchange agreement has been entered into. CTT should be withheld by notary public if such agreement is entered into in notarial form.

The entity acquiring the Notes pays CTT and in the case of exchange agreements, both parties jointly and severally are liable to settle CTT.

CTT does not apply to civil law activities: 1) to the extent such activity is charged with VAT (in any EU country), or 2) if at least one of the parties to the transaction is exempt from VAT (in any EU country). CTT exemption applies to sale of property rights constituting financial instruments:

- a) to investment companies and foreign investment companies,
- b) with intermediary of investment companies or foreign investment companies,
- c) as part of organized trading,
- d) outside organized trading by investment companies and foreign investment companies, if those rights were acquired by those companies under organized trading,

all within the meaning of the provisions of the Act of 29, July 2005, on trading in financial instruments (J.L. 2014, item 94, as amended).

10.5 Remitter's liability

A remitter which has not carried out its obligation to calculate and withhold due tax from a taxpayer, and to transfer the appropriate amount of tax to a relevant tax office, is liable for tax not withheld or tax withheld but not transferred to a relevant tax office. The remitter is liable for those obligations with all of its assets. The provisions on the remitter's liability do not apply only if separate provisions provide otherwise or if the tax has not been withheld due to the taxpayer's fault.

10.6 Tax on inheritance and donations

Tax on inheritance and donations is levied on the acquisition by natural persons of property located, and economic rights (including securities) exercised in Poland, by way of, among others, inheritance, ordinary legacy, further legacy, legacy by vindication (with real effect), bequest, donation or a donor's order. The inheritance tax on donations is also imposed on the acquisition of property located abroad or property rights exercised abroad if, on the date of the opening of the succession process or conclusion of a donation agreement, the acquirer was a Polish citizen or had a permanent residence in Poland.

The tax liability is borne by the person acquiring the property or economic rights. The tax base is usually the value of the acquired property and economic rights after the deduction of any debts and encumbrances (net value), determined as at the date of acquisition and at the market prices prevailing on the date on which the tax obligation arises.

The rates of the tax on inheritances and donations vary and are determined by the degree of consanguinity or affinity or any other personal relationship between the heir and the testator or the donor and the donee.

Within one month of the date on which the tax liability arose, taxpayers must file a tax return disclosing the acquisition of property or economic rights on an appropriate form with the head of the relevant tax office. The tax is payable within 14 days of receiving the decision of the head of the relevant tax office assessing the amount of the tax liability. If the agreement is concluded in the form of a notarial deed, the tax on inheritance and donations is collected and remitted by the notary public.

Securities acquired by close relatives (a spouse, descendants, ascendants, stepchildren, siblings, stepfather and stepmother) are tax-exempt subject to filing an appropriate notice with the head of the relevant tax office in due time. The aforementioned exemption applies if, at the time of acquisition, the acquirer was a citizen of an EU (EEA) member state.

Tax is not levied on the acquisition of economic rights exercised in the territory of Poland (including securities) if on the date of such acquisition neither the transferee nor the decedent nor donor were Polish citizens and had no place of permanent residence or registered office in the territory of the Republic of Poland.

10.7 Tax General Anti-Abuse Rule

The Polish tax authorities may under relevant procedure, are able to challenge taxpayers' actions which it deems as tax avoidance under the General Anti-Abuse Rule (the "**GAAR**"). In principle this may

apply to transactions entered into solely or mainly for tax reasons, including transactions entered into for the purpose of avoiding, decreasing or delaying the tax payable in Poland in connection with such transactions. In particular, tax avoidance may be achieved by using a structure that involves intermediaries, despite a lack of economic justification for their involvement. If the relevant transaction or structure is deemed to be tax avoidance, the tax liability of the relevant taxpayer will be calculated as if this liability resulted from a "normal" transaction of similar economic consequences or by ignoring the tax avoidance activity, which may result in a higher tax becoming due and payable.

11. Taxation in Hungary

The following is a general discussion of certain Hungarian tax consequences of the acquisition, ownership and disposal of Notes. It does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of Hungary currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive effect.

Prospective purchasers of Notes are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposal of Notes, including the effect of any state or local taxes, under the tax laws of Hungary and each country in which they are tax-resident. The acquisition of the Notes by non-Hungarian tax-resident Noteholders or the payment of interest under the Notes may trigger additional tax payments in the country of tax residence of the Noteholder, which is not covered by this summary but is where the provisions of the treaties on the avoidance of double taxation should be taken into consideration.

11.1 Taxation of Hungarian tax-resident Noteholders

11.1.1 Other than private individuals

Under Act LXXXI of 1996 on Corporate Tax and Dividend Tax, Hungarian tax resident, non-individual taxpayers are subject to full, all-inclusive corporate income tax liability. Tax resident entities are those established in Hungary. Foreign persons having their place of management in Hungary are also considered to be Hungarian tax resident taxpayers. Taxable income is based on the pre-tax profit as shown in the financial statements and adjusted by certain increasing and decreasing items set forth by tax legislation. Taxable profits include all types of income realised during the financial year, such as interest income and income from capital gains. The rate of Hungarian corporate income tax is 9 per cent..

Financial institutions, financial enterprises, insurance companies and investment enterprises may be subject to local business tax and innovation tax on the basis of the proceeds realised on Notes.

11.1.2 Private individuals

Hungarian tax resident individuals are in general natural persons: (i) who are citizens of only Hungary; (ii) whose stay in Hungary exceeds 183 days within a calendar year; (iii) who only have a permanent domicile (*állandó lakóhely*) in Hungary; or (iv) persons not covered by points (i)-(iii) whose centre of vital interests (*létférdekek központja*) is in Hungary.

Act CXVII of 1995 on Personal Income Tax (the "Personal Income Tax Act") applies to the tax liability of Hungarian and foreign tax resident private individuals. The tax liability of Hungarian tax resident private individuals covers the worldwide income of such persons.

According to the provisions of the Personal Income Tax Act, in the case of private individual Noteholders, interest income is the income paid as interest and the capital gains realised upon the redemption or the sale of publicly offered and publicly traded debt securities. Notes listed on a

regulated market of an EEA Member State are considered publicly offered and traded Notes. Such Notes, are subject to 15 percent personal income tax. Pursuant to Act LXVI of 1998 on Healthcare Contributions (the **Healthcare Contributions Act**), capital gains income realised by Hungarian resident individuals subject to further conditions is generally subject to 14 per cent. healthcare contribution (capped at HUF 450,000, approx. EUR 1,500).

Pursuant to Act CL of 2017 on the Rules of Tax Procedure (the "Act on Tax Procedure"), the definition of a Payer covers a Hungarian resident legal person, other organisation, or private entrepreneur that (who) provides taxable income, irrespective of whether such payment is made directly or through an intermediary (post office, credit institution). In respect of interest, Payer shall mean the borrower of a loan or the issuer of a note including, the investment service provider or credit institution providing the interest instead of it. In respect of revenues originating from a transaction concluded with the involvement of a licensed stockbroker, Payer shall mean such stockbroker. In respect of income that is earned in a foreign country and taxable in Hungary, Payer shall mean the "paying agent" (megbízott) (legal person, organization, or private entrepreneur) having tax residency in Hungary, except in cases where the role of a financial institution is limited to performing the bank transfer or payment.

11.2 Taxation of foreign tax-resident Noteholders

11.2.1 Other than private individuals

Non-Hungarian tax-resident Noteholders other than private individuals are not subject to Hungarian withholding tax on interest received in respect of the Notes.

Profits realised by non-Hungarian tax-resident Noteholders other than individuals in the form of interest or as capital gains on the sale of the Notes are not subject to corporate income tax in Hungary provided that the acquisition, ownership and disposition of the Notes are not attributable to any Hungarian permanent establishment of such Noteholders.

11.2.2 Private individuals

Non-Hungarian tax-resident private individual Noteholders are subject to tax in Hungary only with respect to their Hungarian source income or income that is otherwise taxable in Hungary if an international treaty or reciprocity so requires.

Interest received with respect to the Notes is regarded as Hungarian source income if the Issuer who is obliged to pay the interest is Hungarian tax-resident, or if the Noteholder has a permanent establishment in Hungary which is affected by the payment. In general, such income is subject to 15 percent personal income tax to be withheld by the Payer of the interest. However, a treaty on the avoidance of double taxation may fully exempt Noteholders from withholding tax or may reduce the applicable withholding tax rate. The Payer of the interest can apply the treaty benefits only on the basis of a tax residency certificate provided to the Payer by the individual before the interest payment. If the respective treaty requires, the individual must also provide his declaration with respect to his beneficial owner status prior to the payment of the interest. If the tax withheld was higher than the rate applicable under the a treaty on the avoidance of double taxation, the Noteholder may request a refund from the tax authority on the basis of his tax residency certificate and a certificate of the payment issued by the Payer.

13. Taxation in Romania

The following is a general discussion of the main Romanian tax implications arising from the acquisition, ownership, disposition and redemption of the Notes. The below does not represent a comprehensive analysis of all tax considerations which may be relevant to a decision to purchase the Notes and it is not intended to be, nor should it be construed to be, local or tax advice. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This overview is based on the laws of Romania currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect. The information contained within this section is limited to taxation issues, and prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

With regard to certain types of Notes issued as part of the program, no specific regulations exist in the Romanian tax legislation and to the best of our knowledge neither official statements of the tax authorities nor court decisions exist, and may not be clear how these Notes should be treated from a tax perspective. Moreover, the following overview does not provide for information with respect to the tax treatment of any underlying (e.g. bonds, shares, funds) received upon a physical delivery under the Notes unless otherwise explicitly referred to. If in particular cases certain Notes should qualify as equity or equity-like instruments from a Romanian tax perspective different taxation rules than those as described in the following overview may apply to such Notes.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the Romanian tax consequences of the acquisition, ownership and the sale, assignment or redemption of Notes and the receipt of principal or interest thereon, including the effect of any state or local taxes, under the tax laws of Romania and each country of which they are residents or citizens or may otherwise be liable to tax.

13.1 Tax residents in Romania

Persons (individuals and corporate entities) who are tax resident in Romania (in particular, (i) individuals having the domicile, the centre of vital interests or the habitual abode in Romania and (ii) companies incorporated in accordance with the Romanian legislation or having the effective place of management in Romania, as well as (iii) legal entities headquartered in Romania but incorporated under EU rules) are subject to income taxation (income tax or corporate income tax, as the case may be) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Notes) and, in general, capital gains.

From a personal income tax perspective, income arising from such Notes broadly qualifies as investment income (*Venituri din investiții*) under the Romanian Tax Code (*Codul Fiscal*) and particularly as:

- interest income for the regular interest payments and
- capital gains / losses (*Venituri din transferul titlurilor de valoare*) for the trading of such Notes on a Regulated Market or if the redemption price differs from the issue price.

a) Private individual investors

(i) Interest and Capital Gains

Gross interest income obtained from abroad by Romanian tax residents is subject to taxation in Romania with a 10 per cent flat income tax rate.

If such income is also subject to a tax withholding at source (in the country of the payer), then a foreign tax credit may be available in Romania as per the provisions of the relevant Double Tax Treaty and the Romanian Tax Code. The foreign tax credit can be claimed by Romanian tax residents who derive interest income subject to income tax both in Romania and in the country of source,

during the same tax year, according to the provisions of the Double Tax Treaty in place. In practice, supporting documentation attesting the actual income tax paid abroad will be required in order to claim this foreign tax credit in Romania.

Capital gains/losses generated from sale of Notes on Regulated Markets or the redemption of Notes issued at a discount, or where there is a difference between the redemption price and issue price, generate taxable income for Romanian residents, which is subject to a 10 per cent flat income tax rate. The capital gains/losses are generally determined as the difference between the sale price and issue price (taking into account any relevant issue discounts)/purchase price of such Notes. Transaction costs may be deducted for determining the taxable capital gain. Capital losses can be carried forward for a maximum period of 7 years and may be used to offset future capital gains from the same source country.

In addition to the flat income tax rate, Romanian tax resident individuals are also subject to a health insurance contribution of 10 per cent computed over the net annual investment income derived (be it interest or capital gain).

Special exemption from health insurance contribution may be applied for both interest income or capital gain, if certain conditions are fulfilled (e.g. if total taxable income from sources other than salary, cumulated during the tax year, is less than 12 minimum notional salaries). This is to be verified at the moment of deriving the income.

Investment income derived from abroad during a certain fiscal year (calendar year) must be reported through an annual tax return, which must be filed by the individual Romanian tax resident during the following year (until 15 March of next year). The income tax and health insurance contribution due on the taxable income generated, if the case, must be settled within the same deadline.

b) Legal entities investors

(i) Interest and Capital Gains

Interest received on the Notes by Romanian tax resident companies or Romanian permanent establishments of non-resident companies holding the Notes is taxable in Romania at a corporate income tax rate of 16 per cent.

The interest income is not subject to separate taxation but will be included in the overall taxable base computed for corporate tax purposes. Any resulting tax profits may be sheltered by existing tax losses before final taxation. Tax loss carry forwards are possible within a period of 7 consecutive years.

Gains or losses resulting from alienation (i.e. sale or other disposal) or redemption of the Notes are not subject to a specific tax treatment. Thus, any Romanian tax resident company or Romanian permanent establishment of non-resident companies transferring the Notes will include the related revenue and expenses in its overall taxable base and tax the result with a corporate income tax rate of 16 per cent, unless sheltered by existing tax losses.

Expenses directly and factually related to the sale, assignment or redemption or to the interest received should be deductible for corporate income tax purposes.

Considering the fact that Romania is not part of the Euro Zone, all accounting and tax records should be maintained in the local currency – RON (Romanian New Leu). Thus, any foreign exchange differences represent taxable or deductible elements (as the case may be) for corporate income tax purposes. For tax purposes, foreign exchange differences are assessed on a net basis as a difference between income and expense items.

Companies applying the microenterprise tax regime are subject to a rate of 1 per cent if the company has more than one employee or 3 per cent if the company has no employees rather than the 16 per cent rate corporate income tax. The taxable base to which the microenterprise rate is applied is represented by income derived from any source reduced by certain types of income as specified by the

tax legislation.

(ii) Foreign taxes

If payments of income (including interest) performed towards a Romanian tax resident company or Romanian permanent establishment of non-resident company holding the Notes is subject to withholding tax in the residence country of the Issuer, the related expenses incurred by a Romanian tax resident company (or the permanent establishment) with the taxes withheld at source are non-deductible for corporate income tax purposes.

Tax credit or exemption may be subsequently claimed in Romania under both the provisions of the Romanian tax legislation and the applicable Double Tax Treaty.

According to the Romanian Tax Code (*Codul Fiscal*), foreign tax credit is granted if provided for in the Double Tax Treaty and if the Romanian tax resident provides supporting documentation attesting the payment of the tax abroad. However, the tax credit may not exceed the Romanian tax payable on the income.

13.2 Tax non-residents

Non-residents are only taxed on Romanian sourced income.

13.3 Inheritance and gift tax

According to the Romanian Tax Code (*Codul Fiscal*), any cash or commodities (including securities and gold) inherited by a Romanian tax resident individual should be exempt from income tax and social security contributions. Furthermore, there is no reporting obligation of such transactions to the Romanian tax authorities. When the inheritor sells or redeems the Notes at maturity for the capital gain computation he will be allowed to deduct the price initially paid (either the issue price or the purchase price).

Similarly to the inheritance treatment mentioned above, the Romanian tax law does not specifically impose an income tax on gifts, other than certain specific situations which do not involve the transfer of securities such as the Notes. Thus, no taxes would be due in Romania by a resident receiving Notes as gifts. When the recipient of the gift sells or redeems the Notes at maturity for the capital gain computation he will not be allowed to deduct the price initially paid by the previous owner (either the issue price or the purchase price).

13.4 Implementation of the EU Savings Directive

As per the provisions of EC Council Directive 2003/48/EC on the taxation of savings income in the form of interest payments, each EU Member State (including Romania starting with 2007) must provide information with respect to interest payments and other similar income paid by EU resident entities to EU resident individuals.

This Directive has been repealed on 10 November 2015 by Council Directive (EU) 2015/2060 leaving in place Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation, which was transposed in Romania through Law no. 207/2015 regarding the Romanian Tax Procedure Code. Based on these Directives the tax authorities of the EU Member States are obliged to perform mandatory automatic exchanges of financial accounts information starting with 1 January 2016.

GENERAL INFORMATION

Interests of Natural and Legal Persons Involved in the Issue/Offer

Certain Dealers and their affiliates may be customers of, borrowers from or creditors of the Issuer and its affiliates. In addition, certain Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for the Issuer and its affiliates in the ordinary course of business.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Reasons for the Offer and Use of Proceeds

The reasons for the offer are to generate funding, to hedge certain risks or to take advantage of current market opportunities (arbitrage).

If, in respect of any particular issue, there exists a particular identified use of proceeds other than using the net proceeds for the above-mentioned reasons, then this will be stated in the relevant Final Terms. In any case, the Issuer is free in the use of proceeds from each issue of Notes. This also applies in case of Green Bonds or Social Bonds which serve the refinancing of eligible assets as further specified in the Final Terms.

Method to determine the yield

The method to determine the yield is the ICMA method. The ICMA method determines the effective interest rate of fixed rate notes taking into account accrued interest on a daily basis.

In the case of offers in Hungary, the so called "unified yield" has to be calculated as well.

Method of determining the price and the process for its disclosure

The Issuer will determine the issue price for each Tranche of Notes in its sole discretion taking into consideration general interest levels and the demand of potential investors as shown in the book building process for such Tranche of Notes and/or after consultation of the financial institutions involved in the issue. The issue price so determined will be disclosed in the relevant Final Terms, if required.

Notes which are redeemed on the Maturity Date at a percentage of their principal amount

Notes will be redeemed on the Maturity Date at a redemption amount or at a percentage of their principal amount in the Specified Currency or another currency. In the case of Notes which are redeemed on the Maturity Date at a percentage of their principal amount, such percentage rate will be either (i) specified in the applicable Final Terms or (ii) determined on the basis of a formula specified in the applicable Final Terms and in accordance with the positive performance of the unrevised Harmonised Index of Consumer Prices (excluding Tobacco) for the Euro Zone (HICP). However, the

redemption amount may not be less than the principal amount of the Notes. The redemption amount with respect to Notes other than Zero Coupon Notes will be determined at the Issuer's sole discretion and will be at least equal to the principal amount. The redemption amount with respect to Zero Coupon Notes will be determined at the Issuer's sole discretion and will be at least equal to the capital invested.

Notes with a term of less than 12 months

Under the Luxembourg Prospectus Law for securities which implements the Prospectus Directive, prospectuses relating to money market instruments having a maturity at issue of less than 12 months and complying also with the definition of securities are not subject to the approval provisions of Part II of such law. Therefore, the approval of the Base Prospectus does not cover Notes issued under the Programme which have a maturity at issue of less than 12 months.

Restrictions on the free transferability of the securities

The Notes are freely transferable, except for the case in which the Global Certificate is kept in custody in the safe of the Issuer. In the latter case the Notes are only transferable within the Issuer's own settlement systems.

Green Bonds and Social Bonds

The Issuer will provide more details with regard to its prospective Green Bond or Social Bonds issues in its Green Bond Framework or Social Bond Framework which will be disclosed on the Issuer's website (www.rbinternational.com) once the frameworks are finalised and in the relevant Final Terms under the section "Use of proceeds". Such Green Bond Framework or Social Bond Framework may be updated from time to time. Prior to issuances of Green Bonds or Social Bonds, the Issuer intends to mandate a recognised second party opinion provider such as Sustainalytics GmbH ("Sustainalytics"), a provider of environmental, social and governance (ESG) research and analysis. The second party opinion provider will evaluate the robustness and credibility of Raiffeisen Bank International AG's Green Bond Framework or Social Bond Framework and intended use of proceeds in terms of its alignment with relevant industry standards, including the Green Bond Principles 2018 (as amended from time to time) Social Bond Principles 2018 (as amended from time to time). On such basis, the second party opinion provider typically reviews the Issuer's Green Bond Framework or Social Bond Framework and provides its opinion thereon.

MiFID Product Governance / Target Market

The Final Terms in respect of any Notes may include a legend entitled "MiFID II Product Governance" which may outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC ("**IMD**"), where that customer would not

qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.

*) Moody's Deutschland GmbH, An der Welle 5, 2nd Fl., 60322 Frankfurt, Germany and Standard & Poor's Credit Market Services Europe Limited, UK (Niederlassung Deutschland), Frankfurt am Main are established in the European Union, are registered under Regulation (EC) No. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended (the "**CRA-Regulation**") and are included in the list of credit rating agencies registered in accordance with the CRA-Regulation published by the European Securities and Markets Authority on its website (www.esma.europa.eu/page/List-registered-and-certified-CRAs).

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

1. Moody's appends long-term obligation ratings at the following levels: Aaa, Aa, A, Baa, Ba, B, Caa, Ca and C. To each generic rating category from Aa to Caa Moody's assigns the numerical modifiers "1", "2" and "3". The modifier "1" indicates that the bank is in the higher end of its letter-rating category, the modifier "2" indicates a mid-range ranking and the modifier "3" indicates that the bank is in the lower end of its letter-rating category. Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations and range from P-1, P-2, P-3 down to NP (Not Prime).

2. S&P assign long-term credit ratings on a scale from AAA (best quality, lowest risk of default), AA, A, BBB, BB, B, CCC, CC, C, SD to D (highest risk of default). The ratings from AA to CCC may be modified by the addition of a "+" or "-" to show the relative standing within the major rating categories. S&P may also offer guidance (termed a "credit watch") as to whether a rating is likely to be upgraded (positive), downgraded (negative) or uncertain (developing). S&P assigns short-term credit ratings for specific issues on a scale from A-1 (particularly high level of security), A-2, A-3, B, C, SD down to D (highest risk of default).
